Colchester Borough Council's
Covid-19
Community
Response Pack

VERSION 16

27 January
2021

www.colchester.gov.uk/coronavirus

Hands/Face/Space/Ventilation

INTRODUCTION

This pack has been produced to support you and your community during the ongoing COVID-19 situation.

Within you'll find a list of key contacts, resources and information in one place, which we hope you can share with your community.

During these worrying and unprecedented times Colchester Borough Council (CBC) continues to work closely with local strategic partners, banded together as One Colchester. The council, voluntary sector, police, health, education and business community along with many others make up the partnership and are committed to close collaboration in support of our communities.

A CBC Community Response team has been mobilised, closely aligned to Community360 (C360) dedicated providing support, advice and assistance to those who need it across the borough.

Colchester's amazing communities have responded in force, volunteers, groups and activities springing up with local leaders to help those in need. The Council is supporting this social movement however it can.

Our Business community, despite all their own challenges are stepping up and helping in so many ways and the Council is committed to supporting and keeping them up to date with advice

and information as soon as things are shared from Government at www.colchester.gov.uk/coronavirus

Organisations or groups who need advice or support are encouraged to contact the Communities Response team by emailing communities@colchester.gov.uk

Community360 is co-ordinating an extensive volunteer response, along with many local communities who are mobilising themselves into action. Contact them at information@community360.org.uk

We will update the pack on a regular basis as more information becomes available.

PROTECT YOURSELF. PROTECT LOVED ONES. PROTECT THE NHS

Although the numbers of new Covid cases in Colchester are slowly decreasing, we are still experiencing extremely high numbers and the Covid-19 situation in North Essex remains serious.

Local hospitals are overwhelmed: they have dozens of new patients arriving every day. They have had to repurpose wards for Covid-19 patients. Many as young as 30 are very ill with Covid-19. Office-based workers are being redeployed to support nursing staff.

The pressure on the NHS shows no sign of slowing. It could be you or your family

facing difficulty getting the NHS care you rely on.

So, this is an appeal to every resident of North Essex. You know what you need to do.

- Stay at home
- Ventilate your home
- Wash your hands
- Wear a face covering
- Keep your distance

Protect yourself, protect your loved ones and protect the NHS. Let's look out for each other; we will get through this.

Covid-19 cases in North Essex are dangerously high. You know what you need to do.

-  Ventilate your home
-  Wash your hands often
-  Wear a face covering
-  Keep your distance

LET'S STOP THE SPREAD

#StaySafeEssex

ENGLAND LOCKDOWN STAY AT HOME

**THE NEW STRAIN OF CORONAVIRUS IS SPREADING FAST.
WE ALL NEED TO PLAY OUR PART TO STOP THE SPREAD.**

▶ LEAVING HOME

You must not leave, or be outside of your home or garden, except for a very limited set of exemptions e.g. to shop for basic necessities, exercise, go to work if you cannot do so from home, or to escape risk of harm.

▶ MEETING OTHERS

You cannot leave your home to meet socially with anyone, except with your household or support bubble (if eligible to form one). Stay 2 metres apart from anyone not in your household or support bubble.

▶ EXERCISE

You may exercise on your own, with your household or support bubble, or with one person from another household (when on your own). Stay 2 metres apart from anyone not in your household or support bubble.

▶ BARS, PUBS AND RESTAURANTS

Hospitality closed aside from sales by takeaway (until 11pm), click-and-collect, drive-through or delivery. Alcohol cannot be purchased through takeaway or click-and-collect from hospitality venues.

▶ RETAIL

Essential shops can open. Non-essential retail must close and can only run click-and-collect and delivery.

▶ WORK AND BUSINESS

Everyone must work from home unless they are unable to do so.

▶ EDUCATION

Early years settings open. Primary and secondary schools and colleges move to remote provision except for vulnerable children and children of critical workers. Most university students to move to remote learning.

▶ LEISURE AND SPORTING FACILITIES

Closed, with limited exceptions.

▶ ACCOMMODATION

Closed, with limited exceptions.

▶ PERSONAL CARE

Closed.

▶ ENTERTAINMENT

Closed.

▶ OVERNIGHT STAYS

You must not stay overnight away from home. Limited exceptions apply e.g. to stay with your support bubble.

▶ WEDDINGS AND FUNERALS

Funerals of up to 30 people permitted. Weddings up to 6 people permitted in exceptional circumstances. Wakes and other linked ceremonial events of up to 6 permitted.

▶ PLACES OF WORSHIP

Places of worship can remain open and communal worship is permitted, but you must not mix with those outside your household or support bubble.

▶ TRAVELLING

You must stay at home. If you do leave home for a very limited set of exemptions, you should stay local in the village, town, or part of the city where you live where possible. Do not travel abroad unless an exemption applies.

▶ CLINICALLY EXTREMELY VULNERABLE

Shielding reintroduced across England. You should not travel to work, school, college or university and should limit the time you spend outside the home. You should only go out for medical appointments, exercise or if it is essential.

▶ CARE HOME VISITS

Visits can take place with arrangements such as substantial screens, visiting pods, or behind windows. Close-contact indoor visits are not allowed. No visits will be permitted in the event of an outbreak but end of life visits are permitted in all circumstances.

STAY HOME ▶ PROTECT THE NHS ▶ SAVE LIVES

It offers befriending services to people over 18 and who are carers, older people, those experiencing mental ill health or who have a learning disability.

They are currently making most of their contacts by phone, video call, e-mail or texts. Where appropriate and safe, Befrienders can also meet the person they are Befriending in outside spaces.

If volunteering as a Befriender is of interest to you please apply via the Essex Befriends website. Call: 0300 770 1263. Email: essexbefriends@affc.org.uk

Macmillan Information Centre.

Providing emotional and practical support to anyone that has been affected by cancer.

Colchester Hospital, CO4 5JL 01206 745347. Email esneft.cancerwell-beingcentre@nhs.net. National Macmillan Number 0808 808 00 00

Alzheimer's Society Community

Support Service Essex. Providing support via virtual groups, including peer support, quizzes, activity groups, virtual coffee mornings and signing for the brain. Email dementia.connect@alzheimers.org.uk or telephone 0333 150 3456

Colchester Gateway. Continuing to support individuals and families with learning disabilities (although during

lockdown they have extended this to anyone in need who has no support from anyone else). Will issue foodbank vouchers and arrange delivery, can link with other organisations, help with housing and benefit and social care issues, advice on activities and care and support. Assistance with Covid testing and access to health services. Also have a small respite pot and may be able to assist with this. They can provide regular phone and or Zoom/MST support as often as someone may need this. Have a wealth of knowledge and contacts and try and help where they can.

Suffolk Law Centre

Housing legal advice and assistance is now available at Suffolk Law Centre under Legal Aid which can pay some or all of a client's costs.

Legal advice and assistance are

provided by a dedicated housing casework team mainly serving clients across Suffolk but with capacity to take clients from North Essex due to lack of legal aid providers in the area.

Housing work within scope of Legal Aid:

Possession proceedings

- Evictions
- Disrepair
- Homelessness
- Re-housing

All advice is by appointment only. You must be eligible for Legal Aid, means and merits tests are applied prior to any work being carried out, to determine eligibility. To make an appointment or for more information please call 01473 408111 or email office@suffolklawcentre.org.uk.

REPORT AN INCIDENT WHICH INCREASES THE RISK OF SPREADING CORONAVIRUS

We all have our part to play in reducing the risk of coronavirus spreading through our communities. You can help keep your local community safe by letting us know if you have noticed something that goes against current public health guidance.

If you are concerned that an individual (s) has significantly breached the restrictions then visit [Essex Police—tell us about a possible breach of coronavirus measures](#)

Only report something if you think there is a serious breach of the rules like a large gathering of people obviously from lots of different households. If you are unable to use the online form then call 101. Call

999 if there is an immediate or perceived threat to life, risk of serious damage to property or a serious offence is taking place.

For business breaching restrictions

If you have concerns that a business is not following government regulations then contact

licensing.team@colchester.gov.uk and food.team@colchester.gov.uk

Trading Standards or trading.standards@essex.gov.uk

Tell us about

STAY SAFE AND KEEP YOUR DISTANCE

Digital 101
essex.police.uk

Report a breach of
Coronavirus measures

Do it online at:
essex.police.uk

HANDS/FACE/SPACE/VENTILATION

Wash your hands

While coronavirus is not likely to survive for long periods of time on outdoor surfaces in sunlight, it can live for more than 24 hours in indoor environments. Washing your hands with soap and water for at least 20 seconds, or using hand sanitizer, regularly throughout the day will reduce the risk of catching or passing on the virus.

Cover your face

Coronavirus is carried in the air by tiny respiratory droplets that carry the virus. Larger droplets can land on other people or on surfaces they touch. Smaller droplets, called aerosols, can stay in the air indoors for at least 5 minutes, and often much longer if there is no fresh air. Face coverings reduce the dispersion of these droplets, meaning if you're carrying the virus, you're less likely to spread it when you exhale.

Make space

Transmission of the virus is most likely to happen within 2 metres, with risk increasing exponentially at shorter distances. While keeping this exact distance is not always possible, remaining mindful of surroundings and continuing to make space has a powerful impact when it comes to containing the spread.

Ventilation

COVID-19 spreads from person to person through small droplets, clouds of tiny airborne particles known as aerosols and through direct contact.

In addition to social distancing and other measures, you can also reduce the risk of spreading COVID-19 if you:

- Avoid coming into contact with people in spaces with limited flow of fresh air such as rooms with windows that are never opened.
- Reduce the amount of time you spend indoors with people you do not live with.
- Make sure you let plenty of fresh air into your home without getting uncomfortably cold if you have people working in or visiting your house (only where permitted). You should do this during their visit and after they leave.

To increase the flow of air you can:

- open windows as much as possible
- open doors
- make sure that any vents (for example at the top of a window) are open and airflow is not blocked
- leave extractor fans (for example in bathrooms) running for longer than usual with the door closed after someone has used the room

If your home has a mechanical ventilation system which circulates air through vents

and ducts, ensure it is working and increase its flow rate when you have visitors (for example, if someone is viewing your house to buy) or if someone in your home is sick.

Let fresh air in while keeping warm

You can wear warm clothes or layers if you're cold.

In colder weather opening the window a small amount can still help.

If windows have openings at both high and low levels (such as sash windows) using just the top opening can help avoid cold draughts.

If you're concerned about noise, security or the costs of heating, opening windows for shorter periods of time can still help to reduce the risk of the virus spreading.

There is further advice on [what to do if you are struggling to pay your energy bills as a result of the coronavirus pandemic](#) from Ofgem.

Letting fresh air into your home does not eliminate the risk of catching or spreading coronavirus. You should continue to follow other precautions, and follow the rules on meeting with people who are not in your household.

Advice on [reducing the risk of coronavirus transmission in the home](#) from the Scientific Advisory Group for Emergencies (SAGE) has been published to help you safely plan for gatherings in the home. [See page 19 Hands/Face/Space/Ventilation Video](#)

REDUCING THE RISK OF CORONAVIRUS TRANSMISSION IN THE HOME

Everyone should take the following steps to reduce the spread of infection within their household.

Wash your hands

This is one of the most effective ways to reduce the risk of catching COVID-19 or passing it on to others. Wash your hands with soap and water for 20 seconds or using hand sanitiser, particularly after coughing, sneezing and blowing your nose and before you eat or handle food. Clean your hands frequently and avoid touching your face.

Cover coughs and sneezes

Cover your mouth and nose with disposable tissues when you cough or sneeze. If you do not have a tissue, cough or sneeze into the crook of your elbow, not into your hand.

Dispose of tissues into a rubbish bag and immediately wash your hands. If you have a carer, they should use disposable tissues to wipe away any mucus or phlegm after you have sneezed or coughed and then wash or sanitise their hands.

Cleaning your home to reduce spread of infection

Regularly clean frequently touched surfaces, such as door handles and

remote controls, and shared areas such as kitchens and bathrooms. This is particularly important if you have a clinically extremely vulnerable person in the house.

Use standard household cleaning products like detergents and bleach to clean your home as these are very effective at getting rid of the virus on surfaces. Clean shared bathrooms each time they are used, especially the surfaces you have touched, using your usual bathroom cleaning products.

Cleaning cloths and personal waste such as used tissues and disposable face coverings should be stored in disposable rubbish bags. These bags should be placed into another bag, tied securely and put aside for at least 72 hours before being put in your usual external household waste bin. Other household waste can be disposed of as normal.

Use a dishwasher to clean and dry your crockery and cutlery. If this is not possible, wash them by hand using washing up liquid and warm water and dry thoroughly using a separate tea towel.

Laundry

To minimise the possibility of dispersing virus through the air, do not shake dirty

Remember most infections happen indoors in private homes where people get close to friends and family

laundry. Wash items in accordance with the manufacturer's instructions. All dirty laundry can be washed in the same load. If you do not have a washing machine, wait a further 72 hours after your self-isolation has ended when you can then take the laundry to a public launderette.

Do not share towels, including hand towels and tea towels.

Ventilate indoor areas

Keep indoor areas well-ventilated, especially shared living areas. If you have symptoms, stay in a well-ventilated room with a window to the outside that

can be opened if this is possible. Keep the door closed.

Use a face covering

If you have symptoms of COVID-19 or a positive test result, use a face covering when spending time in shared areas inside your home if possible. Used correctly, a face covering may help to protect others by reducing the transmission of COVID-19 but they do not replace the need to limit your contact with other household members.

Wearing a face covering may not be

BE DISTANCE AWARE

possible in every situation or for some people. Face coverings should not be worn by children under the age of 11, or people who cannot put on, wear or remove one because of a physical or mental illness or impairment, or disability. You can find out more about [how to use and make your own face coverings](#).

Caring for pets

COVID-19 in the UK is spread between humans. There is limited evidence that some animals, including pets, can become infected with SARS-CoV-2 (the virus that causes COVID-19) following close contact with infected humans. At this time, there is no evidence that pets can transmit the disease to humans.

Pet owners who have COVID-19 or who are self-isolating with symptoms should restrict contact with pets and wash their hands thoroughly before and after interacting with their pet.

A national initiative to enable individuals and organisations to politely prompt ongoing distancing and respect of individual social space.

Since COVID-19 there has been a new focus on the need to maintain social distancing, while the public has made great efforts at this as with all things that require ongoing conscious efforts – people get tired.

This, coupled with increased anxiety of many who feel vulnerable, the virus still being present in our communities and the shielding period having restarting, has made a number of individuals explore the concept of polite prompting of others by a means of self-identifying with a badge or similar.

[Optional badges/lanyards to promote ongoing social distancing](#). That can be used to show the carrier may have difficulties or concerns in maintaining social distancing.

WEARING A FACE COVERING OR MASK

This information relates to the use of face coverings in public spaces where social distancing is not always possible. It is important to follow all the other government advice on coronavirus (COVID-19), including [staying safe outside your home](#).

What a face covering is

In the context of the coronavirus (COVID-19) outbreak, a face covering is something which safely covers the nose and mouth. You can buy reusable or single-use face coverings. You may also use a scarf, bandana, religious garment or hand-made cloth covering but these must securely fit round the side of the face.

Face coverings are not classified as PPE (personal protective equipment) which is used in a limited number of settings to protect wearers against hazards and risks, such as surgical masks or respirators used in medical and industrial settings.

Face coverings are instead largely intended to protect others, not the wearer, against the spread of infection because they cover the nose and mouth, which are the main confirmed sources of transmission of virus that causes coronavirus infection (COVID-19).

If you wish to find out more about the differences between surgical face masks, PPE face masks, and face coverings see the MHRA's (Medicines and Healthcare

products Regulatory Agency) regulatory status of equipment being used to help prevent coronavirus (COVID-19).

Face visors or shields

A face visor or shield may be worn in addition to a face covering but not instead of one. This is because face visors or shields do not adequately cover the nose and mouth.

When to wear a face covering

There are some places where you must wear a face covering by law, unless you are exempt or have a reasonable excuse (see [When you do not need to wear a face covering](#)). [See page 24](#).

In England you must wear a face covering in the following indoor settings (examples are given in brackets):

- public transport (aeroplanes, trains, trams and buses)

- taxis and private hire vehicles
- transport hubs (airports, rail and tram stations and terminals, maritime ports and terminals, bus and coach stations and terminals)
- shops and supermarkets (places which offer goods or services for retail sale or hire)
- shopping centres (malls and indoor markets)
- auction houses
- premises providing hospitality (bars, pubs, restaurants, cafes), except when seated at a table to eat or drink (see [exemptions](#))
- post offices, banks, building societies, high-street solicitors and accountants, credit unions, short-term loan providers, savings clubs and money service businesses
- estate and lettings agents
- theatres
- premises providing personal care and beauty treatments (hair salons, barbers, nail salons, massage centres, tattoo and piercing parlours)
- premises providing veterinary services

- visitor attractions and entertainment venues (museums, galleries, cinemas, theatres, concert halls, cultural and heritage sites, aquariums, indoor zoos and visitor farms, bingo halls, amusement arcades, adventure activity centres, indoor sports stadiums, funfairs, theme parks, casinos, skating rinks, bowling alleys, indoor play areas including soft-play areas)
- libraries and public reading rooms
- places of worship
- funeral service providers (funeral homes, crematoria and burial ground chapels)

Penalties for not wearing a mask are now £200 (reduced to £100 if paid within 14 days) After the first offence there will be no discount. For example, receiving a second fine will amount to £400 and a third fine will be £800, up to a maximum value of £6,400.

- community centres, youth centres and social clubs
- exhibition halls and conference centres
- public areas in hotels and hostels
- storage and distribution facilities

You are expected to wear a face covering before entering any of these settings and must keep it on until you leave unless there is a reasonable excuse for removing it.

You should also wear a face covering in indoor places not listed here where social distancing may be difficult and where you will come into contact with people you do not normally meet.

Face coverings are needed in NHS settings, including hospitals and primary or community care settings, such as GP surgeries. They are also advised to be worn in care homes.

The Department for Education (DfE) has updated its [guidance on the use of face coverings for schools and other education institutions that teach people in year 7 and above in England](#).

When you do not need to wear a face covering

In settings where face coverings are required in England there are some circumstances where people may not be able to wear a face covering.

Please be mindful and respectful of such circumstances. Some people are less

able to wear face coverings, and the reasons for this may not be visible to others.

This includes (but is not limited to):

- Children under the age of 11 (Public Health England does not recommend face coverings for children under the age of 3 for health and safety reasons).
- People who cannot put on, wear or remove a face covering because of a physical or mental illness or impairment, or disability.
- Where putting on, wearing or removing a face covering will cause you severe distress.
- If you are speaking to or providing assistance to someone who relies on lip reading, clear sound or facial expressions to communicate.
- To avoid harm or injury, or the risk of harm or injury, to yourself or others – including if it would negatively impact on your ability to exercise or participate in a strenuous activity.
- Police officers and other emergency workers, given that this may interfere with their ability to serve the public.

There are also scenarios when you are permitted to remove a face covering:

- If asked to do so in a bank, building society, or post office for identification.
- If asked to do so by shop staff or

relevant employees for identification, for assessing health recommendations (for example by a pharmacist) or for age identification purposes, including when buying age restricted products such as alcohol.

- If required in order to receive treatment or services, for example when getting a facial.
- In order to take medication.
- If you are delivering a sermon or prayer in a place of worship.
- If you are the persons getting married in a relevant place.
- If you are aged 11 to 18 attending a faith school and having lessons in a place of worship as part of your core curriculum.
- If you are undertaking exercise or an activity and it would negatively impact your ability to do so.
- If you are an elite sports person, professional dancer or referee acting in the course of your employment.
- When seated to eat or drink in a hospitality premise such as a pub, bar, restaurant or cafe. You must put a face covering back on once you finish eating or drinking.

The reason for using face coverings

Coronavirus (COVID-19) usually spreads by droplets from coughs, sneezes and speaking. These droplets can also be picked up from surfaces, if you touch a

surface and then your face without washing your hands first. This is why social distancing, regular hand hygiene, and covering coughs and sneezes is so important in controlling the spread of the virus.

The best available scientific evidence is that, when used correctly, wearing a face covering may reduce the spread of coronavirus droplets in certain circumstances, helping to protect others.

Because face coverings are mainly intended to protect others from coronavirus (COVID-19) rather than the wearer, they are not a replacement for social distancing and regular hand washing. It is important to follow all the other government advice on coronavirus (COVID-19), including staying safe outside your home. If you have recent onset of any of the most important symptoms of coronavirus (COVID-19):

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of smell or taste (anosmia)

you and your household must isolate at home: wearing a face covering does not change this. You should arrange to have a test to see if you have COVID-19.

How to wear a face covering

A face covering should:

- Cover your nose and mouth while allowing you to breathe comfortably.
- Fit comfortably but securely against the side of the face.
- Be secured to the head with ties or ear loops.
- Be made of a material that you find to be comfortable and breathable, such as cotton.
- Ideally include at least 2 layers of fabric (the World Health Organization recommends 3, depending on the fabric used).
- Unless disposable, it should be able to be washed with other items of laundry according to fabric washing instructions and dried without causing the face covering to be damaged.

When wearing a face covering you should:

- Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting a face covering on.

- Avoid wearing on your neck or forehead.
- Avoid touching the part of the face covering in contact with your mouth and nose, as it could be contaminated with the virus.
- Change the face covering if it becomes damp or if you've touched it.
- Avoid taking it off and putting it back on a lot in quick succession (for example, when leaving and entering shops on a high street).

When removing a face covering:

- Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser before removing.
- Only handle the straps, ties or clips.
- Do not give it to someone else to use.
- If single-use, dispose of it carefully in a residual waste bin and do not recycle.
- If reusable, wash it in line with manufacturer's instructions at the highest temperature appropriate for the fabric.
- Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser once removed

Making your own face covering

If you want to make your own face covering, instructions are widely available online. We do not endorse any particular method but be considerate of

materials and fabrics that may irritate different skin types.

Emerging evidence suggests that the risk of transmission may be reduced by using thicker fabrics or multiple layers.

However, the face covering should still be breathable.

Children should make face coverings under the supervision of an adult and face coverings for children should be secured to the head using ear loops only.

If you would like more information on how to make a face covering with materials from around your home please visit the [Big Community Sew](#) website. Here you will find step-by-step video tutorials on how to make face coverings and other useful tips and advice.

EXEMPTION CARDS

If you have an age, health or disability reason for not wearing a face covering:

- you do not routinely need to show any written evidence of this
- you do not need show an exemption card

This means that you do not need to seek advice or request a letter from a medical professional about your reason for not wearing a face covering.

However, some people may feel more comfortable showing something that says they do not have to wear a face covering. This could be in the form of an exemption card, badge or even a home-made sign.

If you wish to use an exemption card or badge, you can [download exemption card templates](#). You can then print these yourself or show them on a mobile device. Please note that the government is not able to provide physical exemption cards or badges.

If you use assistive technology (such as a screen reader) and need a version of these templates in a more accessible format, please email publiccorrespondence@cabinetoffice.gov.uk Please say what format you need the template in and what assistive technology you use.

Carrying an exemption card or badge is a personal choice and is not required by law.

MAINTAINING AND DISPOSING OF FACE COVERINGS

- Do not touch the front of the face covering, or the part of the face covering that has been in contact with your mouth and nose.
- Once removed, store reusable face coverings in a plastic bag until you have an opportunity to wash them. If the face covering is single use, dispose of it in a residual waste bin. Do not put them in a recycling bin.
- Make sure you clean any surfaces the face covering has touched using normal household cleaning products.
- If eating in a café, for example, it is important that you do not place the face covering on the table.
- Wash your face covering regularly and follow the washing instructions for the fabric. You can use your normal detergent. You can wash and dry it with other laundry. You must throw away your face covering if it is damaged.

NATIONAL LOCKDOWN: STAY AT HOME

Summary: what you can and cannot do during the national lockdown

YOU MUST STAY AT HOME. The single most important action we can all take is to stay at home to protect the NHS and save lives.

You should follow this guidance immediately. This is the law.

Leaving home

You must not leave, or be outside of your home except where necessary. You may leave the home to:

- Shop for basic necessities, for you or a vulnerable person.
- Go to work, or provide voluntary or charitable services, if you cannot reasonably do so from home.
- Exercise with your household (or support bubble) or one other person,

this should be limited to once per day, and you should not travel outside your local area.

- meet your support bubble or childcare bubble where necessary, but only if you are legally permitted to form one.
- Seek medical assistance or avoid injury, illness or risk of harm (including domestic abuse).
- Attend education or childcare - for those eligible

If you do leave home for a permitted reason, you should always stay local - unless it is necessary to go further, for example to go to work. Stay local means stay in the village, town, or part of the city where you live.

If you are clinically extremely vulnerable you are advised to only go out for medical appointments, exercise or if it is essential. We recommend that you do not attend work

Meeting others

You cannot leave your home to meet socially with anyone you do not live with or are not in a support bubble with (if you are legally permitted to form one).

You may exercise on your own, with one other person, or with your household or support bubble. This should be limited to once per day, and you should not travel outside your local area.

You cannot meet other people you do not live with, or have not formed a support

bubble with, unless for a permitted reason.

Stay 2 metres apart from anyone not in your household.

Education

Colleges, primary and secondary schools will remain open only for vulnerable children and the children of critical workers. All other children will learn remotely until February half term.

Early years settings remain open.

Higher Education provision will remain online until mid February for all except future critical worker courses.

You should follow this guidance immediately. This is the law. There is additional guidance for households with a possible or confirmed coronavirus infection.

If you are clinically extremely vulnerable you are advised to follow shielding guidance. It is recommended that you do not attend work, school, college or university. You should limit the time you spend outside the home. You should only go out for medical appointments, exercise or if it is essential.

Hands. Face. Space.

Approximately 1 in 3 people who have coronavirus have no symptoms and could be spreading it without realising it.

Remember - 'Hands. Face. Space.'

Hands – wash your hands regularly and for at least 20 seconds.

A support bubble is where a household with one adult joins with another household. Households in that support bubble can still visit each other, stay overnight, and visit outdoor public places together.

Face – wear a face covering in indoor settings where social distancing may be difficult, and where you will come into contact with people you do not normally meet.

Space – stay 2 metres apart from people you do not live with where possible, or 1 metre with extra precautions in place (such as wearing face coverings)

You should avoid all non-essential meetings and interactions. In all circumstances, you should follow the guidance on meeting others safely.

Reducing the chance of catching or spreading the virus in your home

ENGLAND LOCKDOWN

STAY AT HOME

THE NEW STRAIN OF CORONAVIRUS IS SPREADING FAST.
WE ALL NEED TO PLAY OUR PART TO STOP THE SPREAD.

▶ LEAVING HOME

You must not leave, or be outside of your home or garden, except for a very limited set of exemptions e.g. to shop for basic necessities, exercise, go to work if you cannot do so from home, or to escape risk of harm.

▶ MEETING OTHERS

You cannot leave your home to meet socially with anyone, except with your household or support bubble (if eligible to form one). Stay 2 metres apart from anyone not in your household or support bubble.

▶ EXERCISE

You may exercise on your own, with your household or support bubble, or with one person from another household (when on your own). Stay 2 metres apart from anyone not in your household or support bubble.

▶ BARS, PUBS AND RESTAURANTS

Hospitality closed aside from sales by takeaway (until 11pm), click-and-collect, drive-through or delivery. Alcohol cannot be purchased through takeaway or click-and-collect from hospitality venues.

▶ RETAIL

Essential shops can open. Non-essential retail must close and can only run click-and-collect and delivery.

▶ WORK AND BUSINESS

Everyone must work from home unless they are unable to do so.

▶ EDUCATION

Early years settings open. Primary and secondary schools and colleges move to remote provision except for vulnerable children and children of critical workers. Most university students to move to remote learning.

▶ LEISURE AND SPORTING FACILITIES

Closed, with limited exceptions.

▶ ACCOMMODATION

Closed, with limited exceptions.

▶ PERSONAL CARE

Closed.

▶ ENTERTAINMENT

Closed.

▶ OVERNIGHT STAYS

You must not stay overnight away from home. Limited exceptions apply e.g. to stay with your support bubble.

▶ WEDDINGS AND FUNERALS

Funerals of up to 30 people permitted. Weddings up to 6 people permitted in exceptional circumstances. Wakes and other linked ceremonial events of up to 6 permitted.

▶ PLACES OF WORSHIP

Places of worship can remain open and communal worship is permitted, but you must not mix with those outside your household or support bubble.

▶ TRAVELLING

You must stay at home. If you do leave home for a very limited set of exemptions, you should stay local in the village, town, or part of the city where you live where possible. Do not travel abroad unless an exemption applies.

▶ CLINICALLY EXTREMELY VULNERABLE

Shielding reintroduced across England. You should not travel to work, school, college or university and should limit the time you spend outside the home. You should only go out for medical appointments, exercise or if it is essential.

▶ CARE HOME VISITS

Visits can take place with arrangements such as substantial screens, visiting pods, or behind windows. Close-contact indoor visits are not allowed. No visits will be permitted in the event of an outbreak but end of life visits are permitted in all circumstances.

STAY HOME ▶ PROTECT THE NHS ▶ SAVE LIVES

For more information go to:
[gov.uk/coronavirus](https://www.gov.uk/coronavirus)

Coronavirus spreads from person to person through small droplets, tiny airborne particles known as aerosols and through direct contact.

To reduce the chance of catching or passing on coronavirus to or from the people you live with, you should:

- Wash your hands regularly and for at least 20 seconds.
- Regularly clean frequently touched surfaces.
- Make sure you let plenty of fresh air into your home without getting uncomfortably cold. This should be balanced with other considerations such as comfort, safety and security.

There is further guidance on:

[Letting fresh air in.](#)

[Grandparents, parents and children living together where someone is at increased risk or has possible or confirmed coronavirus \(COVID-19\) infection.](#)

[Households with a possible or confirmed coronavirus infection.](#)

[Landlords, tenants and local authorities.](#)

When you can leave home

You must not leave or be outside of your home except where you have a 'reasonable excuse'. This is the law. The police can take action against you if you leave home without a 'reasonable excuse', and issue you with a fine (Fixed Penalty Notice).

You can be given a Fixed Penalty Notice

of £200 for the first offence, doubling for further offences up to a maximum of £6,400.

A 'reasonable excuse' includes:

Work

You can only leave home for work purposes where it is unreasonable for you to do your job from home. This includes, but is not limited to, people who work within critical national infrastructure, construction or manufacturing that require in-person attendance

Volunteering

You can also leave home to provide voluntary or charitable services. You must volunteer from home unless it is not reasonably possible for you to do so.

Essential activities

You can leave home to buy things at shops or obtain services where necessary. You may also leave your home to do these things on behalf of a disabled or vulnerable person or someone self-isolating.

Education and childcare

You can only leave home for education, registered childcare, and supervised activities for children where the child is eligible to attend. Access to education and children's activities for school-aged pupils is restricted. See [further information on education and childcare](#). You can continue existing arrangements for contact between parents and children where they live apart. If you live in a household with anyone aged under 14, you can also [form a childcare bubble](#).

Meeting others and care

You can leave home:

- To visit people in your [support bubble](#) (if you are legally permitted to form one)
- To provide informal childcare for children under 14 as part of a [childcare bubble](#) (for example, to enable parents to work, not to enable social contact between adults)
- To provide care for disabled or vulnerable people

- To provide emergency assistance
- To attend a support group (of up to 15 people)
- For respite care where that care is being provided to a vulnerable person or a person with a disability, or is a short break in respect of a looked-after child.

Exercise

You can continue to exercise alone, with one other person or with your household or support bubble. This should be limited to once per day, and you should not travel outside your local area. You should maintain [social distancing](#). See [exercising](#).

Medical reasons

You can leave home for a medical reason, including to get a COVID-19 test, for medical appointments and for emergencies.

Maternity

You can leave home to be with someone who is giving birth or, accessing other

IF YOU BREAK THE RULES

The police can take action against you if you meet in larger groups. This includes breaking up illegal gatherings and issuing fines (fixed penalty notices).

You can be given a fixed penalty notice of £200 for the first offence, doubling for each further offence up to £6,400. If you hold, or are involved in holding, an [illegal gathering](#) of over 30 people, the police can issue fines of £10,000.

This can increase to £800 for anyone attending a house party of more than 15 people. These will double for each repeat offence to a maximum of £6400.

maternity services, or to be with a baby receiving neonatal critical care. There is [NHS guidance on pregnancy and coronavirus](#).

Harm

You may leave home, to avoid injury or illness or to escape risk of harm (such as domestic abuse).

Compassionate visits

You may also leave home to visit someone who is dying or someone in a care home (if permitted under [care home guidance](#)), hospice, or hospital, or to accompany them to a medical appointment.

Animal welfare reasons

You can leave home for animal welfare reasons, such as to attend veterinary services for advice or treatment.

Communal worship and life events

You can leave home to attend or visit a place of worship for communal worship, to attend a funeral or event related to a death, to visit a burial ground or a remembrance garden, or to attend a wedding ceremony. You should follow the [guidance on the safe use of places of](#)

[worship](#) and must not mingle with anyone outside of your household or support bubble. Weddings, funerals and religious, belief-based or commemorative events linked to someone's death are all subject to limits on the numbers that can attend.

Further reasonable excuses

There are further reasonable excuses. For example, you may leave home to fulfil legal obligations, or to carry out activities related to buying, selling, letting or renting a residential property, for the purpose of picketing, or where it is reasonably necessary for voting in an election or referendum.

MEETING OTHER PEOPLE

It is against the law to meet socially with family or friends unless they are part of your household or support bubble. You cannot leave home for recreational or leisure purposes (such as for a picnic or a social meeting).

Exercising

You should minimise time spent outside your home, but you can leave your home to exercise. This should be limited to once per day, and you should not travel outside your local area.

You can exercise in a public outdoor place:

- by yourself
- with the people you live with
- with your support bubble (if you are legally permitted to form one)

- in a childcare bubble where providing childcare
- or, when on your own, with 1 person from another household

This includes but is not limited to running, cycling, walking, and swimming. Personal training can continue if participants are from the same household or support bubble. It can also continue if it is one-one-one, although this should only take place in a public outdoor place, and not in someone's private home or garden.

Public outdoor places include:

- parks, beaches, countryside accessible to the public, forests
- public gardens (whether or not you pay to enter them)
- the grounds of a heritage site
- playgrounds

Outdoor sports venues must close, for example:

SUPPORT BUBBLES

Who can make a support bubble

Not everybody can form a support bubble. However, on 2 December the rules changed to widen eligibility for forming one.

You can form a support bubble with another household of any size if:

- you live by yourself – even if carers visit you to provide support
- you are the only adult in your household who does not need continuous care as a result of a disability
- your household includes a child who is under the age of one or was under that age on 2 December 2020
- your household includes a child with a disability who requires continuous care and is under the age of 5, or was under that age on 2 December 2020
- you are aged 16 or 17 living with others of the same age and without any adults
- you are a single adult living with one or more children who are under the age of 18 or were under that age on 12 June 2020

You should not form a support bubble with a household that is part of another support bubble.

- tennis courts
- golf courses

- swimming pools

Children under 5, and up to 2 carers for a person with a disability who needs continuous care, are not counted towards the gatherings limits for exercising outside.

If you (or a person in your care) have a health condition that routinely requires you to leave home to maintain your health - including if that involves travel beyond your local area or exercising several times a day - then you can do so.

When around other people, stay 2 metres apart from anyone not in your household - meaning the people you live with - or your support bubble. Where this is not possible, stay 1 metre apart with extra precautions (like wearing a face covering).

Face coverings

You must wear a face covering in many indoor settings, such as shops or places of worship where these remain open, and on public transport, unless you are exempt. This is the law. [Read guidance on face coverings](#).

Support and childcare bubbles

You have to meet certain eligibility rules to form a support or childcare bubble.

This means not everyone will be able to form a bubble.

A support bubble is a support network which links two households. You can form a support bubble with another household of any size only if you meet

the eligibility rules.

It is against the law to form a support bubble if you do not follow these rules.

You are permitted to leave your home to visit your support bubble (and to stay overnight with them). However, if you form a support bubble, it is best if this is with a household who live locally. This will help prevent the virus spreading from an area where more people are infected.

If you live in a household with anyone aged under 14, you can form a childcare bubble. This allows friends or family from one other household to provide informal childcare.

You must not meet socially with your childcare bubble, and must avoid seeing members of your childcare and support bubbles at the same time.

There is separate guidance for support bubbles and childcare bubbles.

Where and when you can meet in larger groups

There are still circumstances in which you are allowed to meet others from outside your household, childcare or support bubble in larger groups, but this should not be for socialising and only for permitted purposes. A full list of these circumstances will be included in the regulations, and includes:

- For work, or providing voluntary or charitable services, where it is unreasonable to do so from home. This can include work in other

people's homes where necessary - for example, for nannies, cleaners, social care workers providing support to children and families, or tradespeople. See guidance on [working safely in other people's homes](#). Where a work meeting does not need to take place in a private home or garden, it should not - for example, although you can meet a personal trainer, you should do so in a public outdoor place.

- In a [childcare bubble](#) (for the purposes of childcare only).
- Where eligible to use these services, for education, registered childcare, and supervised activities for children. Access to education and childcare facilities is restricted. See further information on [education and childcare](#).
- For arrangements where children do

not live in the same household as both their parents or guardians

- To allow contact between birth parents and children in care, as well as between siblings in care.
- For prospective adopting parents to meet a child or children who may be placed with them.
- To place or facilitate the placing of a child or children in the care of another by social services.
- For birth partners.
- To provide emergency assistance, and to avoid injury or illness, or to escape a risk of harm (including domestic abuse).
- To visit someone who is dying or to visit someone receiving treatment in a hospital, hospice or care home, or to accompany a family member or friend to a medical appointment.
- To fulfil a legal obligation, such as attending court or jury service.
- For gatherings within criminal justice accommodation or immigration detention centres.
- To [provide care or assistance to someone vulnerable](#), or to provide respite for a carer.
- For a wedding or equivalent ceremony. This should only be in exceptional circumstances and is limited to 6 people.
- For funerals - up to a maximum of 30

people. Wakes and other linked ceremonial events can continue in a group of up to 6 people.

- For elite sportspeople (and their coaches if necessary, or parents/guardians if they are under 18) - or those on an official elite sports pathway - to compete and train
- To facilitate a house move.

Support groups that have to be delivered in person can continue with up to 15 participants where formally organised to provide mutual aid, therapy or any other form of support - but they must take place at a premises other than a private home.

Where a group includes someone covered by an exception (for example, someone who is working or volunteering), they are not generally counted as part of the gatherings limit. This means, for example, a tradesperson can go into a household without breaching the limit, if they are there for work, and the officiant at a wedding would not count towards the limit.

If you break the rules

The police can take action against you if you meet in larger groups. This includes breaking up illegal gatherings and issuing fines (fixed penalty notices).

You can be given a Fixed Penalty Notice of £200 for the first offence, doubling for further offences up to a maximum of £6,400. If you hold, or are involved in holding, an illegal gathering of over 30 people, the police can issue fines of

£10,000.

Protecting people more at risk from coronavirus

If you are clinically vulnerable, you could be at higher risk of severe illness from coronavirus. There is additional guidance for people who are clinically extremely vulnerable. If you're clinically extremely vulnerable we recommend that you do not attend work, school, college or university. You should limit the time you spend outside the home. You are advised to only go out for medical appointments, exercise or if it is essential. See page 45.

Going to work

You may only leave your home for work if you cannot reasonably work from home.

Where people cannot work from home they should continue to travel to their workplace. This includes, but is not limited to, people who work in:

- critical national infrastructure
- construction
- manufacturing
- childcare or education
- essential public services

This is essential to keeping the country operating and supporting sectors and employers.

Where it is necessary for you to work in other people's homes - for example, for nannies, cleaners or tradespeople - you can do so. Otherwise, you should avoid

meeting for work in a private home or garden, where COVID-19 Secure measures may not be in place.

Employers and employees should discuss their working arrangements, and employers should take every possible step to facilitate their employees working from home, including providing suitable IT and equipment to enable remote working. Where people cannot work from home, employers should take steps to help employees avoid busy times and routes on public transport.

The risk of transmission can be substantially reduced if COVID-19 secure guidelines are followed closely. Extra consideration should be given to those people at higher risk.

Going to school or college

Colleges, primary (reception onwards) and secondary schools will remain open for vulnerable children and the children of

critical workers. All other children will learn remotely until February half term.

Exams

In current circumstances, it is not possible for exams in the summer to go ahead as planned. The Department for Education will accordingly be working with Ofqual to consult rapidly and put in place alternative arrangements that will allow students to progress fairly.

Providers can continue with the vocational and technical exams that are due to take place in January, where they judge it right to do so.

Universities

Those students who are undertaking training and study for the following courses should return to face to face learning as planned:

- Medicine & dentistry
- Subjects allied to medicine/health

STAY AT HOME

- ▶ All primary and secondary schools and colleges will move to remote provision from tomorrow
- ▶ Children of key workers and vulnerable children can still attend school and colleges
- ▶ Early years, nurseries, alternative provision and special schools will remain open
- ▶ We will work with Ofqual to consult on putting in place alternative arrangements for this summer's exams

Find the latest guidance and exemptions at [gov.uk/coronavirus](https://www.gov.uk/coronavirus)

STAY HOME ▶ PROTECT THE NHS ▶ SAVE LIVES

- Veterinary science
- Education (initial teacher training)
- Social work
- Courses which require Professional, Statutory and Regulatory Body (PSRB) assessments and or mandatory activity which is scheduled for January and which cannot be rescheduled (your university will notify you if this applies to you).

Returning students should be tested twice upon their return to university, or they should self-isolate for ten days instead.

Students who are not on these courses should remain where they are wherever possible, and start their term online, as facilitated by their university or college until at least mid-February. This includes students on other practical courses not on the list above.

We have previously published [guidance to universities and students on how students can return safely to higher education in the spring term](#). This guidance sets out how we will support higher education providers to enable students that need to return to do so as safely as possible following the winter break.

If you live at university, you should not move back and forth between your permanent home and student home during term time.

For those students who are eligible for face to face teaching, you can meet in

groups of more than your household as part of your formal education or training, where necessary. Students should expect to follow the guidance and restrictions. You should socially distance from anyone you do not live with wherever possible.

Childcare

There are several ways that parents and carers can continue to access childcare:

- Early years settings (including nurseries and childminders) remain open
- Childminders should continue to allow children to attend as normal except for school-aged children. Childminders caring for school-aged children (including reception children) should only admit vulnerable children and children of critical workers.
- Vulnerable children and children of critical workers can continue to use registered childcare, childminders and other childcare activities (including wraparound care).
- Parents are able to form a childcare bubble with one other household for the purposes of informal childcare, where the child is under 14. This is mainly to enable parents to work, and must not be used to enable social contact between adults.
- Some households will also be able to benefit from being in a support bubble
- nannies will be able to continue to

provide services, including in the home.

Travel

You must not leave your home unless you have a reasonable excuse (for example, for work or education purposes). If you need to travel you should stay local – meaning avoiding travelling outside of your village, town or the part of a city where you live – and look to reduce the number of journeys you make overall. The list of reasons you can leave your home and area include, but are not limited to:

- Work, where you cannot reasonably work from home.
- Accessing education and for caring

responsibilities.

- Visiting those in your support bubble – or your childcare bubble for childcare.
- Visiting hospital, GP and other medical appointments or visits where you have had an accident or are concerned about your health.
- Buying goods or services that you need, but this should be within your local area wherever possible.
- Outdoor exercise. This should be done locally wherever possible, but you can travel a short distance within your area to do so if necessary (for example, to access an open space).
- Attending the care and exercise of an animal, or veterinary services.

If you need to travel, walk or cycle where possible, and plan ahead and avoid busy times and routes on public transport. This will allow you to practise social distancing while you travel.

Avoid car sharing with anyone from outside your household or your support bubble. See the [guidance on car sharing](#).

If you need to use public transport, you should follow the [safer travel guidance](#).

International travel

You can only travel internationally – or within the UK – where you first have a legally permitted reason to leave home. In addition, you should consider the public health advice in the country you

are visiting.

If you do need to travel overseas (and are legally permitted to do so, for example, because it is for work), even if you are returning to a place you've visited before, you should look at the rules in place at your destination and the Foreign, Commonwealth and Development Office (FCDO) travel advice.

UK residents currently abroad do not need to return home immediately. However, you should check with your airline or travel operator on arrangements for returning.

Foreign nationals are subject to the 'Stay at Home' regulations. You should not travel abroad unless it is permitted. This means you must not go on holiday.

If you are visiting the UK, you may return home. You should check whether there

are any restrictions in place at your destination.

Staying away from home overnight

You cannot leave your home or the place where you are living for holidays or overnight stays unless you have a reasonable excuse for doing so. This means that holidays in the UK and abroad are not allowed.

This includes staying in a second home or caravan, if that is not your primary residence. This also includes staying with anyone who you don't live with unless they're in your support bubble.

You are allowed to stay overnight away from your home if you:

- are visiting your support bubble
- are unable to return to your main residence
- need accommodation while moving house
- need accommodation to attend a funeral or related commemorative event
- require accommodation for work purposes or to provide voluntary services
- are a child requiring accommodation for school or care
- are homeless, seeking asylum, a vulnerable person seeking refuge, or if escaping harm (including domestic abuse)

- are an elite athlete or their support staff or parent, if the athlete is under 18 and it is necessary to be outside of the home for training or competition

If you are already on holiday, you should return to your home as soon as practical.

Guest accommodation providers such as hotels, B&Bs and caravan parks may remain open for the specific reasons set out in law, including where guests are unable to return to their main residence, use that guest accommodation as their main residence, need accommodation while moving house, are self-isolating as required by law, or would otherwise be made homeless as a result of the accommodation closing. A full list of reasons can be found in the [guidance on closing certain businesses and venues in England](#).

Accommodation providers are also encouraged to work cooperatively with local authorities to provide accommodation to vulnerable groups, including the homeless.

Care home visits

Visits to care homes can take place with arrangements such as substantial screens, visiting pods, or behind windows. Close-contact indoor visits are not allowed. No visits will be permitted in the event of an outbreak.

You should check the guidance on [visiting care homes during COVID-19](#) to find out how visits should be conducted.

Residents cannot meet people indoors on a visit out (for example, to visit their relatives in the family home). There is [separate guidance for those in supported living](#).

Funerals

Funerals are allowed with strict limits on attendance, and must only take place in COVID-19 secure venues or in public outdoor spaces unless in exceptional circumstances.

Funerals can be attended by a maximum of 30 people. Linked religious, belief-based or commemorative events, such as stone settings and ash scatterings can also continue with up to 6 people in attendance. Anyone working is not counted in these limits. Social distancing should be maintained between people who do not live together or share a support bubble.

Weddings, civil partnerships and religious services

Weddings and civil partnership ceremonies must only take place with up to 6 people. Anyone working is not included. These should only take place in exceptional circumstances, for example, an urgent marriage where one of those getting married is seriously ill and not expected to recover, or is to undergo debilitating treatment or life-changing surgery.

Weddings and civil partnerships must only take place in COVID-19 secure venues or in public outdoor spaces

unless in exceptional circumstances.

Places of worship

You can attend places of worship for a service. However, you must not mingle with anyone outside of your household or support bubble. You should maintain strict social distancing at all times.

You should follow the [national guidance on the safe use of places of worship](#).

Visits to places of worship are legally permitted. However, the Directors of Public Health for Essex, Southend and Thurrock wrote to faith organisations last week to strongly advise places of worship to close for congregational worship.

Sports and physical activity

Indoor gyms and sports facilities will remain closed.

Outdoor sports facilities must also close, including:

- sports courts
- outdoor gyms
- golf courses
- outdoor swimming pools
- archery/driving/shooting ranges
- riding centres

Organised outdoor sport for disabled people is allowed to continue.

Elite sport may continue. There is further [guidance on the phased return of elite sport](#).

Moving home

You can still move home. People outside your household or [support bubble](#) should not help with moving house unless absolutely necessary.

Estate and letting agents and removals firms can continue to work. If you are looking to move, you can go to property viewings.

Follow the [national guidance on moving home safely](#), which includes advice on social distancing, letting fresh air in, and [wearing a face covering](#).

Financial support

Wherever you live, you may be able to get financial help.

[financial support packages for businesses](#)

[financial support for closed businesses as a result of restrictions](#)

[claim for employee wages through Coronavirus Job Retention Scheme](#)

[check if you can claim a grant through the Self-Employment Income Support Scheme](#)

[financial support if you're off work because of coronavirus](#)

WHO'S AT HIGHER RISK FROM CORONAVIRUS?

Coronavirus (COVID-19) can make anyone seriously ill. But for some people, the risk is higher.

There are 2 levels of higher risk:

- high risk (clinically extremely vulnerable)
- moderate risk (clinically vulnerable)

People at high risk (clinically extremely vulnerable)

You may be at high risk from coronavirus if you:

- have had an organ transplant
- are having chemotherapy or antibody treatment for cancer, including immunotherapy
- are having an intense course of radiotherapy (radical radiotherapy) for lung cancer
- are having targeted cancer treatments that can affect the immune system (such as protein kinase inhibitors or PARP inhibitors)
- have blood or bone marrow cancer (such as leukaemia, lymphoma or myeloma)
- have had a bone marrow or stem cell transplant in the past 6 months, or are still taking immunosuppressant medicine
- have been told by a doctor you have a severe lung condition (such as cystic fibrosis, severe asthma or severe COPD)
- have a condition that means you have a very high risk of getting infections (such as SCID or sickle cell)
- are taking medicine that makes you much more likely to get infections (such as high doses of steroids or immunosuppressant medicine)

- have a serious heart condition and are pregnant
- are an adult with Down's syndrome
- are an adult who is having dialysis or has severe (stage 5) long-term kidney disease
- have been classed as clinically extremely vulnerable, based on clinical judgement and an assessment of your needs

What to do if you're at high risk

If you're at high risk from coronavirus, there are things you can do to help keep yourself safe.

See [what to do if you're at high risk from coronavirus](#). See page 36

People at moderate risk (clinically vulnerable)

People at moderate risk from coronavirus include people who:

- are 70 or older
- have a lung condition that's not severe (such as asthma, COPD, emphysema or bronchitis)
- have heart disease (such as heart failure)
- have diabetes
- have chronic kidney disease
- have liver disease (such as hepatitis)
- have a condition affecting the brain or nerves (such as Parkinson's disease, motor neurone disease, multiple

sclerosis or cerebral palsy)

- have a condition that means they have a high risk of getting infections
- are taking medicine that can affect the immune system (such as low doses of steroids)
- are very obese (a BMI of 40 or above)
- are pregnant – see [advice about pregnancy and coronavirus](#)

Unlike people at high risk, you will not get a letter from the NHS.

What to do if you're at moderate risk

If you're at moderate risk from coronavirus, you can go out to work (if you cannot work from home) and for things like getting food or exercising. But you should try to stay at home as much as possible.

It's very important you follow the general advice on [social distancing](#). This includes trying to stay at least 2 metres (3 steps) away from anyone you do not live with or anyone not in your support bubble.

What is a support bubble?

Other things that can affect your risk

There are other things that can make you more likely to get seriously ill from coronavirus, including if you are:

- over 60 – your risk increases as you get older
- from a Black, Asian or minority ethnic background

CLINICALLY EXTREMELY VULNERABLE—SHIELDING

If you have been identified as at high risk of complications from coronavirus (COVID-19) you will receive a letter from your GP, hospital or (if identified nationally) from our national service. If you are unclear why you have received a letter, please contact your GP or hospital consultant.

You should continue to access the NHS services that you need, and you should contact the NHS if you have an urgent or emergency care need. You can quickly and easily access a range of NHS services from home, including ordering repeat prescriptions or contacting your health professional through an online consultation. To find out more visit www.nhs.uk/health-at-home, or download the [NHS App](#).

Children and young people

Specialists in paediatric medicine have reviewed the evidence on the level of risk posed to children and young people from COVID-19. The latest evidence indicates that the risk of serious illness for most children and young people is low.

Updated guidance on which paediatric patient groups should be defined as clinically extremely vulnerable has been shared with those NHS staff providing direct care for children and young people.

GPs and hospital paediatricians are reviewing those children within their care who are considered at “high risk” from COVID-19 in line with the latest evidence. They will determine whether each child’s risk status should be revised, and as

appropriate discuss this with each patient before revising the patient’s risk flag.

Work

You are strongly advised to work from home because the risk of exposure to the virus in your area may be significantly higher. If you cannot work from home, then you should not attend work.

You may want to speak to your employer about taking on an alternative role or change your working patterns temporarily to enable you to work from home where possible.

If you cannot make alternative arrangements, your employer may be able to furlough you under the [Coronavirus Job Retention Scheme](#), which has been extended until the end of April 2021. You should have a conversation with your employer about

Get help and support

Help is available for anyone who has been identified as clinically extremely vulnerable.

Who this support is for.

This support is for everyone living in the Colchester borough who has been identified as clinically extremely vulnerable. If you are in this group, you will have received a letter, text or email telling you this. You may have been advised to shield in the past.

[Read more here](#)

Or call Community360 on 01206 505250 Community360 by emailing information@community360.org.uk

If you're at a higher risk from coronavirus, you can get also get help from an NHS volunteer with things like getting food, medicines and other things you need.

Call [0808 196 3646](tel:08081963646) (open 8am to 8pm) to get help from [NHS Volunteer Responders](#).

whether this is possible.

As you are being advised not to attend work, you may be eligible for Statutory Sick Pay (SSP) or Employment Support Allowance (ESA). The formal shielding letter you receive will act as evidence for your employer and the Department of Work and Pensions that you are advised to shield and may be eligible for SSP or

ESA.

Members of the household who are not clinically extremely vulnerable should continue to attend work if they are unable to work from home

Education

Colleges, primary (reception onwards) and secondary schools will remain open for vulnerable children and the children of critical workers. All other children will learn remotely until February half term.

In current circumstances, it is not possible for all exams in the summer to go ahead as planned. The government will be working with Ofqual to consult rapidly to put in place alternative arrangements that will allow students to progress fairly.

Public exams and vocational assessments scheduled to take place in January will go ahead as planned.

Socialising

You can go outside, but try to keep all contact with others outside of your household to a minimum, and avoid busy areas. Outdoors, you can only meet one person from another household.

You are advised to stay at home as much as possible.

You can still remain in your support bubble, but you cannot meet with friends and family you do not live with unless they are part of your support bubble. This is part of the wider regulations in place in your area.

REGISTERING FOR SUPPORT

You can register yourself or someone else for the new online service to:

- request access to a priority supermarket delivery slot (if you have already got priority supermarket deliveries, you will keep them)
- make sure your details, such as your address, are up to date

You can register now and will be asked for your NHS number. You can find it on any letter the NHS has sent you, or on a prescription. It is helpful if you register even if you do not have any support needs at this time. You can log in and update your needs if circumstances change at any time.

If you need additional help to follow this guidance, or need to do it by phone please contact Community360 by phone at 01206 505250 or email information@community360.org.uk or email CBC's Community Response Team at communities@colchester.gov.uk .

Try to stay 2 metres away from other people within your household, especially if they display symptoms of the virus or have been advised to self-isolate.

Travel

You are advised to stay at home as much as possible and not to travel unless essential.

Shopping

You are advised not to go to the shops. Use online shopping if you can, or ask others to collect and deliver shopping for you (friends and family, or [NHS Volunteer Responders](#)). Locally Community360 can help—email information@community360.org.uk

You can [register](#) to request access to priority supermarket deliveries, if you do not have someone you can rely on to go

shopping for you. If you already have a priority delivery slot with a supermarket, that will continue – you do not need to do anything further. When registering you will be asked for your NHS number. You can find it on any letter the NHS has sent you, or on a prescription.

Registering on the site just gives you priority. It does not mean you'll definitely get a delivery slot. If you want access to priority supermarket deliveries, you will also need to set up an account with at least one supermarket and book slots yourself.

If you need other forms of help, including support to register for a priority supermarket delivery slot, you should contact Community360 at information@community360.org.uk or the councils Community Response Team at

communities@colchester.gov.uk .

Medicines

You are strongly advised not to go to a pharmacy because the risk of exposure to the virus is significantly higher in your area.

In the first instance, you should ask if any friends, family or volunteers can collect medicines for you.

If friends and family are not able to collect your medicines for you, and you and/or the pharmacy are unable to arrange a

volunteer, then you will be eligible for free medicines delivery. Please contact your pharmacy to inform them that you are clinically extremely vulnerable and need your medicines delivered, and they will arrange this free of charge.

Care and support

You can still receive informal care at home from people within your support bubble.

You can still receive care at home from professional social care and medical

Get a shielding note

Use this service if you need a note for your employer or the Department for Work and Pensions for Statutory Sick Pay (SSP)

If you're at high risk from coronavirus and live in a tier 4 area, you'll be sent a letter about what to do while tier 4 restrictions are in place. You might also be sent an email.

If you have this letter or email you do not need a shielding note, as it can be used to claim Statutory Sick Pay (SSP).

Who this service is for

You can only use this service if all of these apply:

- you're at high risk from coronavirus (clinically extremely vulnerable) – you received a letter saying you're high risk
- you work in an area in tier 4, but live outside this area
- you cannot work from home
- you live in England

You do not need to use this service if:

- you do not work in a tier 4 area
- you can work from home
- you can work in an area where there's no shielding advice in place

[For more information and to get a shielding note click here.](#)

professionals.

If you need additional help to follow this guidance, your Community360 are able help. If you are advised to shield you will be able to register yourself or someone else to:

- Request access to a priority supermarket delivery slot (if you have already got priority supermarket deliveries, you will keep them).
- Tell your council if you need support to follow shielding guidance, especially if you are unable to arrange this yourself or with the help of friends, family or other support networks.
- Make sure your details, such as your address, are up to date.

When registering you will be asked for your NHS number. You can find it on any letter the NHS has sent you, or on a prescription. It is helpful if you register even if you do not have any support needs at this time. You can log in and update your needs if circumstances change at any time.

Essex Wellbeing Service

They have a dedicated group of volunteers to offer help and support.

Call 0300 303 9988. Mon– Fri 8am—7pm. Sat 10am—2pm. Email provide.essexwellbeing@nhs.net

Register for help here.

ACCESSING FOOD AND ESSENTIAL SUPPLIES

Although food parcel deliveries have now stopped you are still able to get support should you need it.

Prescriptions, essential items and food you buy can be delivered by NHS Volunteer Responders please call 0800 196 3646 between 8am and 8pm.

You will still be on supermarket priority lists for food delivery slots.

If you can, ask friends, family or neighbours who are well to go out and get food and other essentials for you. If you do not have others to help you, please contact Community360 by emailing information@community360.org.uk.

There are also many community groups who can help in your area or local shops may be able to provide orders for delivery (by phone or email). You can find a comprehensive list in the Residents Contact Pack. You can also find some local groups listed on pages 8 – 9 of this pack. If someone is going to the shops for you, most supermarkets have ways you can pay for your shopping such as e-vouchers or gift cards. You can buy these online and the person shopping for you can use them in store. Details can be found on page 131.

You can also contact the Essex Wellbeing Service who have volunteers who can help – call 0300 303 9988.

Vitamin D supplements

During the autumn and winter months everyone is advised to take a supplement of vitamin D every day to support general health and in particular for bone and muscle health. Many of us have been indoors more than usual this year and so might not have been making enough vitamin D from sunlight. You can find general advice on vitamin D here: <https://www.nhs.uk/vitamin-d>

This advice is particularly important for people who have been shielding this year due to COVID-19, or who are living in care homes, because they are most likely to have been indoors over the spring and summer and so may not have been able to obtain enough vitamin D from sunlight.

You do not need take vitamin D supplements if:

- You are already taking, or are prescribed, a vitamin D supplement by your GP or healthcare professional
- You are currently living in a nursing or residential care home as we will provide these direct to the home where you live.

Help is available for anyone who has been identified as clinically extremely vulnerable.

This support is for everyone living in the Colchester borough who has been identified as clinically extremely vulnerable. If you are in this group, you will receive a letter, text or email telling you this. You may have been advised to shield in the past.

Read more here: <https://www.colchester.gov.uk/coronavirus/communities/support-for-clinically-extremely-vulnerable-people/>

USING THE NHS AND OTHER HEALTH SERVICES DURING CORONAVIRUS

At the moment, it can be hard to know what to do if you're unwell or have a concern about your health.

It's important to:

- get medical help if you think you need it
- keep any appointments or procedures you have booked – unless you're told not to go
- go to hospital if you're advised to

NHS services have made changes to make sure it's safe for you to be seen during coronavirus. There are also ways to get medical help and prescriptions online or over the phone.

Health information and advice

The best place to get accurate health information is the [NHS website](#).

The NHS website has information and advice on:

- [medical conditions and symptoms](#)
- [common medicines](#)
- [healthy lifestyle](#)

You can also check your GP surgery's website. Lots of GP surgeries have online services where you can get advice and support from your GP surgery team

[Find your GP surgery](#) to get its website details.

Help and support from a GP

If you need to contact a GP, do not go into the surgery in person.

You can:

- visit the GP surgery's website, or use an [online service](#) to contact your GP – [find your GP surgery](#) to get its website details
- call your GP surgery

Your GP surgery will then give you advice about what to do.

A phone or video call with a GP, nurse or

other healthcare professional may be booked for you.

You'll only be asked to visit the surgery if absolutely necessary.

Your GP surgery may be very busy at the moment and you may have to wait longer than usual to speak to someone if it's not urgent.

Online services and apps

If you're registered with a GP surgery, you can use online services and apps that may allow you to:

- order repeat prescriptions
- see parts of your health record, including test results
- book, check or cancel appointments

You may not be able to book appointments at the moment. Please check your GP surgery's website for how to contact staff ([find your GP surgery](#)) to get its website details).

If you can book an appointment, it is likely to be a phone or video appointment.

Find out [how to start using online services](#).

Repeat prescriptions

If you have a repeat prescription that you usually request at your GP surgery or

pharmacy, you can do this online.

You can order repeat prescriptions using:

- [Online services and apps linked to your GP surgery](#).
- Pharmacies that have an online repeat prescription service – you can search for these online.

Do not go to your GP surgery or pharmacy to order prescriptions. Call them if you cannot order your prescription online.

When you order your prescription, order it at the same time and in the same amount you usually would. Do not order more than you need as this may mean someone else will be unable to get their medicine.

Read more about [how to order repeat prescriptions online](#).

Hospitals

If you have a hospital appointment, it's important to go.

Some changes have been made to hospital services:

- You must wear something that covers your nose and mouth when you go to a hospital.
- Some appointments may be online, by phone or by [video call](#).

CORONAVIRUS HELP

If you think you have [symptoms of coronavirus](#) and need medical advice, use the [NHS 111 online coronavirus service](#).

- You may be asked to come to your appointment alone, if you can.
- Some appointments may be cancelled or rescheduled – but keep going to any appointments you usually have, unless you're told not to.

If you're having surgery or a procedure:

- You, the people you live with and anyone in your support bubble may need to self-isolate before you go into hospital.
- You may need a test to check if you have coronavirus before you go into hospital.

Your hospital will contact you with more information about what you need to do.

Dental treatment

In England, some routine dental treatments are now available again.

Changes have been made to keep you and the dental care team safe.

Contact your dentist by phone or email. Only visit if you've been told to.

If you think you need urgent dental treatment, do not go to a dentist.

Instead:

- call your dentist
- use the [NHS 111 online service](#) if you cannot contact your dentist or you do not have one

They can give you advice, help you

New Arrangements for Long Term Sick Notes

People unable to work for more than 7 days due to COVID-19 symptoms can now obtain an isolation note online without contacting a doctor to reduce the pressure on GP surgeries and stop people having to leave their homes.

The service can be accessed via [Get an isolation note](#) or via the NHS app.

Advice for Parents

Whilst coronavirus is infectious to children it is rarely serious. If your child is unwell it is likely to be a non-coronavirus illness, rather than coronavirus itself.

Although it is extremely important to follow Government advice to stay at home during this period, it can be confusing to know what to do when your child is unwell or injured.

Remember that NHS 111, GPs and hospitals are still providing the same care that they have always done.

[Click here to view advice poster](#)

The following link is a video produced locally by two clinicians (and approved by NHSE/I) to inform parents of the services available and when to [seek help](#).

A COLD, THE FLU OR CORONAVIRUS?

contact an urgent dental service or arrange treatment if needed.

Do not contact a GP. They cannot provide dental treatment.

Urgent medical help

If you need urgent medical help, use the regular [NHS 111 online service](#).

The 111 online service asks questions about your symptoms to help you get the help you need.

Call 111 if you need urgent help for a child under 5 or cannot get help online.

Emergency medical help

For life-threatening emergencies, call

YOUR COVID RECOVERY SERVICE

As you find yourself recovering from COVID-19 you may still be coming to terms with the impact the virus has had on both your body and mind. These changes should get better over time, some may take longer than others, but there are things you can do to help. Your COVID Recovery helps you to understand what has happened and what you might expect as part of your recovery. For further information, visit: www.yourcovidrecovery.nhs.uk

Colds, flu and coronavirus are caused by different viruses, but can have similar symptoms.

It can be hard to tell which one you may have.

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear **2-14 days after exposure to the virus**. As well as the three main symptoms of

- Fever or chills
- Cough
- New loss of taste or smell

People with the following symptoms may have COVID-19:

- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhoea

Flu and COVID-19 are both contagious respiratory illnesses, but they are caused by different viruses. COVID-19 is caused by infection with a new coronavirus (called SARS-CoV-2), and flu is caused

by infection with influenza viruses.

COVID-19 seems to spread more easily than flu and causes more serious illnesses in some people. It can also take longer before people show symptoms and people can be contagious for longer. More information about differences between flu and COVID-19 is available in the different sections below.

Because some of the symptoms of flu and COVID-19 are similar, it may be hard to tell the difference between them based on symptoms alone, and testing may be needed to help confirm a diagnosis.

TOP FIVE CORONAVIRUS SYMPTOMS IN CHILDREN

Experts say parents should look out for the following symptoms:

- Fever 37,8C or higher.
- Sore throat.
- New uncontrolled cough that causes difficulty in breathing. (for a child with chronic allergic/asthmatic cough, see if there is a difference from their usual cough).
- Diarrhoea, vomiting or stomach-ache.
- New onset of severe headache especially with a fever.

Symptoms	Coronavirus Symptoms range from mild to severe	Flu Rapid onset of symptoms	Cold Gradual on set of symptoms
Fever 37.8C or above	Common	Common	Rare
Cough	Common	Common	Mild
Loss of taste and smell	Sudden	Rare	Sometimes
Fatigue	Sometimes	Common	Sometimes
Headaches	Sometimes	Common	Rare
Aches and pains	Sometimes	Common	Common
Runny / stuffy nose	Rare	Sometimes	Common
Sore throat	Sometimes	Sometimes	Common
Sneezing	No	No	Common
Shortness of breath	Sometimes	No	No
Diarrhoea	Sometimes for children	Sometimes especially for children	No

NHS TEST AND TRACE SERVICE

Test and Trace traces the spread of the virus, isolates new infections and plays a vital role in giving an early warning if the virus is increasing again, locally or nationally.

When to self-isolate

The medical advice is clear: you must self-isolate if you have coronavirus symptoms or live in the same household as somebody who does. The main symptoms of coronavirus are:

- High temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature).
- New, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual).
- Loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal.

For more information read [Check if you have coronavirus symptoms](#).

If you have one or more of these symptoms, you must self-isolate straight away for 7 days – or longer if you still have symptoms other than cough or loss of sense of smell/taste. Do not go to a GP surgery, pharmacy or hospital.

If you live in the same household as

someone with coronavirus symptoms, you must self-isolate straight away for 14 days.

How to order a test

Please book a test as soon as possible after you develop symptoms to find out if you have coronavirus. The sooner you have a test, the sooner you will know if you and other members of your household must remain in self-isolation.

You can order a test through the NHS website. [Ask for a coronavirus test](#).

If you are an essential worker or an employer, please visit:

[Essential workers - apply for a coronavirus test](#).

[Employers - apply for a coronavirus test](#).

If you don't have access to the internet, you can order a test by phoning 119.

[You can use this link for more information on the testing](#)

There are now many ways to be tested including drive through centres, mobile testing units, home testing kits and

dedicated testing centres for NHS and those working in care settings. When you order a test, you will get information on the options available.

The aim is to provide results within 48 hours of taking a test, but some results may take longer.

You will get your results by text, email or phone – and the message will advise you about what to do next.

If you develop symptoms, you may want to tell people with who you have had close contact with in the last 48 hours. You should tell them that you might have coronavirus but are waiting for a test result.

At this stage (until the test result is known), those people do not need to self-isolate, but they should take extra care in practising social distancing and good hygiene, like washing their hands

regularly. They should also watch out for their own symptoms.

If you test negative.

If you get a negative test result, this means you are at low risk of having coronavirus.

Other members of your household can stop self-isolating. If you feel well and no longer have symptoms like coronavirus, you can stop self-isolating.

If you test positive.

If you get a positive test result, this means that when you took the test, you had coronavirus. You – and other members of your household – must continue to self-isolate.

You will be contacted by the NHS Test and Trace team and asked to share information about any close contacts you had just before or after you developed symptoms. This is vital to help stop the

Getting tested

If you live in Essex and have symptoms of coronavirus you can get a test. You can book a test on GOV.UK or call 119.

Where can you get tested?

Testing centres are run by the NHS and Ministry of Defence. They may offer you a test centre, depending on availability, at:

- one of the national testing centres, in Stansted or Ipswich
- or at local mobile testing site. The NHS provide locations on a weekly basis for the week ahead. Check current locations.

If you're unable to visit a test centre

You may be able to book a home test on GOV.UK if you meet the eligibility criteria.

spread of the virus.

Contact tracers will:

- Call you from 0300 013 5000.
- Send you text messages from 'NHS'.
- Ask you to sign into the [NHS test and trace contact tracing website](#).
- Ask for your full name and date of birth to confirm your identity, and postcode to offer support while self-isolating.
- Ask about the coronavirus symptoms you have been experiencing.
- Ask you to provide the name, telephone number and/or email address of anyone you have had close contact with in the 2 days prior to your symptoms starting. Close contact means having face-to-face contact with someone (less than 1 metre away), spending more than 15 minutes within 2 metres of someone, travelling in a car or other small vehicle with someone (even on a short journey) or close to them on a plane.
- If you work in, or have recently visited, a setting with other people (for example a GP surgery, a school or a workplace).
- Ask if anyone you have been in contact with is under 18 or lives outside England.

CONTACT TRACERS WILL NEVER:

- Ask you to dial a premium rate number to speak to us (for example, those starting 09 or 087).
- Ask you to make any form of payment or purchase a product or any kind.
- Ask for any details about your bank account.
- Ask for your social media identities or login details, or those of your contacts.
- Ask you for any passwords or PINs or ask you to set up any passwords or PINs over the phone.
- Disclose any of your personal or medical information to your contacts.
- Provide medical advice on the treatment of any potential coronavirus symptoms.
- Ask you to download any software to your PC or ask you to hand over control of your PC, smartphone or tablet to anyone else.
- Ask you to access any website that does not belong to the government or NHS.

nhs.uk/coronavirus

Covid-19 Testing Centre Opens In Colchester

A new fast testing centre is opening in Colchester for those who **DO NOT** have symptoms of Covid-19.

Colchester residents with no symptoms are being encouraged to get tested to help reduce the spread of the virus and the pressure it is putting on hospitals and the care system.

The new Colchester Testing Centre is situated at Leisure World Colchester, Cowdray Avenue, CO1 1YH and will be operational from Saturday 16 January 2021.

This centre offers new and fast Lateral Flow Tests, **ONLY** for people for who **DO NOT** have symptoms and gives results in around 30 minutes.

Tests are by **appointment only** and bookings should be made online. Anyone booking should live in Colchester. You can book a test [here](#).

Booking online is the quickest and most effective option for residents seeking a Lateral Flow Test.

If you're not able to book using the online form, you can call 0333 772 6144 to arrange an appointment. Lines are open from 8am to 8pm, every day including Saturday and Sunday.

You can also email: booking.confirmation@nhs.net and a member of staff will contact you to arrange an appointment.

Anyone **WITH** symptoms should book a test via the NHS Test and Trace App, or [here](#).

CORONAVIRUS
Got symptoms?
get tested now.

Be part of the team, protect your community –
get a test as soon as you can and follow the guidance.

Do not leave home, except to get a test. Find out how to get a test at
www.newcastle.gov.uk/coronavirus or call 119.

HELP AND FINANCIAL SUPPORT WHILE YOU'RE SELF-ISOLATING

Staying at home (self-isolating) can be difficult, but it's important to stop coronavirus (COVID-19) spreading to other people.

Help and support is available while you're at home.

Help with everyday tasks from an NHS volunteer

NHS Volunteer Responders can help with things like:

- collecting shopping
- collecting medicines and prescriptions
- phone calls if you want to chat to someone

Call 0808 196 3646 (8am to 8pm, everyday) to arrange help from a volunteer.

Financial support if you cannot work

- Tell your employer if you cannot work while you're self-isolating.
- They should tell you if you're covered by their sick leave or special leave policy.
- If you cannot get sick pay from your employer, you might be able to get Statutory Sick Pay or another type of financial support.
- Find out more about what to do if you're employed and cannot work on GOV.UK.
- Get an isolation note to give to your

employer. You can get an isolation note to send to your employer as proof you need to be off work. You do not need to get a note from a GP.

Test and Trace Support Payment

The Government has announced measures to support people who have a loss in income due to being asked by national or local Test and Trace to self-isolate. If you are a Colchester resident and meet all of the following eligibility criteria, you are entitled to a financial support of £500.

[Self-isolation and treating coronavirus symptoms](#)

[When to self-isolate and what to do](#)

[How long to self-isolate](#)

[How to avoid spreading coronavirus to people you live with](#)

[How to treat coronavirus symptoms at home](#)

[Help and financial support while you're self-isolating](#)

[What to do if coronavirus symptoms get worse](#)

[What to do if you get coronavirus symptoms again](#)

[Support with work and finances: Financial support - Essex County Council](#)

[Apply for a Test and Trace Support Payment - Essex County Council](#)

Colchester Borough Council has received extra funding from Essex County Council to extend its scheme to provide one-off support payments to residents asked to self-isolate.

Residents who need to self-isolate because they or a household member has tested positive for COVID-19 could get a £500 grant – whether or not they qualify for Government support.

People who test positive for Covid-19 could be entitled to a £500 Test and Trace Support Payment from the Government.

However, many residents asked to self-isolate may be ineligible for the Government support payment. It is these

people who this new fund aims to help.

People may not qualify for Government support because, for instance, they are on zero hours contracts, self-employed and trading for less than one year or self-employed without access to support because of low trading returns.

The extra funding is to ensure that those that must stay at home are given the financial means to do so. The £500 discretionary grant per resident will be a one-off payment to cover the two-week period of self-isolation. The funding is a per-head share of £3m distributed to councils across Essex.

£500 grants available to those who need to self-isolate

NHS COVID-19 APP

The NHS COVID-19 app is part of the large scale coronavirus (COVID-19) testing and contact tracing programme called the NHS Test and Trace service.

The app will be used, alongside traditional contact tracing, to notify users if they come into contact with someone who later tests positive for coronavirus. The app allows people to report symptoms, order a coronavirus test, check in to venues by scanning a QR code and it helps the NHS trace individuals that may have coronavirus.

The app will help the NHS understand if the virus is spreading in a particular area, and so local authorities can respond quickly to stop it spreading further and save lives. The app does this while protecting a user's anonymity. Nobody, including the government, will know who or where a particular user is.

The importance of the app

Every person who downloads the app will be helping in the fight against coronavirus (COVID-19). The app will help the NHS understand where and how quickly the virus is spreading, so it can respond quickly and effectively. The app helps the NHS track the virus, not individuals.

App Data

Every person who downloads the app will be helping in the fight against coronavirus (COVID-19). The app will help the NHS understand where and

how quickly the virus is spreading, so it can respond quickly and effectively. The app helps the NHS track the virus, not individuals.

Benefits of app contact tracing

The app helps trace app users who have spent time near other app users, who they may not personally know, and who later test positive for coronavirus. The "Check-in" feature supports this functionality by anonymously alerting users who have been at the same venue at the same time. App contact tracing reduces the time it takes to alert those who you have been in close contact with.

The infographic features a blue header with the NHS logo and the text 'Test and Trace'. Below this, the title 'NHS COVID-19 app features' is prominently displayed. A central graphic shows a smartphone displaying the app's interface with the text: 'This app helps us keep each other safe. It's free, but it does have a small amount of data collection to help us understand how the app is used.' Below the title, there are two lines of text: 'Helping us all to support the NHS by reducing the spread of coronavirus (COVID-19). Protect your loved ones. Download the app.' The main body of the infographic is divided into six sections, each with an icon and a brief description: 'Trace' (Get alerted if you've been near other app users who have tested positive for coronavirus), 'Alert' (Lets you know the level of coronavirus risk in your postcode district), 'Check-in' (Get alerted if you have recently visited a venue where you may have come into contact with coronavirus), 'Symptoms' (Check if you have coronavirus symptoms and see if you need to order a free test), 'Test' (Helps you book a test and get your result), and 'Isolate' (Keep track of your self-isolation countdown and access relevant advice). At the bottom, there is a grey box with the text: 'To download the NHS COVID-19 app, search for "NHSCOVID-19" in the App Store / Google Play Store on your phone.'

How the app supports you

If you choose to download the app, there are six key features that will help you and your community. They will help to reduce your personal risk and the public's risk too.

Trace

For contact tracing, the app detects and logs other nearby app users using random unique IDs. If any of those users later test positive for coronavirus (COVID-19), you will receive an exposure alert with advice on what to do. If you are under 18, you are advised to show this alert to a trusted adult.

Alert

When you first register for the app you will be asked for the first half of your postcode. You can check the app every day to see whether where you live has become a high risk area for coronavirus. If it is, you will also receive a notification to let you know. This will help you make daily decisions to protect yourself and those you love.

Check-in

The app allows you to record when you visit a venue by "checking-in" when you arrive, using the venue's QR code. The app records the time you spend at the venue without recording any personal information. You will receive an alert, if you have recently visited a venue where you have come into contact with coronavirus.

Symptoms

If you feel unwell, you can use the app to check if your symptoms could be related to coronavirus (COVID-19). The app will give you a list of potential symptoms and you can then choose the ones that apply to you. It will then tell you if your symptoms suggest you have coronavirus.

Test

If you have coronavirus symptoms, the app will take you to a website where you can book a test to see if you have coronavirus or not.

Isolate

If you have been advised by the app to self-isolate, the app provides a countdown timer so that you can keep track of how long you need to self-isolate. When you reach the end of your self-isolation period, the app will send you a notification reminder with a link to the latest advice for you. If you are under 18, you are advised to show this message to a trusted adult.

By all using this app we can help keep ourselves and the public that much safer from the risks of Covid-19. But remember, just because you have the app doesn't mean the end of **Hands – Face – Space** so please frequently wash your hands and avoid common touchpoints, wear a mask when needed, and stay two metres (or 'one metre plus') away from others.

ISOLATING—STAY AT HOME ADVICE

It is important that we all take steps to reduce the spread of coronavirus (COVID-19) infection in the community to save lives and protect the NHS.

This guidance is for:

- People with symptoms that may be caused by COVID-19, including those who are waiting for a test.
- People who have received a positive COVID-19 test result (whether or not they have symptoms).
- People who currently live in the same household as someone with COVID-19 symptoms, or with someone who has tested positive for COVID-19.

In this guidance a household means:

- One person living alone.
- A group of people (who may or may not be related) living at the same address and who share cooking facilities, bathrooms or toilets and/or living areas. This may include students in boarding schools or halls of residence who share such facilities.

This guidance also applies to people in your support bubble or childcare bubble.

Follow separate guidance if you have had contact with someone who has tested positive for COVID-19 but do not currently live in the same household as them. If you have arrived in the UK from overseas you may also need to self-isolate.

Symptoms

The most important symptoms of COVID-19 are recent onset of any of the following:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

For most people, COVID-19 will be a mild illness. However, if you have any of the symptoms above, stay at home and arrange to have a test.

There are several other symptoms linked with COVID-19. These other symptoms may have another cause and are not on their own a reason to have a COVID-19 test. If you are concerned about your symptoms, seek medical advice.

Tests for COVID-19

Two types of test are currently being used to detect if someone has COVID-19:

- Polymerase Chain Reaction (PCR) tests
- Lateral Flow Device (LFD) tests

PCR tests detect the RNA (ribonucleic acid, the genetic material) of a virus. PCR tests are the most reliable COVID-19 tests. It takes some time to get the results because they are usually processed in a laboratory.

LFD tests detect proteins in the

**Public Health
England**

Self-isolation

Advice for patients with & without symptoms of infection, who are isolating themselves due to potential exposure to novel coronavirus (COVID-19). These actions will help to protect others inside & outside of your home from infection.

Isolate yourself

Stay in your home or accommodation, do not go to work, school or other public areas

Separate yourself from others in your home or accommodation

Do not have visitors in your home or accommodation

Use **separate facilities** if sharing, these should be cleaned before use by others

Have food, medication & other supplies **delivered to you**

Try to keep away from your pets. If unavoidable, wash your hands before & after contact

Prevent the spread of infection

Cover coughs & sneezes with a tissue

Place the tissue in a **bin**

Wash your hands with **soap & water**

Use **separate household items** like towels, bedding, toothbrushes, cups & dishes

Wear a mask when you are around others, if you have been told to do so

Wash hands with soap & water:

Before cooking & eating

After using the toilet

Take care of your health & wellbeing

For those with symptoms of infection:

Get plenty of rest until you feel better

Drink enough fluids so that you pass urine regularly

Take paracetamol as advised, to reduce pain & fever

For everyone in self-isolation:

Keep in contact with friends & family by phone, video & online

Carry on hobbies & interests within your home if you are able to

Take regular exercise within your home if able

Seek help if you develop symptoms or existing symptoms get worse (eg difficulty breathing) by calling NHS 111

Your healthcare provider will advise you on whether to remain in self-isolation following a negative test result

In an emergency, call 999 & inform the call handler about your potential exposure to COVID-19

coronavirus and work in a similar way to a pregnancy test. They are simple and quick to use. LFD tests are not as accurate as PCR tests and are mainly used in people who do not have symptoms of COVID-19. Anyone who has a positive LFD test should have a PCR test to confirm the result within 48 hours.

Main messages

Anyone with COVID-19 symptoms or a positive test result must stay at home for the full isolation period. This is because they could pass it on to others, even if they don't have symptoms.

It may be difficult for some people to separate themselves from others in their household. Not all these measures will be possible if you are living with children or have caring responsibilities but follow this guidance to the best of your ability in these circumstances.

If you have COVID-19 symptoms or have received a positive COVID-19 test result

STAY AT HOME AND SELF-ISOLATE

- If you develop symptoms of COVID-19, stay at home and self-isolate immediately.
- If you have a positive test result but do not have symptoms, stay at home and self-isolate as soon as you receive the results.
- Your household needs to isolate too.

- Arrange to have a PCR test for COVID-19 if you have not already had one.
- Stay at home while you are waiting for a home test kit, a test site appointment or a test result.

You can leave your home in certain circumstances, but do not go to work, school, or public areas and do not use public transport or taxis. Only leave your home to get to your test if you need to, observe strict social distancing advice and return immediately afterwards.

Your isolation period includes the day your symptoms started (or the day your test was taken if you do not have symptoms), and the next 10 full days.

This means that if, for example, your symptoms started at any time on the 15th of the month (or if you did not have symptoms but your first positive COVID-

19 test was taken on the 15th), your isolation period ends at 23:59 hrs on the 25th.

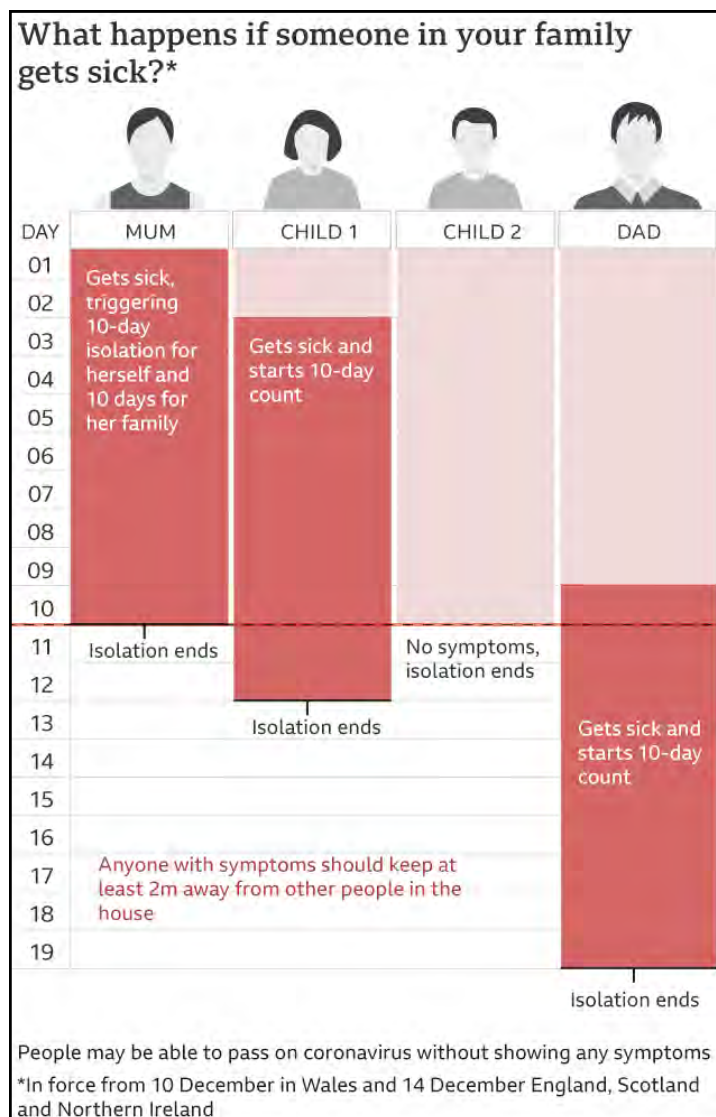

A positive PCR test result means you must complete your full isolation period. Your isolation period starts immediately from when your symptoms started, or, if you do not have any symptoms, from when your first test was taken, whether this was a LFD or a PCR test.

A positive LFD test result also means you must complete 10 days isolation, unless this is followed by a PCR test and the

result is negative.

You can return to your normal routine and stop self-isolating after 10 full days if your symptoms have gone, or if the only symptoms you have are a cough or anosmia, which can last for several weeks. If you still have a high temperature after 10 days or are otherwise unwell, stay at home and seek medical advice.

If you are isolating because of a positive test result but did not have any symptoms, and you develop COVID-19

symptoms within your isolation period, **start a new 10 day isolation period by counting 10 full days from the day following your symptom onset.**

Most people with COVID-19 will experience a mild illness. Seek prompt medical attention if your illness or the illness of someone in your household is worsening.

Stay as far away from other members of your household as possible, especially if they are clinically extremely vulnerable. Wherever possible, avoid using shared spaces such as kitchens and other living areas while others are present and take your meals back to your room to eat. Wear a face covering or a surgical mask when spending time in shared areas inside your home.

Take exercise within your home, garden or private outdoor space. Follow the general advice to reduce the spread of the infection within your household.

If you have a negative COVID-19 PCR test result following a positive LFD test

If you have a PCR test following a positive LFD test, and the result is negative, you and your household can stop isolating.

If you have a negative COVID-19 PCR test result after being tested because you had symptoms

If your PCR test result is negative but you still have symptoms, you may have another virus such as a cold or flu. You

should stay at home until you feel well. Seek medical attention if you are concerned about your symptoms.

You can stop isolating as long as:

- you are well
- no-one else in your household has symptoms or has tested positive for COVID-19
- you have not been advised to self-isolate by NHS Test and Trace
- you have not arrived into the UK from a non-exempt country within the last 10 days. Separate guidance is available if you are participating in the Test to Release for international travel scheme

Anyone in your household who is isolating because of your symptoms can also stop isolating.

After your isolation period has ended

If you have tested positive for COVID-19, you will probably have developed some immunity to the disease. However, it cannot be guaranteed that everyone will develop immunity, or how long it will last. It is possible for PCR tests to remain positive for sometime after COVID-19 infection. Anyone who has previously received a positive test result for COVID-19 should only be re-tested within a 90-day period if they develop any new symptoms of COVID-19.

If you develop COVID-19 symptoms at any point after ending your first period of isolation you and your household should

follow the steps in this guidance again.

If you develop COVID-19 symptoms and had a positive test result more than 10 days ago, you should stay at home and seek medical advice.

NHS Test and Trace

You will receive a request by text, email or phone to log into the [NHS Test and Trace](#) service website and provide information about your symptoms and when they started. The 3 main [symptoms](#) of COVID-19 are used to identify when someone should seek a test and when they should self-isolate from. You may have experienced other symptoms before developing any of the 3 main symptoms (a cough, high temperature or loss of smell or taste), and the timing of these other symptoms will be used to identify your contacts.

You will be asked about your recent contacts so that they can be given public health advice. They will not be told your identity. It is very important that you provide this information, as it will play a vital role in helping to protect your family, friends and the wider community.

If you live in the same household as someone with COVID-19

Stay at home and self-isolate. Do not go to work, school, or public areas and do not use public transport or taxis.

Your isolation period includes the day the first person in your household's [symptoms](#) started (or the day their test was taken if they did not have symptoms, whether this was an LFD or PCR test), and the next 10 full days. This means that if, for example, your 10 day isolation period starts on the 15th of the month, your isolation period ends at 23:59 hrs on the 25th and you can return to your normal routine.

If you do not have symptoms of COVID-19 yourself, you do not need a test. Only arrange a test if you develop COVID-19 symptoms or if you are asked to do so as part of a wider testing scheme. If for any reason you have a negative test result during your 10 day isolation period, you must continue to self-isolate. Even if you don't have symptoms, you could still pass the infection on to others. Stay at home for the full 10 days to avoid putting others at risk.

If you are asked to self-isolate by [NHS Test and Trace](#), including by the [NHS COVID-19 app](#), you may be entitled to a payment of £500 from your local authority under the [Test and Trace Support Payment scheme](#).

Failure to comply with self-isolation may result in a fine, starting from £1,000. Parents or guardians are legally responsible for ensuring that anyone under 18 self-isolates if they test positive for COVID-19 and are contacted by NHS Test and Trace and told to self-isolate.

If you develop symptoms while you are isolating, arrange to have a COVID-19 PCR test. If your test result is positive, follow the advice for people with COVID-19 to stay at home and start a further full 10 day isolation period. This begins when your symptoms started, regardless of where you are in your original 10 day isolation period. This means that your total isolation period will be longer than 10 days.

If other household members develop symptoms during this period, you do not need to isolate for longer than 10 days.

Visitors to the household

Do not invite or allow social visitors to enter your home, including friends and family. If you want to speak to someone who is not a member of your household, use the phone, email or social media.

If you or a family member receive essential care in your home, carers should continue to visit and follow the provision of home care guidance to reduce the risk of infection.

All non-essential in-house services and repairs should be postponed until the self-isolation period is completed.

How COVID-19 is spread

COVID-19 spreads from person to person through small droplets, aerosols and through direct contact. Surfaces and belongings can also be contaminated with COVID-19 when people with the infection cough or sneeze or touch them.

The risk of spread is greatest when people are close to each other, especially in poorly ventilated indoor spaces and when people spend a lot of time together in the same room.

Social distancing, washing your hands and good respiratory hygiene (using and disposing of tissues), cleaning surfaces and keeping indoor spaces well ventilated are the most important ways to reduce the spread of COVID-19.

People who have COVID-19 can infect others from around 2 days before symptoms start, and for up to 10 days after. They can pass the infection to others, even if they have mild symptoms or no symptoms at all, which is why they must stay at home.

People who live in the same household as someone with COVID-19 are at higher risk of developing COVID-19. They could

spread the disease to others even when feeling well, which is why they must stay at home.

How to limit close contact with others in the household if you have COVID-19

- Spend as little time as possible in shared spaces such as kitchens, bathrooms and sitting areas.
- Avoid using shared spaces such as kitchens and other living areas while others are present and take your meals back to your room to eat.
- Observe strict social distancing.
- Ask the people you live with to help by bringing your meals to you, helping with cleaning and by giving you space.
- Use a separate bathroom from the rest of the household where possible. If a separate bathroom is not

available, try and use the facilities last, before cleaning the bathroom using your usual cleaning products. The bathroom should be cleaned regularly.

- You should use separate towels from other household members, both for drying yourself after bathing or showering and for drying your hands. Keep your room well-ventilated by opening a window to the outside.
- Use a face covering or a surgical mask when spending time in shared areas inside your home to minimise the risk of spread to others. Used correctly, they may help to protect others by reducing the transmission of COVID-19 but they do not replace the need to limit your contact with other household members.

You can find more advice on reducing the risks from COVID-19 in your home at [GermDefence](#).

Those who are clinically extremely vulnerable should be supported to minimise their contact with other people in the household during this period, regardless of whether others have symptoms or not.

Reducing the spread of COVID-19 in your household

Everyone should take the following steps to reduce the spread of infection within their household.

WASH YOUR HANDS

This is an important way to reduce the risk of catching COVID-19 or passing it on to others. Wash your hands with soap and water for 20 seconds or use hand sanitiser, particularly after coughing, sneezing and blowing your nose and before you eat or handle food. Clean your hands frequently and avoid touching your face.

COVER COUGHS AND SNEEZES

Cover your mouth and nose with disposable tissues when you cough or sneeze. If you do not have a tissue, cough or sneeze into the crook of your elbow, not into your hand.

Dispose of tissues into a rubbish bag and immediately wash your hands. If you have a carer, they should use disposable tissues to wipe away any mucus or phlegm after you have sneezed or coughed and then wash or sanitise their hands.

CLEAN YOUR HOME TO REDUCE SPREAD OF INFECTION

Regularly clean frequently touched surfaces, such as door handles and remote controls, and shared areas such as kitchens and bathrooms. This is particularly important if you have a clinically extremely vulnerable person in the house.

Use standard household cleaning products like detergents and bleach to clean your home as these are very

effective at getting rid of the virus on surfaces. Clean shared bathrooms each time they are used, especially the surfaces you have touched, using your usual bathroom cleaning products.

Cleaning cloths and personal waste such as used tissues and disposable face coverings should be stored in disposable rubbish bags. These bags should be placed into another bag, tied securely and put aside for at least 72 hours before being put in your usual external household waste bin. Other household waste can be disposed of as normal.

Use a dishwasher to clean and dry your crockery and cutlery. If this is not possible, wash them by hand using washing up liquid and warm water and dry thoroughly using a separate tea towel.

LAUNDRY

To reduce the possibility of spreading the virus through the air, do not shake dirty laundry. Wash items in accordance with the manufacturer's instructions. All dirty laundry can be washed in the same load. If you do not have a washing machine, wait a further 72 hours after your self-isolation has ended when you can then take the laundry to a public launderette.

Do not share towels, including hand towels and tea towels.

VENTILATE INDOOR AREAS

Keep indoor areas well-ventilated with fresh air, especially shared living areas. To increase the flow of air you can:

- open windows as much as possible
- open doors
- make sure that any vents are open and airflow is not blocked
- leave extractor fans (for example in bathrooms) running for longer than usual with the door closed after use

CARING FOR PETS

COVID-19 in the UK is spread between humans. There is limited evidence that some animals, including pets, can become infected with SARS-CoV-2 (the virus that causes COVID-19) following close contact with infected humans.

Pet owners who have COVID-19 or who are self-isolating with symptoms should restrict contact with pets and wash their hands thoroughly before and after interacting with their pet.

Looking after your health and wellbeing

Looking after your mental and physical wellbeing while staying at home

Staying at home and self-isolating for a prolonged period can be difficult, frustrating and lonely for some people and you or other household members may feel low. It can be particularly challenging if you do not have much space or access to a garden.

Remember to take care of your mind as well as your body and get support if you need it. There are many sources of support and information, such as [guidance on looking after your mental health and wellbeing](#) and on [supporting children and young people](#).

[Every Mind Matters](#) provides simple tips and advice to take better care of your

mental health, including a COVID-19 hub with advice for those staying at home.

Many people find it helpful to remind themselves why what they are doing is so important. By staying at home, you are helping to protect your friends and family, other people in your community and the NHS.

Things that you can do to help make staying at home easier:

- Keep in touch with friends and family over the phone or through social media.
- Remember that physical exercise can be good for your wellbeing. Look for online classes or courses that can help you take light exercise in your home.
- Plan ahead and think about what you will need to be able to stay at home for the full duration.
- Ask your employer, friends and family for help to access the things you will need while staying at home.
- Think about and plan how you can get food and other supplies, such as medication, that you will need during this period.
- Check if your neighbourhood or local community has a volunteer system that could help bring you supplies or provide other support.
- Ask friends or family to drop off anything you need or order supplies

online or by phone, making sure these are left outside your home for you to collect.

- Think about things you can do during your time at home such as cooking, reading, online learning and watching films.
- Many people find it helpful to plan out the full 10 days. You may also find it helpful to plan in advance what you will do if, for example, someone in your household were to feel much worse.

If you need help for a mental health crisis, emergency or breakdown, seek immediate advice and assessment. Even during the COVID-19 pandemic, urgent mental health support is available to adults and children around the clock. Find your [local NHS helpline](#) by searching for your postcode or home town in a new service finder.

If you need medical advice

Health and care services remain open to help people with all health conditions, including COVID-19. Most people with COVID-19 will experience a mild illness which can be managed at home. Find out more about [managing the symptoms of COVID-19 at home](#).

All routine medical and dental appointments should be cancelled while you are staying at home. If you are concerned or have been asked to attend in person during this time, discuss this with your medical contact first (for

example, your GP or dentist, local hospital or outpatient service).

Seek prompt medical attention if your illness or the illness of someone in your household is worsening. If it is not an emergency, contact the [NHS 111 online COVID-19 service](#) or NHS 111 for other health conditions. If you have no internet access, call NHS 111.

If it is a medical emergency and you need to call an ambulance, dial 999. Inform the call handler or operator that you or someone in your household has COVID-19 or symptoms if that is the case.

If you are breastfeeding

If you have symptoms of COVID-19, have tested positive or are living in a household with someone who has COVID-19, you may be concerned about the infection spreading to your baby if you are breastfeeding.

The benefits of breastfeeding outweigh any potential risks of transmission of the virus through breast milk or by being in close contact, however, this will be an individual decision. Talk to your midwife, health visitor or GP by telephone.

There is currently no evidence to suggest that the COVID-19 virus can be transmitted through breast milk.

However, COVID-19 infection can be passed on to a baby in the same way as it can to anyone in close contact with you. The current evidence is that children

with COVID-19 get much less severe symptoms than adults. If you or a family member are feeding with formula or expressed milk, sterilise the equipment carefully before each use. You should not share bottles or a breast pump with someone else.

You can find more information from the [Royal College of Obstetricians and Gynaecologists](#).

People with learning disabilities, autism or serious mental illnesses

Not all these measures will be possible if you, or those you live with, have conditions such as learning disabilities, autism or serious mental illnesses. Follow this guidance to the best of your ability, whilst keeping yourself and those close to you safe and well, ideally in line with any existing care plans.

HOW TO TREAT CORONAVIRUS SYMPTOMS AT HOME

TEMPERATURE

✓ **Get lots of rest.**

✓ **Drink plenty of fluids** (water is best) to avoid dehydration - drink enough so your pee is light yellow and clear.

✓ **Take paracetamol or ibuprofen** if you feel uncomfortable.

COUGH

✓ **Lie on your side or sit upright instead.**
Avoid lying on your back.

✓ **Try having a teaspoon of honey** to help ease a cough. But do not give honey to babies under 12 months.

If this does not help, ask a non-isolating friend or family member to seek advice from a pharmacist on your behalf.

BREATHLESS

✓ **Keep your room cool.** Try turning the heating down or opening a window. **DO NOT use a fan as it may spread the virus.**

✓ **Try breathing slowly in through your nose** and out through your mouth, with your lips together.

✓ **Sit upright** in a chair relaxing your shoulders.

✓ **Lean forward slightly** - support yourself by putting your hands on your knees or on something stable like a chair.

Try to stay calm if you're feeling breathless. Anxiety can make it worse.

Call 999 for an ambulance if you or someone you care for:

- are struggling to breathe
- are coughing up blood
- have blue lips or a blue face
- feel cold and sweaty, with pale or blotchy skin
- have a rash that does not fade when you roll a glass over it
- collapse or faint
- become confused or very drowsy
- have stopped peeing or are peeing much less than usual

Tell the operator you might have coronavirus symptoms.

DO NOT GO TO A PHARMACY

If you or someone you live with has coronavirus symptoms, you must all stay at home.

If you're concerned about your symptoms and need medical advice, use the **NHS 111 online coronavirus service.**

GETTING HELP WHILE YOU'RE STAYING AT HOME

The Essex Wellbeing Service can help you while you have to stay at home (self-isolate).

Call 0300 303 9988 8am to 7pm (Mon to Friday), 10am to 2pm (Weekends)

HOW TO LOOK AFTER YOURSELF IF YOU HAVE COVID-19?

It's very important that you stay at home for 10 days if you have symptoms that may be caused by coronavirus (COVID-19), even if you think your symptoms are mild.

There are a few things you can do to take care of yourself at home. Do not go to your GP, pharmacy or hospital.

Treating a fever at home

It's safe to treat most fevers at home. However, you may be at risk of becoming dehydrated.

You should:

- Wear loose, comfortable clothing - don't try to make yourself too cold.
- Drink more fluids – you should be peeing (approximately) every 6 hours.
- Monitor your pee colour – a pale yellow colour means you're unlikely to be dehydrated, whilst darker pee means you should drink more water.
- Take paracetamol if you have a temperature – always follow the manufacturer's instructions.
- Keep your room at a comfortable temperature and make sure fresh air is circulating.

When to get help

You should phone 111 if you develop any of the following symptoms:

- Severe thirst and peeing less.
- Light-headedness or weakness.

- New, severe muscle cramps.

You should also phone 111 if your symptoms worsen or if you notice new symptoms.

Treating a cough at home

It's also safe to treat most coughs at home.

You should:

- Take pain medication such as paracetamol - always follow the manufacturer's instructions.
- Drink enough fluids to keep you hydrated – this is particularly important if you've just woken up.
- Drink warm drinks as they have a soothing effect.

To reduce the risk of spreading to others you should:

- Cover your mouth when you cough or sneeze.
- Wash your hands regularly.
- Dispose of tissues appropriately.
- Sneeze into the crook of your elbow if you don't have a tissue.

When to get help

You should phone 111 if you develop any of the following symptoms:

- Coughing up blood.
- Chest pain.
- Shortness of breath that's new or worsening.

CORONAVIRUS VACCINES

The coronavirus (COVID-19) vaccine is safe and effective. It gives you the best protection against coronavirus.

Who can get the COVID-19 vaccine

The NHS is currently offering the COVID-19 vaccine to people most at risk from coronavirus.

At this time, the vaccine is being offered in some hospitals to:

- some people aged 80 and over who already have a hospital appointment in the next few weeks
- people who work in care homes
- health care workers at high risk

The vaccine will be offered more widely, and at other locations, as soon as possible.

The order in which people will be offered the vaccine is based on advice from the

Suffolk and North East Essex COVID-19 Vaccination Service

Has information on:

- Where you can get the vaccine
- Vaccine eligibility
- Making an appointment
- Attending the appointment

Joint Committee on Vaccination and Immunisation (JCVI).

[Read the latest JCVI advice on priority groups for the COVID-19 vaccination on GOV.UK](#)

The priority list for the first phase is as follows:

- Residents in a care home for older adults and their carers.
- All those aged 80 and over.
- Frontline health and social care workers.
- All those aged 75 and over.
- All those aged 70 and over. Clinically extremely vulnerable individuals.
- All those aged 65 and over.
- All individuals aged 16-64 with underlying health conditions which put them at higher risk of serious disease and mortality.
- All those aged 60 and over.
- All those aged 55 and over.
- All those aged 50 and over.

Please remember that the vaccine is FREE and at no point will money or bank details be asked for. If you have any concerns then please to Citizens Advice Consumer Service on 0808 223 1133.

I am in one of the listed groups, why do I have to wait?

The COVID-19 vaccines will become available as they are approved for use and as each batch is manufactured. So every dose is needed to protect those at highest risk. You will be called in as soon as there is enough vaccine available.

Some people who are housebound or live in a care home and who can't get to a local vaccination centre may have to wait for supply of the right type of vaccine. This is because only some vaccines can be transported between people's homes.

Where you can get the COVID-19 vaccination

Vaccines will be offered in a range of settings. Some vaccination teams will visit people to offer the vaccine, for example in care homes, other people may have to go

to the nearest centre. Because some of the vaccine has to be stored in a very low temperature freezer, you may not be able to get the vaccine in your normal GP surgery.

If the centre you are offered is not easy to get to

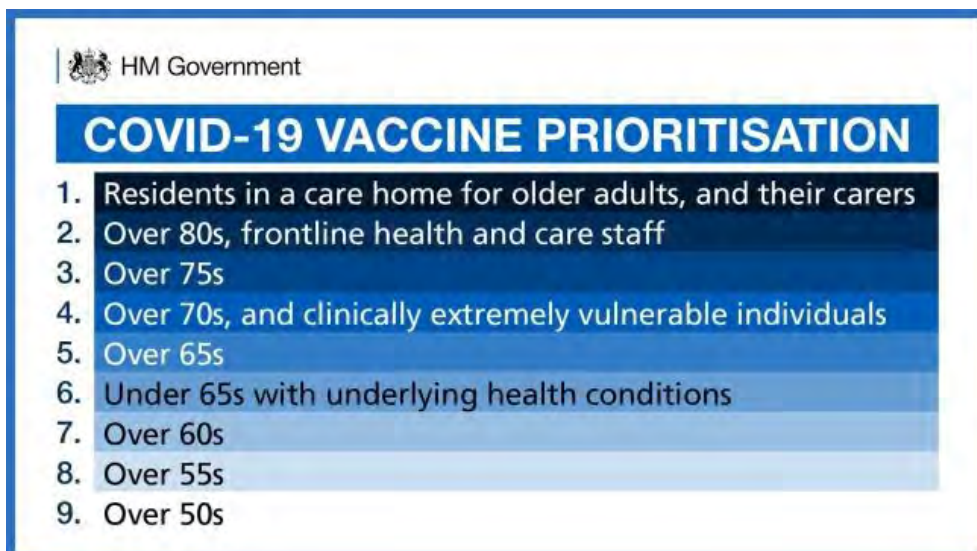

Please try to attend the vaccination centre you are offered. If you cannot attend that centre you may have to wait to get the vaccine in a more convenient location.

Can I pay for a COVID-19 vaccine privately or at a pharmacy?

The COVID-19 vaccination is only available through the NHS to eligible groups and it is a free vaccination.

Do you need the COVID-19 vaccine if you've had the flu vaccine?

The flu vaccine does not protect you from

HM Government

COVID-19 VACCINE PRIORITISATION

1. Residents in a care home for older adults, and their carers
2. Over 80s, frontline health and care staff
3. Over 75s
4. Over 70s, and clinically extremely vulnerable individuals
5. Over 65s
6. Under 65s with underlying health conditions
7. Over 60s
8. Over 55s
9. Over 50s

COVID-19. As you are eligible for both vaccines you should have them both, but normally separated by at least a week.

Advice if you're of childbearing age, pregnant or breastfeeding

There's no evidence the COVID-19 vaccine is unsafe if you're pregnant or breastfeeding. But more evidence is needed before you can be routinely offered the vaccine.

The JCVI has updated its advice to recommend you may be able to have the vaccine if you're:

- pregnant and at high risk of serious complications of coronavirus
- if you're breastfeeding

Speak to a healthcare professional before you have the vaccination. They will discuss the benefits and risks of the COVID-19 vaccine with you.

You do not need to avoid pregnancy after vaccination. The vaccine cannot give you or your baby COVID-19.

[Read the latest COVID-19 vaccine advice if you're pregnant, may get pregnant or are breastfeeding on GOV.UK](#)

How the COVID-19 vaccine is given

The COVID-19 vaccine is given as an injection into your upper arm.

When the 2nd dose will be given

The latest evidence suggests the 1st dose of the COVID-19 vaccine provides protection for most people for up to 3 months.

As a result of this evidence, when you can have the 2nd dose has changed. This is also to make sure as many people can have the vaccine as possible.

The 2nd dose was previously 21 days after having the 1st dose, but has now changed to 12 weeks after. If you:

- have already had your 1st dose and are due to have your 2nd dose before Monday 4 January, keep your appointment
- have already had your 1st dose and are due to have your 2nd dose after Monday 4 January, the NHS will contact you about when you'll have your 2nd dose
- are due to have your 1st dose after Wednesday 30 December, you'll be given your 2nd dose 12 weeks later

What to do if you are not well for your next appointment

If you are unwell, it is better to wait until you have recovered to have your vaccine, but you should try to have it as soon as possible. You should not attend a vaccine appointment if you are self-isolating, waiting for a COVID-19 test or unsure if you are fit and well.

How safe is the COVID-19 vaccine?

The vaccines approved for use in the UK have been developed by Pfizer/BioNTech and Oxford/AstraZeneca.

They have met strict standards of safety, quality and effectiveness set out by the independent Medicines and Healthcare products Regulatory Agency (MHRA).

Any coronavirus vaccine that is approved must go through all the clinical trials and safety checks all other licensed medicines go through. The MHRA follows international standards of safety.

Other vaccines are being developed. They will only be available on the NHS once they have been thoroughly tested to make sure they are safe and effective.

So far, thousands of people have been given a COVID-19 vaccine and reports of serious side effects, such as allergic reactions, have been very rare. No long-term complications have been reported.

[Read about the approved Pfizer/BioNTech vaccine for COVID-19 by MHRA on GOV.UK](#)

[Read about the approved Oxford/](#)

[AstraZeneca vaccine for COVID-19 by MHRA on GOV.UK](#)

Will the vaccine protect you? ?

The COVID-19 vaccine that you have had has been shown to reduce the chance of you suffering from COVID-19 disease. Each vaccine has been tested in more than 20,000 people in several different countries and shown to be safe.

It may take a week or two for your body to build up some protection from the first dose of vaccine. Like all medicines, no vaccine is completely effective, so you should continue to take recommended precautions to avoid infection. Some people may still get COVID-19 despite having a vaccination, but this should be less severe.

This means it is important to:

- continue to follow [social distancing guidance](#)
- if you can, wear something that covers your nose and mouth in places where it's hard to stay away from other people

COVID-19 vaccine side effects

Most side effects are mild and should not last longer than a week, such as:

- a sore arm where the needle went in
- feeling tired
- a headache
- feeling achy

You can take painkillers, such as

paracetamol, if you need to.

If you have a high temperature you may have coronavirus or another infection.

If your symptoms get worse or you are worried, call 111.

Allergic reactions

Tell staff before you are vaccinated if you have ever had a serious allergic reaction (anaphylaxis).

You should not have the vaccine if you've ever had a serious allergic reaction to a previous vaccine.

If you do have a reaction to the vaccine, it

usually happens in minutes. Staff giving the vaccine are trained to deal with allergic reactions and treat them immediately.

Can you give COVID-19 to anyone if you have had the vaccine?

The vaccine cannot give you COVID-19 infection, and a full course will reduce your chance of becoming seriously ill. We do not yet know whether it will stop you from catching and passing on the virus, but we do expect it to reduce this risk. So, it is still important to follow the guidance in your local area to protect those around you.

To protect yourself and your family, friends and colleagues you still need to:

- practice social distancing
- wear a face mask
- wash your hands carefully and frequently
- follow the [current guidance](#)

CORONAVIRUS VACCINE— SCAMS

Criminals are exploiting the current situation to attempt to steal personal details and your money.

The NHS is currently offering the COVID-19 vaccine to people most at risk from coronavirus. These people will be contacted by the NHS.

NO PAYMENT IS REQUIRED FOR THE VACCINE.

There has been a surge worldwide of vaccine related phishing email scams. We expect to see an increase in these.

Phishing emails seen have contained malicious files that installed malware, or links to bogus websites to obtain the victim's information.

Protect yourself from vaccine-themed phishing campaigns by checking the email addresses on incoming messages and be alert to hyperlinks that contain misspelled domain names; be aware of highly emotive language designed to manipulate you; do not supply login credentials or personal information in response to an email; monitor key financial accounts regularly; and keep software and apps updated.

Report all scams Citizens Advice Consumer Service on 0808 223 1133.

- The NHS will never ask you for your bank account or card details.
- The NHS will never ask you for your PIN or banking password.
- The NHS will never arrive unannounced at your home to administer the vaccine.
- The NHS will never ask you to prove your identity by sending copies of personal documents such as your passport, driving licence, bills or pay slips.

COVID-19 VACCINE FACT CHECK

The COVID-19 vaccine will always be available free of charge.

The NHS will never ask you to share bank details to confirm your identity.

There is a texting scam leaflet you can [download here](#)

COVID-19 VACCINE INGREDIENTS

Pfizer/BioNTech COVID-19 vaccine.

There are no preservatives, including alcohol in the vaccine. The vaccine is also gelatin free and doesn't use animal tissues in its production.

- The active substance is BNT162b2 RNA.

After dilution, the vial contains 5 doses, of 0.3 mL with 30 micrograms mRNA each.

- This vaccine contains polyethylene glycol/macrogol (PEG) as part of ALC-0159
- The other ingredients are:
 - ALC-0315 = (4-hydroxybutyl)azanediyl)bis(hexane-6,1-diyl)bis(2-hexyldecanoate)
 - ALC-0159 = 2[(polyethylene glycol)-2000]-N,N-ditetradecylacetamide
 - 1,2-Distearoyl-sn-glycero-3-phosphocholine
 - cholesterol
 - potassium chloride
 - potassium dihydrogen phosphate
 - sodium chloride
 - disodium hydrogen phosphate dihydrate
 - Sucrose

The COVID-19 Vaccine AstraZeneca

Is produced in genetically modified human embryonic kidney (HEK) 293 cells and contains genetically modified organisms (GMOs). It also includes alcohol

The other ingredients are:

- L-histidine
- L-histidine hydrochloride monohydrate
- magnesium chloride hexahydrate
- polysorbate 80
- ethanol
- sucrose
- sodium chloride
- disodium edetate dihydrate
- water for injections

CORONAVIRUS VACCINE— MYTH BUSTERS

We are all being exposed to a huge amount of COVID-19 information on a daily basis, and not all of it is reliable

Myth: COVID 19 vaccines will give you COVID 19

Fact: You cannot get COVID 19 from the vaccine. The Pfizer and Moderna vaccines do not carry any live or dead virus in it.

Myth: If you have already had COVID 19, you don't need the vaccine.

Fact: Due to the severe health risks associated with COVID-19 and the fact that re-infection with COVID-19 is possible, people may be advised to get a COVID-19 vaccine even if they have been sick with COVID-19 before. At this time, experts do not know how long

someone is protected from COVID-19 after being sick. The immunity someone gains from having an infection, called natural immunity, varies from person to person. Some early evidence suggests natural immunity may not last very long. GW Infectious Disease clinicians are estimating that natural immunity may last only four months.

Myth: The vaccine was developed really fast so they 'cut corners' to get it done and it may not be safe.

Fact: mRNA vaccines have been studied for five years so while the technology is still relatively new, it was not invented for this pandemic. In addition, the vaccines have undergone large clinical trials and have been vetted by multiple regulatory and government

Top tips for navigating the infodemic

1. Assess the source:

Who shared the information with you and where did they get it from? Even if it is friends or family, you still need to vet their source.

2. Go beyond headlines:

Headlines may be intentionally sensational or provocative.

3. Identify the author:

Search the author's name online to see if they are real or credible.

4. Check the date:

Is it up to date and relevant to current events? Has a headline, image or statistic been used out of context?

5. Examine the supporting evidence:

Credible stories back up their claims with facts.

6. Check your biases:

Think about whether your own biases could affect your judgment on what is or is not trustworthy.

7. Turn to fact-checkers:

Consult trusted fact-checking organizations, such as the International Fact-Checking Network and global news outlets focused on debunking misinformation.

agencies that have shown these to be both safe and highly effective.

Myth: The side effects of the vaccine are really bad.

Fact: The most common side effects from this vaccine have included fatigue, muscle pains, joint pains, headaches, pain and redness at the injection site. These symptoms were more common after the second dose of the vaccine and the majority of side effects were mild.

Myth: Receiving an mRNA vaccine (the type of vaccine used by Pfizer and Moderna) will alter your DNA.

Fact: mRNA stands for messenger ribonucleic acid and can most easily be described as instructions for how to make a protein or even just a piece of a protein. mRNA is not able to alter or modify a person's genetic makeup (DNA). The mRNA from a COVID-19 vaccine never enter the nucleus of the cell, which is where our DNA are kept. This means the mRNA does not affect or interact with our DNA in any way.

Instead, COVID-19 vaccines that use mRNA work with the body's natural defences to safely develop protection (immunity) to disease. - it simply tells your body how to create a protein that is found on the surface of the Coronavirus. Your own immune system is then able to recognise and produce antibodies against that protein, which means you

are ready to fight off a Covid-19 infection.

Myth: The flu vaccine can help protect against COVID 19.

Fact: Getting a flu shot will not protect you against coronavirus. These are two different vaccinations.

Myth: Vaccines contain toxic ingredients

Fact: Any substance, even water, can be toxic in large doses. The gelatin and egg proteins in some flu vaccines can cause allergic reactions in very rare cases. Those affected typically have a history of severe allergies to gelatin or eggs. If you have severe allergies, tell the nurse before your vaccine or talk to your doctor.

Myth: Natural immunity is healthier and more effective than vaccine immunity

Fact: Vaccines allow you to build immunity without the damaging effects that vaccine-preventable diseases can have. These diseases can cause serious health problems and even be life-threatening. These effects can be avoided by simply getting vaccinated. Re-infection with Covid is possible and we cannot predict who will get severe disease.

We do know that the new vaccine protects around 90% of people so the safest option is to have it. We also know that Covid infection causes long term

problems (labelled as 'Long Covid') in many young previously healthy patients. In addition if you catch Covid you are likely to infect many others - some of whom might become ill, infect others, have Long Covid - or at worst die.

Myth: Vaccines cause autism

Fact: Vaccines do not cause autism. This incorrect claim stems from a study that has been discredited. Unfortunately, this flawed study has created much misinformation.

Myth: Vaccines have microchips and are used to microchip people .

Fact: This is entirely false and is not possible. This is a myth that stemmed from misinformation on the internet.

Myth: I will be forced to take the vaccine and that infringes my human rights.

Fact: You will not be forced to take the vaccine, it is a choice. But if you choose to take the vaccine you will be protecting both yourself and the vulnerable.

Myth: The vaccines are pointless unless everyone takes them.

Fact: If you are vaccinated you will be protected regardless of who else is vaccinated. But the more people who are vaccinated the better because this will protect babies and other vulnerable groups who can't be vaccinated themselves.

Myth: The coronavirus disease (COVID -19) is caused by a bacteria, NOT by a virus

Fact: The virus that causes COVID-19 is in a family of viruses called Coronaviridae. Antibiotics do not work against viruses.

Some people who become ill with COVID-19 can also develop a bacterial infection as a complication. In this case, antibiotics may be recommended by a health care provider.

There is currently no licensed medication to cure COVID-19. If you have symptoms, call your health care provider or COVID-19 hotline for assistance.

Myth: The prolonged use of medical masks* when properly worn, causes CO2 intoxication or oxygen deficiency.

Fact: The prolonged use of medical masks can be uncomfortable. However, it does not lead to CO2 intoxication nor oxygen deficiency. While wearing a medical mask, make sure it fits properly and that it is tight enough to allow you to breathe normally. Do not re-use a disposable mask and always change it as soon as it gets damp.

Medical masks (also known as surgical masks) are flat or pleated; they are affixed to the head with straps or have ear loops.

Myth: Drinking alcohol protects you against COVID-19.

Alcohol does not protect you against

COVID-19. The harmful use of alcohol increases your risk of health problems.

Myth: Adding pepper to your soup or other meals prevents or cures COVID-19.

Fact: Hot peppers in your food, though very tasty, cannot prevent or cure COVID-19. The best way to protect yourself against the new coronavirus is to keep at least 2 metres away from others and to wash your hands frequently and thoroughly. It is also beneficial for your general health to maintain a balanced diet, stay well hydrated, exercise regularly and sleep well.

Myth: 5G mobile networks spread COVID-19.

Fact: Viruses cannot travel on radio waves/mobile networks. COVID-19 is spreading in many countries that do not have 5G mobile networks.

COVID-19 is spread through respiratory droplets when an infected person coughs, sneezes or speaks. People can also be infected by touching a contaminated surface and then their eyes, mouth or nose.

Myth: Only old people can be infected by the COVID-19 virus

Fact: Older people and younger people can be infected by the COVID-19 virus. Older people, and people with pre-existing medical conditions such as asthma, diabetes, and heart disease appear to be more vulnerable to

becoming severely ill with the virus.

WHO advises people of all ages to take steps to protect themselves from the virus, for example by following good hand hygiene and good respiratory hygiene.

Myth: Antibiotics can prevent or treat COVID-19.

Antibiotics work only against bacteria, not viruses.

COVID-19 is caused by a virus, and therefore antibiotics should not be used for prevention or treatment.

However, if you are hospitalized for COVID-19, you may receive antibiotics because bacterial co-infection is possible.

What we must all continue to do to keep safe - translated.

Stick With It Suffolk is a campaign highlighting what we must all continue doing, to keep each other safe and to defeat the coronavirus. This information is available in the following languages. Arabic, French, Kurdish, Lithuanian, Polish, Portuguese, Pashto, Romanian, Russian, Spanish, Tigrinya.

Wearing a face covering in 11 languages.

Suffolk County Council have produced translated guidance on wearing face coverings in 11 languages: Arabic, French, Kurdish (Sorani), Lithuanian, Pashto,

Polish, Portuguese, Romanian, Russian, Spanish, Tigrinya.

Quarantine rules for travel, explained in Arabic.

Domestic abuse: get help during the coronavirus (COVID-19) outbreak.

Translated and easy read versions of guidance on getting help if you or someone you know is a victim of domestic abuse.

Access support for domestic abuse during COVID: simple advice translated.

Migration Yorkshire has produced simple information on how to access domestic abuse services for people who feel unsafe in their home during covid-19

Information is available in Albanian, Amharic, Arabic, Bosnian, English, Farsi, French, Hungarian Italian, Kurdish Sorani, Lithuanian, Mandarin, Polish, Romanian, Spanish, Tigrinya - with more languages to come.

Test and Trace videos in 14 languages - Peterborough Council.

These videos have been produced by Peterborough City Council and contain references to local provision, but maybe useful to share with communities with local information to help get the basics of Test and Trace.

Modern slavery and C19: What to look out for and how to get help - translated into 11 languages.

Translated guidance on Modern Slavery. English, Arabic, Amharic, Kurdish, Farsi, Albanian,

Hungarian, Polish, Romanian, Spanish, Urdu, Mandarin.

Resources and links in South Asian languages providing advice during the coronavirus pandemic.

Gypsy, Roma Travellers. Guidance for people who live on Traveller sites, live on the roadside in vehicles or live on canal boats who have symptoms of coronavirus.

Stay well this winter - the national flu campaign. Download or order resources, such as leaflets, posters, guides and resource packs for all campaigns

Flu vaccination for children: leaflets and posters. Information and promotional resources to support the annual flu vaccination programme.

Public Health England has also produced a leaflet about the use of porcine gelatine in vaccinations. Translated versions are also available.

OM COVID-19 Migrant Information Service. The International Organization for Migration (IOM) has set up the COVID -19 Migrant Information Service, an online platform that provides multilingual information on COVID-19 measures and support in the UK context. The aim is to provide information to migrants living in the UK about Coronavirus (COVID-19) and the various ways the virus and the associated government responses could affect their lives.

The information service includes:

- a multilingual website available in eight languages with information on health; and
- a telephone service providing information to callers in any language from 10:00-12:00 and 14:00-16:00 Monday to Friday:**0800 464 3380**.

Race Equality Foundation: A national resource of written and audio translated materials of the guidance on coronavirus and other information to support those with dementia, their families and carers.

The materials have been translated into the following languages: Arabic, Bengali, Chinese, Gujarati, Kurdish, Punjabi, Portuguese, Polish, Somali, and Urdu.

Hate Crime Leaflets in 6 different languages Essex Police have released 6 new hate crime leaflets in 6 different languages.

EMPLOYMENT, FINANCIAL SUPPORT

IF YOUR EMPLOYER HAS LESS OR NO WORK FOR YOU BECAUSE OF CORONAVIRUS (YOU'VE BEEN PUT ON FURLOUGH)

If your employer has less or no work for you because of coronavirus, they could get a [Coronavirus Job Retention Scheme](#) grant to help them to carry on paying you.

This is known as being put 'on furlough' or 'on flexible furlough', and means that you'll get at least 80% of your normal pay.

If your income is reduced because of these changes, you might be able to get regular payments to help.

[Check what regular payments you could get.](#)

REGULAR PAYMENTS IF YOUR WORKPLACE IS CLOSED OR YOU HAVE REDUCED HOURS

If your workplace has been told to close, or your employer has less work for you than normal, you might be able to get

New Style Jobseeker's Allowance (JSA), Universal Credit or Pension Credit.

New Style Jobseeker's Allowance (JSA)

You could get New Style JSA if:

- you usually work less than 16 hours a week
- you're under State Pension age
- you have made enough National Insurance contributions over the last 2 to 3 years

Your savings and partner's income will not affect how much you get. You might be able to get New Style JSA at the same time as Universal Credit.

[Find out more or apply for New Style JSA.](#)

Universal Credit

You could get Universal Credit if:

- you have less than £16,000 in savings
- you or your partner is under State Pension age

If you're already getting tax credits, they will stop when you or your partner applies for Universal Credit.

You might be able to get Universal Credit at the same time as New Style JSA. Depending on your circumstances, Universal Credit can include additional amounts for things like rent or the costs of raising children.

[Find out more or apply for Universal Credit.](#)

Pension Credit

You could get Pension Credit if:

- you and your partner have both reached State Pension age
- your weekly income is below £173.75 (for single people) or £265.20 (for couples)

You might still be able to get it even if you have savings, have a pension or own your home.

[Find out more or apply for Pension Credit.](#)

IF YOU'RE OFF WORK BECAUSE YOU HAVE CORONAVIRUS SYMPTOMS, OR ARE SELF-ISOLATING OR SHIELDING

Tell your employer if you have [coronavirus symptoms](#), or are [self-isolating](#) or [shielding](#).

If you cannot work from home

You should work from home if you can. If you cannot work from home, you might be able to get:

- Test and Trace Support Payment
- Statutory Sick Pay (SSP)
- New Style Employment and Support Allowance (ESA)
- Universal Credit
- Pension Credit

Test and Trace Support Payment

Your local council might be able to give you £500 if:

- you've been told to self-isolate
- you live in England
- you're on a low income
- you cannot work from home and will lose income as a result

[For more information and to apply click here.](#)

Statutory Sick Pay (SSP)

You may be able to get Statutory Sick Pay (SSP) from your employer for every day of work you miss because of coronavirus. If you're off work for 7 or more days, your employer may ask you to provide proof that you are self-isolating because of coronavirus.

You may be able to get Universal Credit

The poster features the HM Government logo and the NHS logo in the top left and right corners respectively. The main title 'SUPPORT THROUGH SELF-ISOLATION' is written in large, bold, green capital letters. Below the title, there are three lines of text: 'Those on lower incomes', 'Who cannot work from home', and 'And stand to lose income as a result of self-isolation'. At the bottom, a green box contains the text 'MAY BE ELIGIBLE FOR A £500 SUPPORT PAYMENT' in bold black capital letters.

or Pension Credit at the same time as SSP. The amount you get may be reduced by the amount of your SSP.

[Check if you're eligible for SSP.](#)

New Style Employment and Support Allowance (ESA)

You might be able to get New Style ESA if either:

- you have a disability or health condition that affects how much you can work
- you or your child has coronavirus, is self-isolating or is shielding

You can apply for it if:

- you cannot get SSP
- you're under State Pension age
- you have made enough National Insurance contributions over the last 2 to 3 years
- you're employed, self-employed or unemployed

Your savings and partner's income will not affect how much you get. You might be able to get Universal Credit at the same time as New Style ESA.

[Find out more or apply for New Style ESA.](#)

Universal Credit

You could get Universal Credit if:

- you have less than £16,000 in savings
- you or your partner is under State

Pension age

If you're already getting tax credits, they will stop when you or your partner applies for Universal Credit.

You might be able to get Universal Credit at the same time as SSP or New Style ESA. Depending on your circumstances, Universal Credit can include additional amounts for things like rent or the costs of raising children.

[Find out more or apply for Universal Credit.](#)

Pension Credit

You could get Pension Credit if:

- you and your partner have both reached State Pension age
- your weekly income is below £173.75 (for single people) or £265.20 (for couples)

You might still be able to get it even if you have savings, have a pension or own your home. You can get Pension Credit at the same time as SSP.

[Find out more or apply for Pension Credit.](#)

COLCHESTER FOOD BANK

List of Colchester Foodbank Referral Agents.

Please be aware that this list is changing daily. Please contact the Foodbank Referral Agent from the list and you will be given further information on obtaining a Foodbank Voucher.

Colchester Food Bank

E: info@colchester.foodbank.org.uk

T: 01206 621998

Greenstead Foodbank

Open Tuesdays and Thursdays 10am—12 noon

Stanway Foodbank

St Andrews Hall, Corner of Church Lane, London Rd, Stanway, CO3 8LR. Open every Tuesday 11am—1pm

FOODBANK VOUCHERS

The process for obtaining a food voucher is:

Residents contact a referral agency, who will then take some basic details to complete the voucher application. This will help to identify the cause of the crisis and offer practical guidance. It also means they can prepare suitable emergency food for the right number of people.

Once someone has been issued with a voucher, they can exchange this for three days of emergency food at their nearest foodbank centre.

Find food support and advice

There is a wide range of support in Colchester. Businesses and organisations are offering free meals, as well as activities for children during school holidays. <https://www.colchester.gov.uk/food-support/>

SUPPORT FOR FAMILIES WITH CHILDREN

Free school meals assistance during school closures.

Parents and carers of eligible children will need to contact their child's school in the first instance to discuss how they can access Free School Meals assistance during the current national lockdown and school closures. If you need to confirm your child's eligibility for Free School Meals, please read the information [here](#).

Essex Child and Family Wellbeing Service

Have produced a COVID-19 Pandemic Resource Hub which includes guidance and information on:

- Talking with your children about COVID-19.
- Emotional and physical wellbeing - keeping positive.
- Support for young people.
- Home schooling.
- Relationships at home.
- Safeguarding yourself and others.
- Dealing with a very young baby.
- Home safety tips.
- Families with children with SEND.
- Financial welfare.

Click here to enter [the hub](#)

The Parenting Together Support Programme

The Parenting Together Support

Programme can help you if you feel that stress and conflict is affecting your family. The programme offers parents support to suit their circumstances to address conflict within their relationship, as well as strengthening their parenting skills to bring up their children.

GOV.UK - What parents and carers need to know about early years providers, schools and colleges in the autumn term.

Colchester Gateway Club Update

People with learning disabilities and their carers/families can join in activities on the [Facebook page](#).

Families of children with autism and learning disabilities have forced the UK government into a U-turn over its limit on outdoor exercise.

Digital Safety and Wellbeing Kit

With the help of the leading privacy law firm Schillings, the Children's Commissioner have produced this digital guide for parents and a safety guide for children to help ensure they are safe, and their wellbeing is looked after while at home during the coronavirus outbreak when screen time maybe higher than usual.

StarLine YouTube channel

As well as supporting parents and carers via the telephone helpline, StarLine will also be broadcasting a weekly discussion programme to explore aspects of

parenting, education and home learning. Each episode will provide simple and engaging ideas for home learning. StarLive will be broadcast live on YouTube every Wednesday morning at 08.30 and will finish at 9.30am.

Family Innovation Fund-Xtra Services

Provided by the voluntary sector and community partners to provide early support across key areas including understanding coronavirus; managing and coping with change; separation and loss; managing and coping with anxiety; healthy family relationships and staying active and curious.

The services are available to children and young people aged between 0 and 19-years (up to 25-years for young people with Special Educational Needs and/or Disabilities) and are aimed at helping young people and families who are not already receiving specialist or statutory support.

They can be accessed directly by families, through referral from a professional such as a teacher, via the **Getting Help in Essex Directory** or by calling one of the organisations themselves.

ECC Every Family Matters

A dedicated campaign aimed at supporting and reassuring parents, carers, children and young people in Essex during the coronavirus outbreak. They will be signposting relevant guidance and resources on the ECC

website across three key areas – children’s mental health and wellbeing, young people and social distancing as well as online safety, using their own and shared channels.

To support all parents at this difficult time, the government launched a series of measures for families to assist with remote education, wellbeing and general support. The guidance can be found in the links opposite alongside a whole list of on- line resources for you to use. If your child/children has SEND need, support can also be found in these resources.

- Support with housing concerns.
- Benefit advice.
- Foodbank vouchers including collection and delivery of food where needed.
- Grant applications to help you with items you need but cannot currently afford.
- Group support for parents or children to build skills.
- Healthy eating.
- School readiness and play opportunities, help with education.
- Family events.
- Children workshops for children 5 – 11 years.
- Holiday fund.
- Home-Start have been able to purchase essential family items and delivering free much needed items such as nappies, wipes, food and crafts.

CHILDCARE BUBBLES

A childcare bubble is where one household links with one other household to provide informal childcare to anyone under 14. All adults in both households must agree to this arrangement. 'Informal' childcare means it is unpaid and unregistered.

Members of either household can provide childcare in a home or public place. This includes overnight care.

You can only have one childcare bubble with one other household. This means no household should be part of more than one childcare bubble.

If you form a childcare bubble, it's best if this is with a household who live locally. This will help prevent the virus spreading from an area where more people are infected.

How childcare bubbles relate to other types of bubble

A childcare bubble is different to a support bubble and a Christmas bubble. Being in a childcare bubble does not stop you from forming a support bubble.

Support bubble

You might be able to form a support bubble to have close contact with another household. You have to meet certain eligibility rules to form a support

bubble. Find out more about [making a support bubble with another household](#).

You must avoid seeing members of your childcare and support bubbles at the same time, unless otherwise permitted by gatherings limits in your tier.

Changing a childcare bubble

From 2 December you may change your childcare bubble provided that:

- at least one person in the proposed new childcare bubble is under the age of 14
- neither household is part of a separate childcare bubble which they intend to remain a part of

If you decide to change your childcare bubble, you should treat your previous bubble as a separate household for 10 days before forming a new bubble. This means following the rules on meeting people from other households in the tier you are in. You should not provide childcare as if you are in a bubble during this period.

If someone in your previous childcare bubble develops symptoms or tests positive for coronavirus up to 48 hours after members of the bubble last met, all members of the bubble must [self-isolate for 10 days](#). You must not form a new bubble until you have completed your self-isolation.

You can only use a childcare bubble for childcare. You cannot use a childcare bubble to mix with another household for other reasons.

Children turning 14

The childcare bubble only continues while there is anyone aged under 14 within that bubble.

Once everyone in a household is aged 14 or above, the childcare bubble arrangement must stop.

If your child lives in more than one location

You can mix indoors where necessary with the other parent to allow your child to move between homes.

A child moving between 2 parents who live separately is not counted as a childcare bubble. This means both you and the other parent can also form a childcare bubble with one other household.

If someone in your childcare bubble develops coronavirus symptoms or tests positive

If anyone in your childcare bubble develops symptoms or tests positive for coronavirus, follow the stay at home guidance.

If you share custody of your child, and you and your child's other parent are in separate childcare bubbles, members of both bubbles should stay at home if someone in either household develops symptoms or tests positive for coronavirus.

This is critical to controlling the virus, as it will help to stop it spreading across multiple households.

If NHS Test and Trace contacts you or someone in your childcare bubble, you must follow their guidance.

If you're clinically extremely vulnerable

If you're clinically extremely vulnerable, you should reduce social contacts as much as possible. You will minimise your risk of infection if you limit all your contacts, particularly with people that you do not live with.

However, if you feel it is essential, you can maintain an existing childcare bubble, or form a new one as per the guidance on changing your bubble. This is a personal choice and should be balanced against the increased risk of infection.

Those defined, on medical grounds, as clinically extremely vulnerable to coronavirus are people with specific serious health conditions.

Other forms of childcare support

In addition to childcare bubbles, the following people can provide childcare support (including in private homes and gardens):

- registered childcare providers
- providers of other supervised activities for children, including wraparound care and children's groups
- paid in-home childcare providers
- people in your support bubble

Guidance on working safely in other people's homes is available.

Early years settings and childminders remain open, and you can continue to use these settings as normal. Nannies are able to work in your home or any other setting.

You can also get informal help with childcare from people who do not live with you, and are not part of your support or childcare bubble, so long as you follow the rules on meeting other people which apply in your area.

SUPPORT FOR OLDER PEOPLE

Age Concern Colchester. Support includes befriending, the advice service, care in the community, bereavement befriending and dedicated dementia support. For more information, contact us at: 01206 368420 option 3 or befriending@ageconcerncolchester.org.uk

The Warm and Toasty Club. is a unique life-affirming intergenerational community group working in music, arts and history with people over 60 and in supporting young emerging music artists. A good way to see their latest work is via their [Facebook page](#). They hold online Memory Afternoons which are live on Facebook every Friday at 1pm. Do join them for chat, live music and general fun and frolics.

The Silver Line is the only confidential, free helpline for older people across the UK, open every day and night of the year. You may call for a chat, to say Good Night or Good Morning to someone, or to tell someone how your day was. You may also call for information, seek advice about something, or share a concern or worry. Call: 0800 470 8090. Email: info@thesilverline.org.uk

Essex Befriends. Whether you are feeling lonely, isolated, stopped doing things you once loved or generally lack in confidence, Essex Befriends is here to help. It offers befriending services to people over 18 and who are carers, older people, those experiencing mental ill health or who have a learning disability.

They are currently making most of their contacts by phone, video call, e-mail or text. Where appropriate and safe, Befrienders can also meet the person they are Befriending in outside spaces.

If volunteering as a Befriender is of interest to you please apply via the Essex Befriends website. Call: 0300 770 1263 Email: essexbefriends@affc.org.uk

STAY SAFE, WELL, WARM AND CONNECTED.

ONE Colchester's 2020/21 Winter Resilience Information Booklet and Flyer is now ready to download. Your guide to organisations providing services which help those in Colchester who are most vulnerable to the cold this winter. Stay Safe, Well, Warm and Connected this Winter. [Read more here and to download the brochure](#)

Keep your home warm

Follow these tips to keep you and your family warm and well at home:

Make sure your boiler has been serviced. This will ensure it is working properly, is safe and running efficiently as possible

Don't block up air vents, as fires and heaters need ventilation. Good ventilation also helps to prevent condensation

Make sure radiators are not obstructed by furniture or curtains

Keep your main living room heated at approx. 21°C (70F) and the rest of your home at least 18°C (65F)

Purchase a carbon monoxide detector if you use gas or oil appliances and test your smoke alarms every week. To arrange a free home fire safety visit call: 0300 303 0088 or visit: www.essex-fire.gov.uk/Home_Fire_Safety/

Stay connected

Community360's Community Transport scheme provides a door to door service to and from doctor, dental & hospital appointments, medical centres, shopping centres, and encourages visits to therapy, friends and relatives. In addition, we offer a range of hugely popular excursions offering the opportunity for members to meet new people, enjoy good health and wellbeing and reduce social isolation. For more information email ct@community360.org.uk

The Digital Access Support Team offer a

free digital support service that helps you gain basic skills and confidence using today's smart technology. They host community-based events, including drop-in sessions as well as one to ones. You can also find them supporting your online needs at local surgeries.

For more information on what we do click on one of the options below to find out more or contact us on 01206 282 452 / 01255 686497 or digital.accesssupport@colchester.gov.uk.

Age UK Essex, Their weekly telephone calls are the perfect opportunity to relax in your own home and have a good catch up over a cup of tea with one of their befrienders. This service is free of charge so please call on 01268 525353

Singing online Golden-Oldies members of the 24 Essex monthly groups can now access free online sing-along sessions every Tuesday and Thursday at 11am on You Tube. Further details from 01761 470006.

Independent Age. There are a number of ways they can support you. For instance you can call the Helpline to talk about how they can help, or to arrange a call with one of their expert advisers. You can also arrange to receive a regular phone call or visit from one of their volunteers. Helpline 08003196789

The Dance Network Association The Dance Network Association CIC (DNA) is a dance organisation that is dedicated to

delivering dance in the community to increase the health and wellbeing of the people it serves in the East of England. To access their 'Dancing Through.... (Lockdown with DNA) season including Dancing with Parkinson's, Take a seat lets Dance, and Dancing with Dementia. All sessions are via zoom and free. info@dancenetworkassociation.org.uk 07490 37 47 17

Colchester Arts Centre— Dial a Poem Service. Offering a phone call, a poem and a chat to people who may be lonely. Telephone 07814695598

Arthritis Action: UK charity offering hands-on, practical help for people with arthritis to improve their quality of life whilst living with the condition. We offer our Members healthy eating advice, clinical appointments, exercise tips and pain management techniques whether or not they are having medical treatment. We also hold Arthritis Action Groups both face to face, and online to help those living with arthritis share tips, tricks, and experiences with one another. Phone: 0203 781 7120 Email: info@arthritisation.org.uk Website: www.arthritisation.org.uk

Those students who are undertaking training and study for the following courses should return to face to face learning as planned and be tested twice, upon arrival or self-isolate for ten days:

- Medicine & dentistry
- Subjects allied to medicine/health
- Veterinary science
- Education (initial teacher training)
- Social work
- Courses which require Professional, Statutory and Regulatory Body (PSRB) assessments and or mandatory activity which is scheduled for January and which cannot be rescheduled (your university will notify you if this applies to you).

Students who do not study these courses should remain where they are wherever possible, and start their term online, as facilitated by their university until at least Mid-February. This includes students on other practical courses not on the list above.

The government have previously published [guidance to universities and students on how students can return safely to higher education in the spring term](#). This guidance sets out how they will support higher education providers to enable students that need to return to do so as safely as possible following the winter break.

If you live at university, you should not move back and forth between your permanent home and student home during term time.

For those students who are eligible for face to face teaching, you can meet in groups of more than your household as part of your formal education or training, where necessary. Students should expect to follow the guidance and restrictions. You should socially distance from anyone you do not live with wherever possible.

The Council is waiting for guidance from Central Government on how to distribute new business support. For the latest information on Government and local financial support visit www.colchester.gov.uk/coronavirus/businesses.

Colchester Borough Council's website has a [dedicated business page](#), which has links to all the latest information, guidance and advice on crucial business themes. new information is being added all the time. You can also follow @yourcolchester and @ colchbusiness on Twitter too.

The Government have announced a further £4.6 billion in new lockdown grants for businesses.

- One-off top up grants for retail, hospitality and leisure businesses worth up to £9,000 per property to help businesses through to the Spring.
- £594 million discretionary fund also made available to support other impacted businesses.
- Comes in addition to £1.1 billion further discretionary grant funding for Local Authorities, Local Restriction Support Grants worth up to £3,000 a month and extension of furlough scheme

The new one-off grants come in addition to billions of existing business support,

including grants worth up to £3,000 for closed businesses, and up to £2,100 per month for impacted businesses once they reopen.

The government has also provided 100% business rates relief for retail, hospitality and leisure businesses, £1.1 billion existing discretionary funding for Local Authorities, the furlough scheme now extended to April and 100% government backed loans, extended until March.

Further information

The one-off top-ups will be granted to closed businesses as follows:

- £4,000 for businesses with a rateable value of £15,000 or under
- £6,000 for businesses with a rateable value between £15,000 and £51,000
- £9,000 for businesses with a rateable

value of over £51,000

WHAT DOES LOCKDOWN MEAN FOR BUSINESSES

Businesses and venues which must close

To reduce social contact, the regulations require some businesses to close and impose restrictions on how some businesses provide goods and services. The full list of businesses required to close can be found in [the guidance on closing certain businesses and venues in England](#), but includes:

- Non-essential retail, such as clothing and homeware stores, vehicle showrooms (other than for rental), betting shops, tailors, tobacco and vape shops, electronic goods and mobile phone shops, auction houses (except for auctions of livestock or agricultural equipment) and market stalls selling non-essential goods. These venues can continue to operate click-and-collect (where goods are pre-ordered and collected off the premises) and delivery services.
- Hospitality venues such as cafes, restaurants, pubs, bars and social clubs; with the exception of providing food and non-alcoholic drinks for

takeaway (until 11pm), click-and-collect and drive-through. All food and drink (including alcohol) can continue to be provided by delivery.

- Accommodation such as hotels, hostels, guest houses and campsites, except for specific circumstances, such as where these act as someone's main residence, where the person cannot return home, for providing accommodation or support to the homeless, or where it is essential to stay there for work purposes.
- Leisure and sports facilities such as leisure centres and gyms, swimming pools, sports courts, fitness and dance studios, riding arenas at riding centres, climbing walls, and golf courses.
- Entertainment venues such as theatres, concert halls, cinemas, museums and galleries, casinos, amusement arcades, bingo halls, bowling alleys, skating rinks, go-karting venues, indoor play and soft play centres and areas (including

The Bounce Back Loan scheme enables smaller businesses to access finance more quickly during the coronavirus outbreak. New options are available to top up existing loans, extend the loan period, make interest-only repayments or pause repayments.

The scheme is open to applications until **31 January 2021**. If you already have a Bounce Back Loan but borrowed less than you were entitled to, you can top up your existing loan to your maximum amount. You must request the top-up by **31 January 2021**.

[For more information about the scheme](#)

inflatable parks and trampolining centres), circuses, fairgrounds, funfairs, water parks and theme parks.

- Animal attractions (such as zoos, safari parks, aquariums, and wildlife reserves).
- Indoor attractions at venues such as botanical gardens, heritage homes and landmarks must also close, though outdoor grounds of these premises can stay open for outdoor exercise.
- Personal care facilities such as hair, beauty, tanning and nail salons. Tattoo parlours, spas, massage parlours, body and skin piercing services must also close. These services should not be provided in other people's homes.
- Community centres and halls must close except for a limited number of exempt activities, as set out below. Libraries can also remain open to provide access to IT and digital services – for example for people who do not have it at home – and for click-and-collect services.

Some of these businesses and places will also be permitted to be open for a small number of exempt activities. A full list of exemptions can be found in the [guidance on closing certain businesses and venues in England](#), but includes:

- Education and training – for schools to use sports, leisure and community facilities where that is part of their normal provision.
- Childcare purposes and supervised activities for those children eligible to attend.
- Hosting blood donation sessions and food banks.
- To provide medical treatment.
- For elite sports persons to train and compete (in indoor and outdoor sports facilities), and professional dancers and choreographers to work (in fitness and dance studios).
- For training and rehearsal without an audience (in theatres and concert halls).
- For the purposes of film and TV filming.

Businesses and venues which can remain open

Other businesses and venues are permitted to stay open, following COVID-19 secure guidelines. Businesses providing essential goods and services can stay open. The full list of these businesses can be found in the [guidance on closing certain businesses and venues in England](#), but includes:

- Essential retail such as food shops, supermarkets, pharmacies, garden centres, building merchants and

suppliers of building products and off-licences.

- Market stalls selling essential retail may also stay open.
- Businesses providing repair services may also stay open, where they primarily offer repair services.
- Petrol stations, automatic (but not manual) car washes, vehicle repair and MOT services, bicycle shops, and taxi and vehicle hire businesses.
- Banks, building societies, post offices, short-term loan providers and money transfer businesses.
- Funeral directors.
- Laundrettes and dry cleaners.
- Medical and dental services.
- Vets and retailers of products and food for the upkeep and welfare of animals.
- Animal rescue centres, boarding facilities and animal groomers (may continue to be used for animal welfare, rather than aesthetic purposes).
- Agricultural supplies shops.
- Mobility and disability support shops.
- Storage and distribution facilities.

- Car parks, public toilets and motorway service areas.
- Outdoor playgrounds.
- Outdoor parts of botanical gardens and heritage sites for exercise.
- Places of worship.
- Crematoriums and burial grounds.

Public services

The majority of public services will continue and you will be able to leave home to visit them. These include:

- The NHS and medical services like GPs and dentists. We are supporting the NHS to carry out urgent and non-urgent services safely, and it is vital anyone who thinks they need any kind of medical care comes forward and seeks help
- Jobcentre Plus sites.
- Courts and probation services.
- Civil registrations offices.
- Passport and visa services.
- Services provided to victims.
- Waste or recycling centres
- Getting an MOT, if you need to drive when lawfully leaving home.

Businesses and venues that fail to comply with these restrictions may face fines of up to £10,000, prosecution, or in some cases closure

VOLUNTEERING

If you would like to volunteer to support Colchester's vulnerable residents, organisations/ charities or just generally help during the ongoing coronavirus crisis please contact Community360 at information@community360.org.uk or call 01206 505250

Community360 also need your help. They need PPE including masks, gloves and aprons for hospital discharge work and volunteers. If you can help, please contact them at the email address opposite.

COMMUNITY360

Community360, has been supporting the most vulnerable during the pandemic has pledged to carry on helping those who need assistance across the county.

Since the outbreak started:

Community360 has been extremely busy and registered an extra 300 volunteers for essential tasks for the most vulnerable people in Colchester's community.

Supporting with a wide range of tasks from phoning people who are on their own for a chat, to collecting and delivering essential food.

Social isolation has not gone away either, that is why the befriending telephone service they initiated during the pandemic will continue to operate which has been a lifeline for many.

They are also still supporting the discharge of patients from the hospital and carrying out follow up welfare calls, as well as offering our Transport Service in Colchester and Maldon, which includes

prescription delivery for a nominal charge.

To find out more about local voluntary groups and Community360's projects, call their team of social prescribers on 01206 505250 or email information@community360.org.uk

If you are also able to help others in your community, please call or email them.

VOLUNTEER ESSEX

Registration is now OPEN for any residents or businesses who want to volunteer in their local area. By using one of the forms below, your details will be passed directly to the group or groups that are operating near to you:

[INDIVIDUALS BUSINESSES](#)

[FACEBOOK GROUPS /
VOLUNTEERING GROUPS](#)

[INVOLVING AND MANAGING
VOLUNTEERS DURING THE](#)

[CORONAVIRUS PANDEMIC](#) This website provides a wealth of information on working with volunteers during the current pandemic - from safeguarding, DBS checks, data protection, paying for goods and services and much more.

- Carry your mobile phone and ensure someone knows where you are.

DON'T

- Continue volunteering if you develop symptoms.
- Go into people's houses.
- Take any payment for services or goods provided, unless following specific instruction.
- Offer advice on benefits.
- Fill in forms on their behalf.
- Request any personal or financial information about the people you visit.
- Offer services beyond those instructions you have received, including childcare or personal care.
- Contact or meet vulnerable people, except to carry out tasks you have been asked to perform.
- Share any personal information you have been given, including posting information on social media relating to vulnerable people, staff or other volunteers.

VOLUNTEER CODE OF PRACTICE

Do

- Practice infection control measures, including social distancing and wearing PPE (where advised).
- Visibly display your identification.
- Be courteous, recognise vulnerable people may be stressed and anxious.
- Respect people's needs, culture and customs.
- Maintain confidentiality.
- If using your own vehicle, ensure this is done so safely and legally.

THINGS TO CONSIDER WHEN VOLUNTEERING

Consider, are you well enough to volunteer? Your safety and limiting the spread of the virus is a priority. Don't put yourself or others at unnecessary risk.

Hand hygiene is critical: Ensure you have access to handwashing facilities before and after every contact, or use hand sanitiser with 60% alcohol.

Delivering shopping and

prescriptions: Leave shopping and prescriptions at the doorstep. Knock at the door and wait 2m away. Wash or clean hands with sanitiser.

Money: Coronavirus can live on money for 24hrs. Where possible use electronic banking or shopping e-cards. Do not take credit or debit cards or PIN numbers. If possible, wear gloves when handling money. Always clean your hands afterwards.

Lack of response: If you are supporting an elderly or vulnerable person you need to have an agreement on what to do if you arrive and there is no response. This will differ from person to person.

Other things to remember: People may well be lonely and may want you to come in and have a chat. You need to say no if you are going to protect them. You could stop and have chat at their doorstep as long as you are 2m away. You can also swap telephone numbers and let them know you are available for a chat if they are feeling anxious or lonely.

A GUIDE FOR COVID-19 RESPONDERS

For anyone in a supportive role during the pandemic from NHS workers to volunteers this guide covers topics such as Your well-being, Supportive communication in everyday interactions and supporting people who are experiencing stress. These basic skills are at the core of supporting the emotional well-being of others during this challenging time.

The guide will show you how to use these skills to look after yourself and how to help others feel supported through your interactions.

URGENT CALL OUT FOR SPECIALIST VOLUNTEERS AND VACCINATION MARSHALS

Specialist Volunteers

Community360 is calling for volunteers to help support all partners to care for our loved ones, as the NHS and other colleagues struggle with the discharge of patients from hospital to their homes and to help with their recovery process.

Volunteers are urgently needed to help with all areas of support from domiciliary care, specialist rehabilitation, to just providing a listening ear and supporting care homes who are in need of extra help.

They are urgently looking for occupational therapists, physiotherapists, personal trainers and sports exercise/injury personnel to help with motivation and rehabilitation. Carers, catering and chefs to administration and clerical professions. All who could play a part in helping the recovery of patients in their own homes and the day-to-day work of care homes, down to supporting people to stay safe and well within their own home settings that don't need to be in hospital. If you have been furloughed or retired recently and would like to use your free time to volunteer in Colchester, you could be just what they are looking for. They urgently need expert skills to support the local community, and your friends and family.

If you have specialist skills and would like to use them to support a good cause, C360 can match you to the right

volunteering opportunity and make it easy and rewarding for you to give back. You will be part of a team and could really make a difference to the local population.

The CCG are happy to provide training and PPE to keep everyone safe while helping others.

Anyone interested can apply directly 01206 505250 or go to Volunteer Essex <https://www.volunteersex.org/opportunities/covid-community-support-12421/>

Vaccination Marshall Volunteers

With the NHS ready to deliver the COVID-19 vaccination programme, Community360 are looking for additional Vaccination Marshall Volunteers across Essex.

Community360 have already been supporting events as part of the Government COVID vaccination role out in Colchester, Maldon and Braintree. Staff and volunteers have been on hand to assist the CCG and GP's with booking in patients, temperature checks, car park and queue management along with after care welfare for all patients.

For further information on how to enquire about becoming Vaccination Marshall Volunteer log onto: <https://www.volunteersex.org/opportunities/primary-care-centre-vaccination-support-12397/>

FUNDING OPPORTUNITIES FOR COMMUNITY GROUPS AND CHARITIES

National Lottery Community Fund priorities COVID-19 projects.

The National Lottery Community Fund will give priority to:

- Organisations supporting people who are at high risk from COVID-19.
- Organisations supporting communities most likely to face increased demand and challenges as a direct result of COVID-19.
- Organisations with high potential to support communities with the direct and indirect impact of COVID-19.

For further information and to apply click [here](#).

Asda Foundation (UK) Covid-19 Grants - Hygiene Grant

In response to Covid-19 the Asda Foundation has stopped its usual grant making activities and launched its Covid-19 Grants. The Hygiene grant is focused on personal hygiene dignity, supporting residents/patients in facilities, who are struggling and unable to provide their own toiletries either through lack of funds or access to family support. The fund is open to applications from care homes, hospices, hospitals and homeless shelters. The maximum grant available is £500.

<https://www.asdafoundation.org/how-to-apply>

Comic Relief (UK) Capacity Building Grants Scheme

Charities, voluntary and community organisations, social enterprises and CIC's in England which have been negatively impacted by Covid-19 can apply for grants of up to £1,000 to help them rebuild their capacity to meet the needs of their local community. The funding is being made available through the Comic Relief's Capacity Building Grants Scheme and will support projects within their four strategic themes and can be used for a wide range of activities, such as: training; increasing delivery capacity through additional volunteer recruitment; and developing strategies to help rebuild and move forward such as fundraising strategies, and developing new delivery plans. To be eligible, applicants will need to have an annual income of less than £250,000. Applications can be made at any time.

Morrisons Foundation - COVID-19 Homeless Support Fund.

Registered charities who care for the homeless can apply for support to cover the following broad areas:

- Outreach and support for rough sleepers, including provision of essentials.

- Delivery of services in hostels and shelters.
- Information and advice.

For more information and to apply click [here](#).

Essex Community Foundation Emergency Grants

Initially grants of up to £15,000 will be available. Priority will be given to those delivering vital services to older and vulnerable people, organisations helping to relieve pressure on public services and those co-ordinating a local community response.

What can be funded?

- Projects that have been established due to an increase in demand as a direct response to the pandemic.
- Projects that have been changed, or adapted, as a direct response to the pandemic and where additional costs are being incurred.
- Organisations that have experienced a loss of funding as a direct result of the pandemic.
- Organisations who have had their operations impacted by the pandemic.

Colchester Rotary Club

Members have decided to set aside up to £15,000 which will be distributed to local groups who they believe are struggling for funding during the Covid-19 outbreak.

The Foyle Foundation: Small Grants Scheme

Organisations which are currently delivering services to the young, vulnerable, elderly, disadvantaged or the general community either directly or through online support can apply for grants of between £1,000 and £10,000. Funding can be used to cover core costs or essential equipment, to enable ongoing service provision, homeworking, or delivery of online digital services for charities with a turnover of less than £150,000 per annum that can show financial stability and a clear need for their services. Competition for funding is expected to be strong. Applications can be submitted at any time.

National Emergencies Trust: LGBT+ Futures Grant Programme

A new £350,000 funding scheme has been launched to address the additional needs of LGBT+ people and communities most adversely impacted by the Covid-19 pandemic and to support and strengthen LGBT+ organisations that have been impacted by the Covid-19 pandemic. The funding is available to any UK based non-profit groups, organisations or projects that work with Lesbian, Gay, Bisexual and Trans + (LGBT+) people. There are no deadlines for this fund. Applications will be considered on a rolling basis until all the funding has been awarded. Grants are for short-term work only and all funds awarded through the programme must

be fully spent by 31 May 2021.

The Postcode Recovery Fund helps support charities to develop innovative solutions that address issues affecting people as a result of the pandemic.

Postcode Recovery Fund Postcode Dream Trust

Postcode Dream Trust supports charities who wish to deliver highly innovative, impactful and engaging projects across Britain and further afield.

Rainbow Services The individual hardship fund is actively seeking applications from people who are experiencing financial difficulties.

The Mrs Smith and Mount Trust, originally two separate trusts until 1992 when they were merged, offers funding to registered charities assisting disadvantaged people towards greater independence or a better quality of life. Through the Mount Fund, the Trust will focus on the following priority areas from 1 January 2020:

- mental health
- homelessness
- health in the community

The Mrs Smith Fund provides block grants to registered charities working with individuals in need that meet the criteria of the Fund.

Armed Forces Covenant Fund: Tackling Loneliness Programme.

Grants are available for projects that reduce social isolation by tackling loneliness among traditionally harder to reach groups within the Armed Forces community in the UK.

Volant Charitable Trust—COVID-19 Response Fund.

Application Deadline: 31 July 2021

Grants are available to UK charities that demonstrate a strong focus on alleviating social deprivation and helping vulnerable groups who have been affected by the coronavirus pandemic.

Guidelines and an online enquiry form can be found on the Trust website which can be found [here](#).

Website information can be found [here](#)

How to apply can be found [here](#)

UTILITIES

Pre-Payment cards

If you have payment cards for your electric, please see the following advice. This [link](#) has some good information on what each energy company is doing to support their customers, currently.

You can ask for pre-loaded payment cards to be sent to your house. Most energy companies have put a hold on any debt too.

don't already have a membership card.

UK POWER NETWORKS

If you need information on a power cut, you can, visit Power Cut Map for [live updates](#), tweet them at @UKPowerNetworks or telephone customer service team, 24 hours a day, on 105 or 0800 3163 105. Calls are free from a landline or mobile phone. If you live in London, the East or South East of England, then being on the Priority Services Register will ensure you will receive extra support if you experience a power cut.

There are over 20 ways to get in touch including our website, on Twitter @ukpowernetworks, or call 105

WARM HOME DISCOUNT SCHEME

You could get £140 off your electricity bill for winter 2020 to 2021 under the Warm Home Discount Scheme.

The money is not paid to you - it's a one-off discount on your electricity bill, between September and March.

You may be able to get the discount on your gas bill instead if your supplier provides you with both gas and electricity. Contact your supplier to find out.

The discount will not affect your [Cold Weather Payment](#) or [Winter Fuel Payment](#).

ANGLIAN WATER

Have free Priority Register for the most vulnerable that provides the practical support. Aimed at a wide range of people, from those with sight, hearing or mobility difficulties, to parents with babies under 12 months old. Offers a wide range of support, such as reading meters for customers who find it difficult and sending out bills in Braille. Or if someone's struggling to pay a bill, they can set up payment plans or look at switching to a tariff that's a better fit. The website also has tips for saving water.

ESSEX LIBRARIES ONLINE

You can borrow eBooks or audiobooks free from Essex Libraries online. You need to download the app 'Borrowbox' and use your public library card to login in. It will ask you for your password which is usually your date of birth. You can join the public library online if you

Energy Supplies: Here you can find advice and answers to questions you may have on managing your energy supply during the outbreak. Information will continue to be updated.

HELP CONTROL THE VIRUS

To protect yourself and others, when you leave home you must:

WASH HANDS – wash your hands regularly and for at least 20 seconds.

COVER FACE – wear a face covering over your nose and mouth in indoor settings where social distancing may be difficult and where you will come into contact with people you do not normally meet

MAKE SPACE – stay 2 metres apart from people you do not live with where possible, or 1 metre with extra precautions in place.

If you feel unwell with symptoms of coronavirus, get a test and do not leave the house for at least 10 days or until you get a negative result.

[Reducing transmission of coronavirus - what you can do to help.](#)

CBC SERVICE UPDATES

CLOSED

The following remain closed to the public

Colchester Museums

Colchester Castle, Hollytrees Musum and the Natural History Museum are closed
Check out our fun [#MuseumFromHome activities](#) for ideas and things to do.

Outdoor gyms, skateparks and sports courts

All outdoor gyms, skateparks and sports courts are closed

Leisure World

Aqua Springs

Visitor Information Centre

High Woods Country Park Visitor Centre

Weddings

Weddings cannot take place at our venues unless in extraordinary circumstances and upon request from Essex County Council

DISTRUPTED

Animals Services

Our Pest Control service is operating; however, bedbug treatments are currently unavailable.

Bereavement services

The crematorium and cemetery are open for funerals with up to 30 mourners. The Book of Remembrance, Prayer Room and the crematorium office are still closed to visitors. Visitors must follow [current guidelines](#).

The cemetery and Garden of Remembrance will be closed to visitors, except for those who are attending a funeral, attending the scattering or burial of ashes, or visiting the grave or memorial of a loved one.

Colchester Market

Colchester Market will be trading but with essential stall holders only.

Business Support

The Council is waiting for guidance from Central Government on how to distribute new business support. For the latest information on Government and local financial support visit www.colchester.gov.uk/coronavirus/businesses.

Environmental

You can continue to report environmental and noise concerns. However, the Weekend Noise Service will be suspended.

NORMAL

Benefits and local council tax

Housing support, benefits and Council Tax services are operating as normal.

Helpline

Helpline is running as normal to provide an alarm, response and monitoring service for older and vulnerable people living in Colchester and North Essex. Call 01206 769799 or visit helplineplus.co.uk.

Parking

Most of our car parks are open and we encourage visitors to use MiPermit to make contactless payments.

Housing

Visit [Colchester Borough Homes](#) for the latest service updates

Parks and countryside sites

Parks and countryside sites are open, but visitors must follow government guidelines. Highwoods Country Park Visitors Centre is closed.

Skateparks and sports courts

All skateparks and sports courts are open.

Rubbish and Recycling

Recycling collections are operating as normal (except textile recycling, which

Playgrounds

All playgrounds are open. We ask that you read our [COVID-19 playground guidance](#) before your visit

Building control

We are currently processing all Building Regulation applications and undertaking all site inspections as usual. However, on occasions we will use our discretion to determine if site inspections may need to be carried out by virtual means.

You can view what services are affected on our online Council Service updates webpage www.colchester.gov.uk/coronavirus/service-updates/

AVOID LIGHTING BONFIRES DURING CORONAVIRUS CRISIS

CBC know that it is hard right now for residents to manage their rubbish and recycling because of our reduced service, but we would please ask you not to burn it. There are serious health implications linked to bonfires. Smoke from bonfires can aggravate pre-existing conditions, like asthma and COPD. That is why we are asking residents to think about their neighbours and not to dispose of waste (garden or any other) by burning it. For advice on how to reduce, reuse and store your recycling click [here](#).

DOG WASTE AND LITTERING

Please remember that it is an offence to drop litter or fail to pick up after your dog. Please remember to put litter in a bin and to bag and bin dog waste. Both litter bins and dog waste bins continue to be emptied by the council. [You can report full bins here.](#)

If you are a dog owner, you are required by law to clean up after your dog in public places. That includes roads, pavements, parks, car parks and all shared open spaces.

If there isn't a dog bin on your dog walking route, it's your responsibility to pick up and take your dog's waste home with you. Under the Dogs (Fouling of Land) Act 1996 it is an offence not to clean up your dog's mess properly.

We will take enforcement action against anyone who is witnessed letting their dog foul in public without cleaning it up or anyone seen dropping litter.

An NHS poster featuring a close-up of a person wearing a white surgical mask and a blue face shield. The text on the poster includes: 'HM Government' and 'NHS' logos at the top; 'Got any coronavirus symptoms?' in large yellow text; 'Isolate and book a test.' in bold black text; 'Use the NHS COVID-19 app or go to gov.uk/coronavirus'; three icons: a thermometer for 'High temperature', a cough for 'New continuous cough', and a crossed-out nose for 'Change/loss of smell/taste'; and a box at the bottom right that says 'STAY ALERT CONTROL THE VIRUS SAVE LIVES'.

HOW TO KEEP WELL DURING CORONAVIRUS (COVID-19)

STAY ALERT

We can all help control the virus if we all stay alert. This means you must:

- Stay at home as much as possible.
- Work from home if you can.
- Limit contact with other people.
- Keep your distance if you go out (2 metres apart where possible). 1 metre plus only applies when you can mitigate the risks by taking other precautions
- Wash your hands regularly.
- Do not leave home if you or anyone in your household has symptoms.

EAT WELL

Eating healthily can often be more challenging when spending more time at home. There may be more temptations around, for example. By eating a range of fruits and vegetables you can help boost your immunity.

Try to stock up on healthy snacks like

fruits, nuts, olives, dips and veg to dip into them! Planning meals throughout the day can be helpful too.

VITAMIN D

The body creates vitamin D from direct sunlight on the skin. However, between October and early March we don't get enough vitamin D and whilst you can get some from certain foods, the NHS recommends that we all consider taking 10 micrograms of vitamin D a day to keep bones and muscles healthy throughout the winter months. You can buy vitamin D supplements from most supermarkets, pharmacies and health food stores.

WHAT ARE THE BENEFITS OF EXERCISE DURING WINTER?

The idea of getting out early to exercise during the winter while it's light outside can seem difficult. But the benefits of exercise, even during the colder months and especially during the pandemic are many fold.

Physical benefits of exercise include:

- **Physical resilience:** Our body fights viruses with our immune system, which is strengthened with exercise. There is the added benefit of increased oxygen in the lungs.
- **Better blood circulation:** Exercise pumps blood (including those handy white blood cells) around the body to where it's needed for repair.
- **Stronger bones and joints:** While

 leisure world

Leisure World have launched a Free fitness app so you can enjoy the benefits of regular exercise from home!

It has a range of Train at Home workouts, from easy to hard, so everyone can challenge themselves and have fun, no matter their abilities. It's our small way to try and help you get through this difficult time.

Create your account today, [here](#)

we're sitting down working from home everyday, our bones and joints are suffering. Exercise helps keep them in tip-top condition.

- **Stress reducing:** Exercise helps to regulate the levels of cortisol, the stress hormone, in our bodies.
- **Weight management:** Exercise burns calories, which helps many of us stay at a healthy weight, which in turn keeps our lungs and hearts healthy.
- **Improved quality of sleep:** If you find yourself waking up early in the

morning or struggling to get to sleep at night, then exercise could be the answer. In turn, sleep helps our cells repair themselves, along with helping the immune system and our general health.

Mental health benefits of exercise include:

- **Reducing stress:** Many people say that exercise is one of the main ways they reduce stress so with more of us working from home than ever before, we'll need to keep stress levels low.
- **Creating resilience:** Due to the physical challenges of exercise, it helps us create positive coping strategies and helps to develop mental resilience.
- **Releases endorphins:** The famous 'feel-good' hormones make us feel great, a key feature in improving our mental health through lockdown.
- **Less mental fatigue:** By changing up our daily routine with exercise, we can avoid the mental fatigue that comes with doing the same thing, in the same place, every day.

TOP TIPS FOR DEALING WITH STRESS

TIP 01
Divide big tasks into small ones

TIP 02
Create to-do lists

TIP 03
Stay active

WHEN THINGS AREN'T SO GOOD OUT THERE... MAKE INSIDE FEEL BETTER.
 Visit **Every Mind Matters** for more tips and advice.

Better health every mind matters

- **Improves our sleep quality:** Better sleep has been proven to help those struggling with their mental health during difficult times due to the physical benefits it creates.

Things to do

Walk Colchester and Cycle Colchester are local organisations which promote and recommend physical activity and access to the local green environment: paths, trails, parks, woods and open spaces.

As well as guidance on Getting active at home, Sport England's Join the Movement campaign provides all the latest advice on getting active, with tools to help you make the most out of the fresh air during your exercise. The Active 10 app from the NHS is a great way to help you monitor and gradually increase your brisk walking levels over time. If you're feeling anxious in these uncertain times you could also consider some of the Walking Meditations from Headspace.

Alongside walking and running, cycling is one of the simplest ways to get active outside and can be done with the whole family. British Cycling have created Lets Ride Local to encourage safe and responsible cycling - the website includes tips and advice on riding locally, as well as instructions on teaching children how to ride.

Daily Mile at Home is an easy and fun way to keep fit and maintain good health and wellbeing for you and your children. The Daily Mile guidance for schools has

been adapted for use at home to achieve the same benefits.

This comes from as little as 15 minutes or more of walking, running or jogging in the fresh air – doing it at whatever pace suits you best and wearing what you'll feel most comfortable in. Every week on Monday, Wednesday and Fridays, a new challenge is set.

Active Essex have launched a livestream YouTube channel which features a full timetable of different activities by Essex deliverers to keep us moving more. The following week's timetable is launched every Sunday.

Finding your Feet Walks

C360 are offering guided walks to encouraging people to get active, support their mental and physical well-being and socialise at a safe distance. The walks are designed to be a relaxed walk around a one-mile route. They currently offer 3 walks:

Tuesdays 10.30am starting and finishing at Norman Way, Prettygate CO3 4PS

Thursdays 2.00pm starting and finishing at Circular Road East Lower, Abbey Field CO2 7GA

Wednesdays 11.30am starting and finishing at Castle Park War Memorial

Places are currently limited to 5 attendees per walk. To book your place or find out further information please call 01206 505250. Email msp@community360.org.uk

Physical activity helps our body and mind in many ways, and you can read more about getting the right amount of exercise at [Essex Livewell](#).

The Sport for Confidence team continue to support and deliver meaningful physical activity sessions to anyone that faces barriers to participation in North Essex. Whether you face barriers from a learning disability, the ageing process or mental health, the team will support you from the moment you walk through the door. You have access to a full timetable of activities ranging from Seated Exercise to Inclusive Dance. The team ensure sessions are inclusive by creating adaptive, active and most importantly fun sessions! Sessions are online or at Colchester Leisure World. To find out more please email info@sportforconfidence.com or call Sophie on 07394 564941.

Dance Network Association Lockdown Dancing through....programme. There should be something on this programme for absolutely everyone.

They have classes for

- Families and early years: Active Monday's and Welcome to the World.
- Young adults: Dance Club and Contemporary for a Curious Mind
- Working adults: Contemporary for a Curious Mind, Dance and Stretch your Mind Down, Take a Seat and Postivi-TEA

- Older adults: Take a Seat, Dancing with Parkinson's, Dance and Stretch your Mind Down.

After lockdown they hope that these classes will go into a Zoom space - or an in-person space so they can continue to connect but for now, they want to encourage people to take part in their sessions and engage in dance during lockdown for their own physical and mental health and wellbeing.

An NHS infographic with a blue background. The title is 'SOME SIMPLE TIPS FOR IMPROVING YOUR SLEEP'. It features three tips: TIP 01: Keep regular sleep hours; TIP 02: Attempt not to check your phone for an hour before bed; TIP 03: Consider turning your clock away so you can't see it. The infographic includes icons of a crescent moon, stars, a smartphone, and a clock. At the bottom, it says 'WHEN THINGS AREN'T SO GOOD OUT THERE... MAKE INSIDE FEEL BETTER. Visit Every Mind Matters for more tips and advice' and 'Better Health every mind matters'.

ANXIOUS OR WORRIED

Staying at home for a prolonged period can be difficult, frustrating and lonely for some people and that you or other household members may feel low. Also, now lockdown is easing you may feel worried or anxious about going out and/or meeting people. It's important to remember to take care of your mind as well as your body and to get support if you need it.

The **Livewell Campaign** highlights 7 steps we can all take to support our mental health during this time and includes links to the latest government advice on looking after our mental health and that of children and young people.

You can call NHS 111 if you or someone you know needs urgent care, but it's not life threatening.

- If you have an existing mental health problem and your symptoms get worse.
- If you experience a mental health problem for the first time.
- If someone has self-harmed but it does not appear to be life threatening, or they're talking about wanting to self-harm.
- If a person shows signs of possible dementia.

If a person is experiencing domestic violence or physical, sexual or emotional abuse. Dial 111 and select the option for mental health crisis (option2) for immediate and specialist support 24 hours a day, 365 days a year. The service is for people aged over 18 and over and aims to ensure those in need of support can access it quickly when they need it most.

MIND telephone lines will remain open Monday to Friday 9am–5pm on 01206 764600. Alternatively, you can send them an email enquiries@mnessexmind.org.

If you already have a mental health problem, you can access **comprehensive guidance provided by Mind.**

SUPPORT AND ADVICE FOR PEOPLE AFFECTED BY DEMENTIA

If you or someone you care for are worried about coronavirus (COVID-19) and need support and advice, call the Dementia Connect support line on 0333 150 3456.

Alzheimer's Society Website for the most up to date information and advice.

Join **Alzheimer's Society online Community Talking Point** where you can connect with others affected by dementia in a similar situation.

Use this **Dementia Connect online support tool** to find dementia information and support that is right for you.

COMMUNITY SAFETY

STAY SAFE AT HOME

These are very challenging times for us all, and while the government's advice is to stay home, for some people, home is not a safe place. If you are living with domestic abuse and feel even more isolated and at risk please remember there is help available.

Stay Safe at Home is a new initiative to raise awareness of five common risks people may face at the moment.

- domestic abuse.
- child abuse.
- accidental fire/fire safety.
- fraud.
- bogus callers.

Support the campaign on social media by using

#ProtectingandServingEssex,

#StaySafeAtHome and

#StayHomeSaveLives.

More information can be found [here](#)

[Safer Colchester Partnership](#)
for up to date community
safety advice.

CORONAVIRUS SCAMS

The Department for the Economy's Trading Standards Service (TSS) is warning people to remain vigilant following a rise in reports of coronavirus-related scams.

Action Fraud, the UK's national reporting centre for fraud and cybercrime has already reported total losses during lockdown amount to over £4.6 million.

With many people continuing to be isolated from family and friends and with their guard potentially lowered they are becoming vulnerable to fraudsters.

Common Covid-19 related scams include:

Fake lockdown fines - Bogus text message with scam message claiming to be from the Government, telling the recipient their movements have been monitored through their phone and they must pay a fine or face a more severe penalty.

Anti-virus kits claiming to cure or prevent Covid-19.

Fake companies offering to obtain refunds for individuals who have had their holidays cancelled.

Online shopping scams where people order protective face masks, hand sanitiser and other products that are never delivered. Fake products that are delivered can often be dangerous and unsafe and not gone through the proper

Fake Products / Websites

Fake coronavirus (COVID-19) testing/treatment kits are being produced and sold worldwide. These kits contain harmful chemicals and police are warning anyone who has bought one of these kits not to use it. Report to [Action Fraud](#), quoting “Trinity CV19 treatment kits

testing.

Criminals targeting older people on their doorstep and offering to do their shopping. Thieves take the money and do not return.

Coronavirus-themed phishing emails which try to trick people into opening malicious attachments that allow fraudsters access information such as passwords, email logins and banking details.

Doorstep cleansing services that offer to clean drives, letterboxes and doorways to kill bacteria and help prevent the spread of the virus.

Scammers targeting people on benefits by offering to 'help' them apply for interest-free government loans - once the scammers have the victim's personal details they use them to apply for an advance loan of Universal Credit which the scammers take, causing the victim's normal benefit payments to stop and leaving them with large loans to repay.

Donation scams - There have been reports of thieves extorting money from consumers by claiming they are

collecting donations for a Covid-19 'vaccine'.

Things to look out for.

- Fraudsters can fake telephone and text numbers so it might appear that the call or text is from your bank when it isn't.
- The caller will try to create a state of panic and fear, pushing you to act quickly. Please take a moment to think calmly about what you're being asked to do.
- The fraudster might know your personal details that you think only your bank will know – i.e. mother's maiden name and your address.
- Fraudsters can gather these details in the days and weeks running up to the fraud attempt from social media, and other sources
- The caller might take you through security questions, just like the bank would, to make it seem more real

What to do

Hang up and wait at least 10 minutes before making any further calls or use a different phone (fraudsters can keep the line open).

Call the number on the back of your card or from a trusted source like the website.

Don't give any sensitive financial or personal information out to people who call you out of the blue.

Contact your bank immediately if you think you are a victim of a scam.

Test and trace scam warning

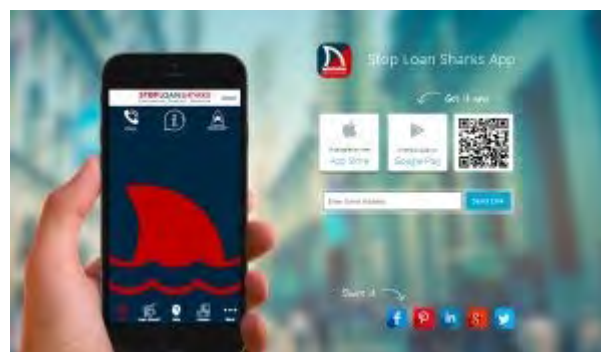

EVERYONE has been warned to be on their guard after scammers posing as workers from the NHS Test and Trace service made calls in Essex asking for payment for coronavirus tests.

Those contacted were told they have been in contact with someone who has tested positive for Covid-19 and are then told they must purchase a test over the phone.

The genuine advice is that if you've been in close contact with someone who has coronavirus and need to self-isolate, you may get an email, text or phone call from NHS Test and Trace, however no one would be advised to get tested unless they had symptoms, and if they do, they would never be asked to purchase a test or give their bank details.

Parcel Delivery Scam

A card is posted through your door from a company called PDS (Parcel Delivery Service) suggesting that they were

unable to deliver a parcel and that you need to contact them on 0906 6611911 (a premium rate number). If you call the number and you start to hear a recorded message you will already have been billed £315 for the phone call.

If you do receive a card with these details, then please contact Royal Mail Fraud on 020 7239 6655. For more information see the [Crimestoppers website](#)

Please be aware that the premium rate number may change but nevertheless please do not call any number stated on a card from PDS

COVID-19 vaccination scam alert

Some people are receiving fraudulent calls and text messages offering the COVID-19 vaccination. In some cases, people are asked to press a number on their keypad or to send a text message to confirm they wish to receive the vaccine. Doing so is likely to result in a charge being applied to their phone bill. In other cases, callers are offering the vaccine for a fee or asking for bank details.

People are warned to be alert to these scams. The vaccine is only available from the NHS and the NHS will contact you when it is your turn. At present, appointments are only being offered to the public over 80 years old.

The NHS will NEVER ask you to press a button on your keypad or send a text to confirm you want the vaccine, and NEVER ask for payment or for your bank details.

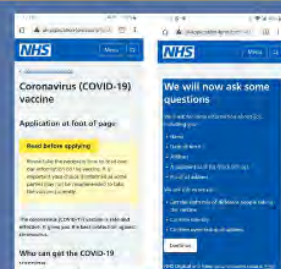

If you receive a call you believe to be fraudulent, hang up. If you believe you have been the victim of fraud or identity theft you should report this directly to Action Fraud on 0300 123 2040. Where the victim is vulnerable, report it to Essex Police online or by calling 101.

Scam text about Covid-19 vaccine

A dangerous fake NHS text has been circulating, telling people they're eligible to apply for the COVID-19 vaccine. Here's what it looks like.

**Do NOT click on links in unknown texts -
always check it first**

This URL takes you through to an extremely convincing fake NHS website that asks for your personal details

NEVER give out your personal details.

Protect others by reporting incidents like this. If you, or anyone you know, have been affected by this fraud or any other scam, report it to Action Fraud by calling 0300 123 2040 or visiting www.actionfraud.police.uk

SECURE/PROTECT/ PREVENT

During winter, houses are more likely to
be burgled in the early evening.

- Put lights on timers in the rooms you use most to make it look like you're in.
- Close and lock all windows and doors every time you leave the house or go to bed. Make sure that the door is locked properly i.e. lift the handle, turn the key and then remove the key ensuring that it is available for you to exit in case of emergency but out of sight from prying eyes.
- If you have a burglar alarm use it at all times, even if just popping out for a

moment, or zone off areas before going to bed.

- Leave lights on timers or radios on in the rooms you use the most, invest in a TV simulator such as 'Fake TV' to make it look like you are in. Fit external lighting using energy saving bulbs or LED's which are activated by a dawn to dusk sensor. If burglars see your house has security lighting they are less likely to approach for fear of being seen.
- Secure your boundaries and ensure access to your back garden is not easily obtained, lock gates and consider some spiky plants. Look out for climbing aids such as wheelie bins that may make it easier for the burglar to get in. Keep sheds, garage and other outbuildings locked securely, as they may contain valuable items or tools that may be used to break into your house.
- Use forensic marking or other property marking methods to identify your property and display any product signage/labels. Keep an inventory of your property including serial numbers and photographs. This can be done in a paper version or on an online asset recording product. Make sure you include details such as identifying marks, value, and purchase date.

Advice From The Fire Service

A few key messages from the Fire Service; with more people in their homes please remember:

- A minimum of one smoke detector is advised on each floor of a property. Test your smoke alarm. Smoke alarms are proven life savers. They give warning at the first sign of fire, waking you and your family up and giving everyone the time, they need to get safely out and call the fire service.
- Never leave candles unattended - near curtains / flammable materials.
- Discuss with your family your Fire Escape Plan - how / what to do / leaving items / not entering back into the property.
- The largest number of residential fires start in the kitchen - distraction

(children / pets/ phone calls etc) being a high proportion of incident causes with the kitchen left unattended.

- Hand Sanitiser in Cars: You may have heard reports that hand sanitisers left in cars can pose a fire risk, whilst there is not much evidence to suggest this is the case we would advise people to ensure they store their hand sanitisers in vehicles safely, which includes keeping bottles closed and out of direct sunlight, such as in the glove box. This will ensure the contents do not deteriorate and means bottles cannot be magnified by the sun. Sanitiser should also be kept away from naked flame.

[For more advice from the Fire Service click here.](#)

DOMESTIC AND SEXUAL ABUSE HELP

The government acknowledges that coronavirus household isolation instructions can cause anxiety for those who are experiencing or feel at risk of domestic abuse. There is never an excuse for domestic abuse, no matter what the circumstances are.

If you feel at risk of abuse, there is help and support available to you, including the police, online support, helplines and refuges. You can find more information about these and other services in this booklet.

Codeword scheme

If you are experiencing domestic abuse and need immediate help, ask for 'ANI' in a participating pharmacy. 'ANI' stands for Action Needed Immediately but also phonetically sounds like the name Annie. If a pharmacy has the 'Ask for ANI' logo on display, it means they're ready to help. They will offer you a private space, provide a phone and ask if you need support from the police or other domestic abuse support services.

Recognise domestic abuse

Anyone can be a victim of domestic abuse, regardless of gender, age, ethnicity, socio-economic status, sexuality or background.

IF YOU ARE IN IMMEDIATE DANGER, PLEASE CALL 999 IF YOU CAN'T SPEAK PRESS 55

What is domestic abuse?

Domestic abuse is not always physical violence. It can also include:

- coercive control and 'gaslighting'
- economic abuse
- online abuse
- threats and intimidation
- emotional abuse
- sexual abuse

What signs to look for

If you believe that you or someone else could be a victim of domestic abuse, there are signs that you can look out for including:

Household isolation instructions as a result of coronavirus do not apply if you need to leave your home to escape domestic abuse.

- being withdrawn, or being isolated from family and friends
- having bruises, burns or bite marks
- having finances controlled, or not being given enough to buy food or pay bills
- not being allowed to leave the house, or stopped from going to college or work
- having your internet or social media use monitored, or someone else reading your texts, emails or letters
- being repeatedly belittled, put down or told you are worthless
- being pressured into sex
- being told that abuse is your fault, or that you're overreacting

See [more signs to look for](#).

Support a friend if they're being abused

Let them know you've noticed something is wrong.

If someone confides in you, there is [more information on how to support a friend who is being abused](#).

If you are worried that someone you know

is a victim of domestic abuse, you can call Refuge's National Domestic Abuse Helpline for free, confidential support, 24 hours a day on 0808 2000 247. Visit the [helpline website](#) to access information on how to support a friend.

If you believe there is an immediate risk of harm to someone, or it is an emergency, always call 999.

Report it

If you, or someone you know, is a victim of domestic abuse find out how to [report domestic abuse](#).

If you are in immediate danger, call 999 and ask for the police.

If you are in danger and unable to talk on the phone, call 999 and listen to the questions from the operator and, if you can, respond by coughing or tapping on the handset.

Call 999 from a mobile

If prompted, press 55 to [Make Yourself Heard](#) and this will transfer your call to the police.

Pressing 55 only works on mobiles and does not allow police to track your location.

DOMESTIC ABUSE AND CONTROLLING BEHAVIOUR DOESN'T STOP DURING LOCKDOWN.

We're supporting anyone experiencing domestic abuse during COVID-19 to let them know:

#YouAreNotAlone

Call 999 from a landline

If the operator can only hear background noise and cannot decide whether an emergency service is needed, you will be connected to a police call handler.

If you replace the handset, the landline may remain connected for 45 seconds in case you pick up again.

When 999 calls are made from landlines, information about your location should be automatically available to the call handlers to help provide a response.

If you are deaf or can't verbally communicate

You can register with the [emergencySMS](#) service. Text REGISTER to 999. You will get a text which tells you what to do next. Do this when it is safe so you can text when you are in danger.

Economic abuse

If you are concerned about how coronavirus may affect your finances and leave you vulnerable to economic abuse, see the [advice provided by HM Treasury](#) on what support is on offer.

The charity [Surviving Economic Abuse](#) has also provided additional coronavirus guidance and support.

Technological abuse

If you are concerned about whether your phone or tablets are being compromised, visit [Refuge's Tech Safety Tool](#) and click on the three pink dots at the bottom of the homepage. The tool offers instructional videos as well as practical real-time tips on

how to secure devices such as mobile phones and ensuring your location-tracking or map applications aren't accessible to abusive partners.

Welfare benefits and housing advice

The Department for Work and Pensions (DWP) has published up-to-date [coronavirus-related welfare benefits information](#).

If you are concerned about your financial situation, you can contact [Turn2us](#). They help people to access the money available to them through welfare benefits and grants. Their website has an income-related benefits checker enabling you to check that you are receiving all the benefits you are entitled to.

[Shelter](#) provide free confidential housing information, support and legal advice on all housing and homelessness issues. They also have an emergency helpline and a webchat service.

Support from your local jobcentre

Even if a jobcentre is closed, staff will still meet their most vulnerable customers including those fleeing domestic abuse.

Jobcentres are a safe space and the [DWP supports victims of domestic abuse](#). This includes helping you access temporary accommodation and supporting you to make new applications for Universal Credit and putting you in touch with local experts and support networks.

Find out more about [help available from the DWP for people who are victims of domestic violence and abuse](#).

Get help if you think you may be an abuser

If you are concerned that you or someone you know may be an abuser, there is support available.

The Respect Phonenumber is an anonymous and confidential helpline for men and women who are harming their partners and families. The helpline also takes calls from partners or ex-partners, friends and relatives who are concerned about perpetrators.

A webchat service is available Wednesdays, Thursdays and Fridays from 10am to 11am and from 3pm to 4pm.

Telephone: 0808 802 4040

Get legal help

Apply for a disclosure of information

Under the Domestic Violence Disclosure Scheme (also known as 'Clare's Law'), you can ask the police to check whether a new, former or existing partner has a violent past. This is called 'right to ask'. If records show that you may be at risk of domestic abuse from a partner, the police will consider disclosing the information. A disclosure can be made if it is legal, proportionate and necessary to do so.

The 'right to ask' also allows a third party, such as a friend or family member, to apply for a disclosure on behalf of someone they know. Again, the police can release information if it is lawful, necessary and proportionate to do so.

- To make an application under the Domestic Violence Disclosure Scheme,

contact the police. You can do this by:

- visiting a police station (the household isolation instruction as a result of coronavirus does not apply if you need to leave your home to escape domestic abuse)
- phoning 101
- speaking to a member of the police on the street

If you believe there is an immediate risk of harm to someone, or it is an emergency, you should always call 999.

Get a court order to protect you or your child

If you're a victim of domestic abuse you can apply for a court order or injunction to protect yourself or your child from:

- your current or previous partner
- a family member
- someone you currently or previously lived with

This is called a non-molestation or occupation order.

You can apply online, by email or by post.

Get a court order if you've been the victim of domestic abuse.

If you don't have settled status in the UK

Apply for settlement in your own right

If your relationship with a British citizen or someone settled in the UK has broken down because of domestic abuse you may be able to apply for settlement as a victim of domestic violence.

The destitution domestic violence concession provides help if you are in the UK on a temporary visa as a partner, your relationship has broken down because of domestic violence and you have no money to support yourself.

Apply for access to benefits

The destitution domestic violence concession offers domestic abuse victims 3 months' leave outside the immigration rules with the ability to apply for access to public funds. This provides the opportunity to gain a temporary immigration status independent of the abuser and to fund safe accommodation, where victims of domestic abuse may consider applying for indefinite leave to remain or deciding to return to their country of origin.

More support materials

Read information and practice guidelines for professionals protecting, advising and supporting victims of forced marriage.

Read the leaflet the Home Office developed with Southall Black Sisters Three steps to escaping domestic violence, aimed at women in black and minority ethnic communities.

Refuge's website includes resources to help you identify the signs of domestic abuse, and a safety guide for women and children who are living with a perpetrator. It also has a tech abuse chat-bot with step-by-step instructional videos on how to secure devices such as phones and laptops. Look for the pink button in the bottom-right corner.

The NSPCC has issued guidance for spotting and reporting the signs of abuse.

The Survivor's Handbook, created by Women's Aid, provides information on housing, money, helping your children and your legal rights.

COMPASS - COMPASS is a single point of access funded by Essex County Council in partnership with the Office of Essex Police, Fire and Crime Commissioner to support victims of domestic abuse across Southend, Essex and Thurrock. It is available 24hrs a day, for callers to speak with a trained member of staff who will complete an assessment and ensure contact is made with the most appropriate support service.

There is an easy to use online form for both the public and professionals wishing to make a referral. You can contact them on **0330 3337444** or by emailing enquiries@essexcompass.org.uk.

NEXT CHAPTER – provides free and confidential services to support people who are experiencing or have experienced domestic abuse. Their website contains useful information, explains the types of abuse and common warning signs together with practical advice about staying safe and obtaining support.

For all new referrals to Next Chapter or contact Compass on **0330 333 7444**.

Next Chapter have also recently added an online chat facility.

WOMEN'S AID - Recognise the signs of domestic abuse. Women's Aid have also launched an online message service open Monday - Friday 10am - 12pm. To talk to someone please **visit**.

GALOP DOMESTIC ABUSE HELPLINE

The Galop domestic abuse helpline offers emotional and practical support for LGBT+ people experiencing domestic abuse. Abuse is not always physical - it can be psychological, emotional, financial and sexual too. Tel:0800 999 5428

Domestic abuse perpetrator?

Do you need to change how you treat your partner in your relationship? Do you frequently put your partner down, criticise them or humiliate them? Are you being physically violent, emotionally abusing, controlling or intimidating? In these challenging times, emotions can become heightened, but abuse is not acceptable. Change your abusive behaviour by getting help **here**.

THE CHANGE PROJECT

For those concerned by their behaviour.

SEXUAL ABUSE

CARA (Centre for action on rape and abuse) 01206 769795. Open and supporting victims of sexual violence via telephone support whilst all staff work from home. The office is running on an answer machine, so the quickest and easiest way to refer into them, is via **Synergy Essex** the rape crisis partnership that covers Essex. In an

emergency, please dial 999. CARA offer specialist therapy, advocacy support and independent sexual violence advisors to guide victims through the criminal justice process.

Synergy Essex provides support and information for anyone who has been sexually abused or raped or has been affected by sexual violence at any time in their lives. 0300 003 7777 or email **support@synergyessex.org.uk**.

Pharmacies launch codeword scheme to offer 'lifeline' to domestic abuse victims

Victims of domestic abuse will be able to access much needed support from thousands of pharmacies across the UK, backed by the government.

The Ask for ANI scheme allows those at risk or suffering from abuse to discreetly signal that they need help and access support. By asking for ANI, a trained

pharmacy worker will offer a private space where they can understand if the victim needs to speak to the police or would like help to access support services such as a national or local domestic abuse helplines.

As an essential retailer based on high streets across the country, and with specifically trained staff, pharmacies can provide a safe space for victims to sound an alarm if they are isolated at home with their abuser and unable to get help in another way.

CHILD PROTECTION AND SAFEGUARDING

The Essex County Council Children & Families Hub will remain in operation with no changes to threshold decisions.

The Priority Line (for children at risk of immediate danger) remains open alongside the Consultation Line.

Call **0345 603 7627** and ask for the Children & Families Hub. Please also state if you are a member of public or a professional.

Members of the public will speak to a Family Adviser who will discuss and identify the right services that will help to meet the family's needs.

Essex Safeguarding Children's Board

The Essex Safeguarding Children's Board website has launched a dedicated [Coronavirus webpage](#) which aims to provide a single point of access for

anyone needing information and resources in relation to safeguarding children and young people. These pages will outline any temporary changes to multi-agency safeguarding procedure and guidance. The Children and Families Service continues to prioritise support through continued contact with high risk child protection cases, children- in-care and young people living in semi-independent accommodation.

There are also pages with general information signposting to national and local advice and support, and resources for families. They have also produced a list of online safety.

HATE CRIME

The police have advised that during this time there have been a small minority of people who have targeted individuals and communities for abuse in relation to COVID-19. There has been significant increase in hate crimes and incidents targeting the Chinese and South Asian communities and an increase in far right, anti Muslim and antisemitic online activity. They are concerned that residents feel reluctant to report crimes and incidents as they believe the police have priorities elsewhere.

They are urging people to come forward if they have been a victim of a hate crime or incident. This will become even more important as lockdown restrictions ease and people from different communities come into regular contact with each other again.

What is a Hate Crime?

Hate crime is any incident, which may constitute a criminal offence, which is perceived by the victim or any other person as being motivated by prejudice

or hate because of a person's:

Race, colour, ethnic origin, nationality or national origins, includes Gypsies and Travellers.

Religion or faith and can include no faith.

Gender identity includes Transphobia - resentment or fear of transgender people or transvestites.

Sexual orientation. Including Homophobia - resentment or fear of gay, lesbian or bisexual people. Also resentment or hatred of heterosexual people.

Disability – any physical, sensory or mental impairment whether short or long-term. Includes learning disability or difficulty.

Hate Crime Can Take Many Forms Including:

Physical attacks – such as physical assault, damage to property, offensive graffiti, neighbour disputes and arson.

Threat of attack – including offensive letters, abusive or obscene telephone calls and other intimidating behaviour as

WHAT CAN YOU DO?

Recognise that what is happening to you is a hate crime.

Understand that by reporting the incident you will get the help you need.

Don't suffer in silence, the help you need is available, call us now...

It will help police and support agencies if you keep a diary of events. Please remember to date and time entries and fully describe any individuals or vehicles involved.

In an emergency dial 999 or 112 (112 is a European equivalent number that works in UK.)

Call the Non-Emergency number for Essex Police on 101 to report any incident of crime.

If you feel that you are not confident in reporting the incident directly to the police you can complete a 'Hate Crime' reporting form at

[Essex Police - Report a Hate Crime](#)

Alternatively, you can call one of the Hate Incident Reporting Centres (HIRCs) whose details you can find at the link above or call

Crimestoppers 0800 555 111 and report it anonymously, your calls cannot be traced, nor recorded.

[SaferColchester - Hate Crime](#)

groups or individuals.

Verbal abuse or insults, abusive gestures.

Other abuse – offensive leaflets and posters, dumping of rubbish outside homes or through letterboxes, unfounded and malicious complaints and bullying at home, online, in school or in the workplace.

Essex Police have released 6 new hate crime leaflets in 6 different languages. Please share with anyone who would find these useful.

WHEN VISITING THE TOWN CENTRE

What to expect when visiting the town centre

- Signage has been added on pavements to remind shoppers about the importance of social distancing when queuing and moving around the town centre.
- Barriers will be in place to ensure social distancing can be followed.
- Hand sanitiser stations have been installed around the town, in car parks and at bus stations.
- Neighbourhood Wardens and Our Colchester BID Street Ambassadors have been deployed to aid with stewarding and supporting the public and businesses.

Essex County Council has introduced some interim traffic measures to create

more shared space for walking and cycling. A 20mph limit, temporary barriers and signs providing shared spaces have been introduced on the High Street, Queen Street/St Botolph's, Head Street, St Johns Street and other town centre roads, and on the vital corridor between the main rail station and town centre, including North Station Road and North Hill. Essex County Council website has a full map and details about its [Safer, Greener, Healthier scheme](#).

How to keep yourself safe in Colchester town

- Plan your visit, including how you will travel to the town centre.
- Always follow signage and keep left when walking.
- Clean your hands regularly at the provided hand sanitiser stations or

use your own hand sanitiser.

- Follow shop procedures, including queuing guidelines.

Travelling to Colchester town centre

You are encouraged to walk, cycle or drive to Colchester town centre, as the government has asked us to avoid public transport where possible.

Walking and cycling

The Colchester Orbital follows existing public rights of way, taking advantage of and connecting some of Colchester's most picturesque walking and cycling routes which circles the edge of town.

Public transport

Government guidance states that you should wear a face covering on public transport. Further information can be found in the government's safer travel guidance.

Colchester town centre parking

We would encourage drivers to download the MiPermit or to use other payment options including online, by text or phone call.

We have installed hand sanitiser stations at car parks so visitors who cannot access MiPermit can wash their hands before and after using payment machines.

Colchester town centre public toilets

Colchester town centre public toilets are open. They are cleaned and inspected throughout the day. It is essential that users follow the guidance given to keep themselves and others safe.

Maintain a safe distance from others when entering, waiting, or leaving public toilets. Some sinks and cubicles may also be closed for safety, so do not use them if they are closed.

SHOPPING AND SUPERMARKETS

IS SOMEONE ELSE GETTING YOUR SHOPPING FOR YOU?

Many major stores have launched a Volunteer Shopping Card e-gift. You can give these to a volunteer who is doing your shopping for you. Just complete the online form and receive a shopping voucher via email. You can then print or display on a smart phone.

[ASDA Volunteer Shopping Card](#)

[Waitrose Volunteer Cards](#)

[Marks and Spencer's Volunteer E Gift Card](#)

[Tesco Volunteer Shopping Card](#)

[Sainsburys Volunteer Shopper Card](#)

[Aldi Shopping Vouchers](#)

[Eastern CO-OP email vouchers@eastofengland.coop](#)

Post Office makes access to cash available faster for self-isolating customers The Post Office have launched a service for people who are isolating and have a Post Office account without a debit card and who have no means in getting their money, it's called the Pay Out Now Scheme and involves sending a one off [code to a nominated person to allow them to withdraw money.](#)

Many local shops have expanded by providing an online service. You can check CBC's [Residents Contact Pack](#) which gives a comprehensive list of support in your Neighbourhood.

Many supermarkets have tailored their opening times specifically for vulnerable residents and key workers.

Sainsburys - ..are continuing to offer priority access to home delivery slots for the most vulnerable customers. For vulnerable customers who have been invited to register for online deliveries, you will still need to enter your postcode and find an available slot.

You can check your postcode by logging in [here](#), selecting Book Delivery at the top of the page and choosing home delivery as your shopping method. If you are unable to find an available slot you will need to check back regularly as we continue to release new slots.

For vulnerable customers who have been offered a slot and are unable to place their order online, they are offering a telephone ordering service to help with .

Tesco's - are still giving customers who are vulnerable priority access to online home delivery service. Still giving NHS, emergency service, and care workers priority access to stores to help them shop when they have the time. If there's a queue, please go to the front with your valid ID to enter.

All stores (except Express stores) will be

prioritising the elderly and most vulnerable for one hour between 9am and 10am every Sunday (for browsing only) and Wednesday.

M&S - First hour of trading will be for NHS and emergency services workers Tuesdays and Fridays; Vulnerable Mondays and Thursdays first hour of trading.

Have partnered with food delivery company Deliveroo to help give customers access to essential groceries and some of their M&S favourites and treats. Food boxes available for online delivery.

Asda - Some stores are now open 24 hours. To find out your local store opening times please visit [store locator](#).

Are still giving customers who are vulnerable priority access to online home delivery service. Essential food boxes available for online delivery

Aldi - All day everyday key workers in the NHS, Police and Fire Service, Social Care Workers, First Responders and St John's Ambulance staff, take priority ahead of queues into stores upon showing a valid ID. This is in addition to early access on a Sunday, where they can enter stores 30 minutes prior to opening. Opening 30 minutes early Monday - Saturday for the Elderly (over 70) and vulnerable. Aldi food parcels containing 22 essential items are available for £24.99. [For more information and to](#)

[order a food parcel](#).

Lidl - Normal opening hours. Quantities may be restricted to 6 items per customer.

Waitrose - First hour of trading for vulnerable. Are offering 25% off their delivery slots to those who are most vulnerable. Offering elderly and vulnerable priority shopping Monday - Saturday 8 -9am. Sunday 10 -11am. NHS workers can visit at any time during opening hrs, and just need to show their ID at the door.

Iceland - Are still giving customers who are vulnerable priority access to online home delivery service. But no longer offer special opening times for elderly, vulnerable or NHS workers.

Eastern Co-op - No longer offer dedicated shopping times. Offering 10% off to anyone with an NHS card or a green 'Care' badge at Food stores (excluding forecourts).

CORONAVIRUS AND FAITH

Even though under the current lockdown rules allow communal worship because of the new variant of Covid-19 and the rapid rise in cases across our region, the Directors of Public Health now **strongly advise that all places of worship should close for congregational worship. All prayer and services should move online with no congregation physically present. It also strongly advised that any other activities, such as support groups, take place by other means or are cancelled. The only exception is for funerals.**

During lockdown you can attend places of worship for a service. However, you must not socialise with anyone outside of your household or support bubble.

You should follow the [national guidance on the safe use of places of worship](#).

Ceremonies

Weddings and funerals can go ahead with restrictions on numbers of attendees. This means:

- 15 people can attend wedding ceremonies and receptions
- 30 people can attend funeral ceremonies
- 15 people can attend linked commemorative events such as wakes or stonesettings

Test and trace

In line with government guidance for all venues, places of worship should keep a temporary record of visitors so the [NHS Test and Trace](#) service can contact people who come into close contact with somebody who has COVID-19. Test and Trace currently defines close contact as two people being with two metres of each other for 15 minutes or more.

Advice for faith communities

Congregational prayer and worship is allowed from 2 December under the guidelines mentioned above. If you wish to visit a place of worship, please note:

- If you or anyone in your household has or shows symptoms of COVID-19, do not visit a place of worship. Stay at home.
- If you are over 60 or clinically extremely vulnerable, you should take particular care to adhere to social distancing and minimise contact with others outside your household.
- You must wear a face covering in any public indoor space and on public transport, unless you are exempt. Religious garments such as the Niqab are acceptable but must fit securely round the side of the face. See the [government guidance on face coverings](#) for details
- Singing or chanting should only be

done by a limited number of performers. It should be in a large, well-ventilated place or outdoors. Performers should be at least two metres apart, or one metre with other safeguards in place, such as screens. Congregations should only join in with singing outdoors. All singing should follow the principles of the [performing arts guidance](#).

Funerals and mourning

Funerals can continue to take place. Up to 30 close family and friends can attend, depending on the capacity of the venue.

The limit applies to the whole venue, including any outside space it has. The venue must have enough space for you to follow social distancing guidelines. Check with the venue or your funeral director.

Burials and cremations are both permitted.

Linked ceremonial events such as wakes, stone settings and ash scatterings can also continue with up to 15 people in attendance. Anyone working is not included. Social distancing should be maintained between people who do not live together or share a support bubble.

Read the [government guidance for managing a funeral during the coronavirus pandemic](#).

Planning a funeral

Please don't delay holding funerals. Coronavirus safety measures will be in place for the foreseeable future.

Please consider all options to hold the funeral as soon as possible. These include:

- web-casting it so people who cannot attend can see it
- holding it at a location or time of day that would not be your first choice
- having a short service or
- having no mourners present on the day and organising a memorial service at a later date

Your funeral director can talk through the options and help you decide what is best for you.

Attending funerals

You should note the following:

- If you have any coronavirus symptoms you should not attend. Self-isolate immediately and get tested. Symptoms include a high temperature, new continuous cough or change of taste or smell. [Request a test online](#), or by phoning 119.
- If you have been instructed to self-isolate you must not attend. This applies whether you have tested positive or been in contact with someone who has.
- There is a legal exception for close relatives of the deceased to attend but even they are strongly advised not to attend. If they do attend, they must inform the funeral director and other mourners in advance, and must wear a surgical grade Type IIR face mask or higher grade. See the [government's funerals guidance for people required to self-isolate](#).
- You must wear a [face covering](#) inside the funeral venue, in a funeral director's vehicle and travelling to and from it on public transport, taxi or private hire vehicle unless you have a valid exemption.
- Stay at least two metres (six feet or three paces) apart during funerals and

when travelling to and from them.

- Wash your hands more often than usual or use hand sanitiser. Cover coughs and sneezes. There may be mourners present who are clinically extremely vulnerable or vulnerable.

If you are unable to attend

If you are unable to attend the funeral reflect at home on the day.

Some cemeteries and crematoria can web-cast the funeral for family and friends. Please check with your [local cemetery or crematorium](#).

What to do if the deceased had coronavirus

Take extra precautions if the deceased had, or is suspected to have had coronavirus:

Mourners are strongly advised not to take part in rituals or practices that bring them into close contact with the body. This includes washing, preparing and dressing the body. There is a small but real risk of infection from the deceased.

- Only have contact with the body if you are wearing personal protective equipment (PPE) and are supervised by someone trained in how to use it
- Clinically extremely vulnerable and vulnerable people are strongly advised to have no contact with the deceased.
- The deceased will go to a mortuary between death and the funeral. You

will not be able to see them there or bring them home for mourning or a wake

- Members of the deceased's household who are self-isolating are strongly advised not to attend the funeral but stay at home. Follow [stay at home guidance for households with possible or confirmed coronavirus \(COVID-19\) infection](#).

Mourning

Whilst mourning the death of your loved one, do:

- Think about arranging a memorial or wake later in the year or the following year.
- Seek your faith leader's advice about ways to mourn while observing your faith during the pandemic
- Seek [bereavement support](#) from your faith group or voluntary sector organisations.

Remembering loved ones

The pandemic prevents people mourning and remembering loved ones in the usual ways. There are other ways to do so.

You can post tributes online to remember individuals and share in collective grief.

You can remember somebody who has died in Essex as a result of the coronavirus pandemic at www.rememberme2020.uk. This national book of remembrance is open to people

of any religious faith or none. It is a space to remember anybody who has died in the UK as a result of the pandemic, whether they had COVID-19 or not.

You could also remember somebody by, for instance creating a special spot in your home or garden, creating and sharing a playlist of their favourite music, posting a tribute in a local newspaper or sharing memories in a social media group.

Sudden is a charity that supports people after sudden death, including from COVID-19. It has other [ideas for memorialising somebody who has died](#)

Faith Action has links to [coronavirus advice from leading faith organisations](#)

More information

You may also wish to visit our pages on [What to do when someone dies](#).

BEREAVEMENT SUPPORT

Many people in Colchester will sadly experience bereavement, grief and loss during the corona virus pandemic.

Measures to reduce the spread of Covid-19 may increase the emotional impact of losing somebody, whether as a result of the virus or not. Bereaved people may feel more isolated and cut off from support networks.

It is important that family, friends and communities seeking support at this time can talk to somebody they trust who will listen, empathise and point them to professional advice where necessary.

There are many online sources of trusted information and support in relation to bereavement and a number of these can be found by following the links opposite.

For those that require more structured support we suggest you contact your GP but you can also contact St Helena Hospice who provide clinical bereavement support. The Hospice team will talk to you about your bereavement and help to identify the right source of support. Contact detail are below.

St Helena Hospice SinglePoint

Members of the public, patients, relatives, carers, GPs and other health

and social care professionals can get advice and support over the phone 24/7 with regards anyone who may be in the last year of life or who have specialist palliative care needs. Call SinglePoint on 01206 890360.

SUDDEN: The charity support service Sudden has a bereavement helpline you can call on 0800 2600 400 if someone you know has died. It's open from 10am to 4pm, Monday to Friday. They can give you advice, guidance and practical support during this difficult time.

BAMEStream Bereavement Support Service is now available

BAMEStream is an alliance of practitioners, therapists, policy specialists, organisations, activists and academia who specialise in the areas of mental health and wellbeing and who's core purpose during this COVID-19 pandemic is to bring the mental health needs of the Black, Asian and Minority Ethnic community into the mainstream. Ubele has supported the launch of BAMEStream as one of the responses to the impacts of COVID-19.

COVID-19 is having a devastating impact and BAMEStream have come together to support the development and delivery of mental health and wellbeing services to ensure that the needs of our local communities are being met as a result of this pandemic and crisis.

A FREE Bereavement Support Service

has now been launched. It is being provided by our BAMEStream alliance member Nafsiyat Intercultural Therapy Centre. Nafsiyat will provide FREE culturally competent brief emotional online support to anyone from a Black, Asian or other Minority Ethnic background experiencing bereavement and loss due to the COVID-19 pandemic. They offer therapeutic support in over 20 different languages. If you have been affected by the death of a loved one due to COVID-19 and need support, please visit www.bamestream.org.uk
